Oil, XD100™

XD100™ synthetic formula oil provides uncompromised lubrication and superior performance - even in extreme conditions - especially cold temperatures down to 0°F (-17°C). XD100™ oil is a premium formulation with synthetic additives that delivers ultimate performance while providing the opportunity to reduce oil consumption. If an authorized dealer programs an Evinrude® E-TEC® outboard EMM to use XD100™ oil, you can reduce normal oil consumption compared to using a conventional oil. Only an authorized Evinrude® dealer can program your engine for this benefit.

- Uncompromised lubrication -XD100™ is specifically formulated for Evinrude® E-TEC®, Evinrude® direct injection and oil injection outboards
- Ultimate lubricity for reduced friction and wear
- Maximum detergency for reduced combustion deposits
- Smokeless, odorless, and ashless
- Formulated for extreme weather conditions, works down to 0°F (-17°C)

Oil, XD50™ Synthetic Blend

XD50™, which replaces the Evinrude RAM Injection oil, is a performance enhanced synthetic blend oil that meets the specific demands of direct injection outboards and 2-cycle outboards that specify TC-W3 certified oils.

- Reduced smoke for cleaner operation
- Protects against wear with superior lubricity
- Contains combustion cleaner to keep carbon in suspension and away from critical engine components
- XD50™ should be used in high load and performance applications for greater dependability, reliability and reduced maintenance
- Formulated for extreme weather conditions, work down to 0°F (-17°C)

Oil, XD30™ Premium Formula

XD30™ is formulated for water-cooled 2-cycle outboards and other 2-cycle engines that specify TC-W3, API TC, JASO FB certified oils.

- This exclusive performance enhanced blend provides greater lubrication and extra detergency than the minimum TC-W3 requirements
- Minimizes carbon and deposit buildup
- Protects against wear with premium lubricity and is approved for pre-mix and oil injection
- Use XD30™ in general and light load applications for dependability and value

Evinrude®/Johnson® Ultra 4-Stroke 5W40

Best oil for high load applications

- **Ultra Viscosity Stability:** Resists viscosity and thermal breakdown.
- **Ultra Sludge Protection:** Engines stay cleaner and run more efficiently.
- **Ultra Friction Reducing Properties:** Improves fuel economy and power.
- **Ultra Film Strength and Additive Package:** Reduces wear and offers superior corrosion protection.

Cobra® 4-Cycle Motor Oil

Cobra® oil is a high viscosity lubricant designed for high performance stern drives.

- Handles the newest API service ratings of SG and CD.
- Meets or exceeds GM-6094-M, Ford ESE-MCC 153-E, API service SE-SF-SG-CC-CD
- Acceptable for any diesel engine which requires a 30 weight oil.

HPF PRO™ Gearcase Lubricant

HPF PRO™ is the factory fill gearcase lubricant for Evinrude® E-TEC® outboards.

Use HPF PRO™ gear case lubricant for high performance outboards, commercial fleets, rental operations and stern drives. A high-viscosity blend of enhanced friction reducers, anti-foam agents, and synthetic E-P additives systematically deliver exceptional durability and reliability with ultimate film strength. Marine-specific inhibitors and emulsifiers deliver unequalled protection against corrosion and lubricant breakdowns caused by water intrusion.

Follow the procedures specified in the owner's manual or service manual for gearcase lubricant service.

- Promotes long gearcase life in marine use, especially in severe duty applications

Hi-Vis® Gearcase Lubricant

Hi-Vis® gear case lubricant is an exceptional heavy duty gearcase oil. It offers high film strength and protection in wet environments in 1989 and earlier V4 and smaller Evinrude® and Johnson® outboards that specify Hi-Vis®.

- **High Film Strength:** Reduces friction and wear, under normal and heavy shock load conditions
- **Thermal Stability:** Gear oil life is extended; sludge and gum accumulation are reduced
- **Rust Inhibitor:** Prevents the accumulation of rust in wet gear environments

775605

775605	HI-VIS®, 32 oz	12	DN7H19	\$11.99

Premium Blend Gearcase Lubricant

Quality lubricant recommended for all Evinrude® and Johnson® outboards, 1972 or prior with electric shift and OMC Stern Drives 1977 or prior with electric shift.

775609

P/N	Description	Pack qty	Price	
775608	Premium Blend, 16 oz	12	DN4H79	\$7.99
775609	Premium Blend, 32 oz	12	DN6H29	\$10.49
172819	Premium Blend, Gallon	1	DN23H39	\$38.99
172832	Premium Blend, 5 Gallon	1	DN83H99	\$139.99

Synthetic Gearcase Lubricant

Use this lubricant (Mobilube® SHC 75W90) for Cobra® SX stern drives. This product is not for use on Evinrude® and Johnson® outboards.

- Minimizes wear and spalling under high-speed, high torque, and high horsepower conditions
- Maximum resistance to oil breakdown from heat and extended high speed operation

Engine Tuner

For use in engine tune-up to remove gum and varnish build-up, excessive carbon deposits from rings, pistons, valves and ports. Spray through air intake of 2 and 4 cycle engines for improved performance. Not to be mixed with oil.

777185

P/N	Description	Pack qty	Price	
777185	Engine Tuner, 13 oz Spray Can	12	DN6H59	\$10.99
777189	Engine Tuner, Gallon	1	DN34H79	\$57.99

Storage Fogging Oil

Spray through carburetor intake of running engine to protect against internal corrosive acids or rust during storage. Protects all external areas from saltwater and moisture. Use on controls, connectors, linkages, and tools.

777186

P/N	Description	Pack qty	Price	
777186	Storage Fogging Oil, 12 oz Spray Can	12	DN4H19	\$6.99
777190	Storage Fogging Oil, Gallon	1	DN29H99	\$49.99

Injector Valve and Hose Assembly

Can be used with 777185 and 777186 to give them injection capability.

763644

P/N	Description	Pack qty	Price	
763644	Injector Valve and Hose Assembly	10	DN1M25	\$2.49

D.P.L.™ Light Duty Penetrating Lubricant

D.P.L.™ can be used in any application which calls for WD-40® or CRC 666. D.P.L.™ will provide better anti-corrosion protection

- Excellent as electrical wire and distributor cap dryer
- Fully-formulated, multi-purpose lubricant for eliminating a variety of corrosion and lubrication problems
- Offers excellent corrosion protection - even under severe salt water conditions
- Displaces moisture

777183

P/N	Description	Pack qty	Price	
777183	D.P.L.™ Light Duty Penetrating Lubricant, 12 oz Spray Can	12	DN5H99	\$9.99

Silicone Spray

Silicone spray lubricates, protects, and helps eliminate squeaks and binding.

- Minimizes corrosion on battery terminals
- Helps waterproof ignition systems
- Lubricates fan belts, hinges, trailer bunks and winches
- Restores and protects vinyl seats and tops

775630

P/N	Description	Pack qty	Price	
775630	Silicone Spray, 12 oz Spray Can	12	DN4H19	\$6.99

6 in 1 Heavy Duty Lubricant

This all-purpose lubricant provides a tough, long lasting, industrial strength thin film and is guaranteed to -40°F

- Heavy duty anti- corrosion and anti- rust protection
- Penetrates rust, reduces friction and displaces moisture
- Environmentally responsible; won't harm electrical contacts, rubber, vinyl, wood or paint
- Use on boats, motors, trailers, cars, trucks, sporting equipment and household equipment
- Trigger spray has mist, stream, spray and off control; ideal for shop use and larger jobs

775782

P/N	Description	Pack qty	Price	
777192	6 in 1 Heavy Duty Penetrating Lubricant, 12 oz Spray Can	12	DN5H09	\$8.49

Anti-Corrosion Spray

Evinrude®/Johnson® Parts and Accessories anti- corrosion spray is a heavy, waxy coating specifically designed to protect your engine from rust and corrosion in the hostile marine environment. Our Anti- Corrosion Spray treatment has benefitted from extensive product testing which has resulted in superior protection. It is highly effective against corrosion caused by salt water and salt spray.

777193

P/N	Description	Pack qty	Price	
777193	Anti-Corrosion Spray, 11 oz Spray Can	12	DN6H29	\$10.49

Power Trim/Tilt™ and Power Steering Fluid

Specially formulated to provide the viscosity, aniline point and lubricity necessary to insure proper pump performance and seal life in most Evinrude®/Johnson® power tilts, power trim/tilts and stern drive power steering units.

775612

P/N	Description	Pack qty	Price	
775612	Power Trim/Tilt™ and Power Steering Fluid, 10 oz Tube	12	DN3H89	\$6.49
175120	Power Trim/Tilt™ and Power Steering Fluid, Gallon	1	DN19H79	\$32.99

Evinrude®/Johnson® Biodegradable TNT Fluid™

For 2005 & newer Evinrude® E-TEC® 75-115 HP. For use in Evinrude® E-TEC® engines single ram hydraulic systems **ONLY**.

763439

P/N	Description	Pack qty	Price	
763439	Evinrude®/Johnson® Biodegradable TNT Fluid™, Quart	1	DN25H19	\$41.99

Preventative Maintenance Valve

Retro fit for older 1990 and earlier Evinrude®/Johnson® outboards. Primer solenoid allows use of fogging oil or engine tuner without removal of air silencer cover. *Do not use on 1993 9.9 and 15 HP*

175158

P/N	Description	Pack qty	Price	
175158	Preventative Maintenance Valve	6	DN4H49	\$7.49

Grease, Triple-Guard® Marine

Triple-Guard® is a tough grease that stays in place and is unaffected by vibration, saltwater, or cold temperatures.

- Reformulated - higher water resistance and improved adhesion to metal
- Ideal for owner engine maintenance
- Won't swell seals, packing or O-rings
- Compatible with other greases
- Totally waterproof to prevent water wash-off
- Not for use in wheel bearings or universal joints
- Used on spark plug wire leads

508298

P/N	Description	Pack qty	Price	
508298	Triple-Guard®, 8 oz Tube	12	DN4H19	\$6.99
775776	Triple-Guard®, 14 oz Cartridge	12	DN5H99	\$9.99
775777	Triple-Guard®, 1 lb Container	6	DN6H29	\$10.49

Note: Order in multiples of dealer pack quantities.

Triple-Guard® Marine Grease, Cartridge Gun Kit

Includes convenient one-hand grease gun and one 3 oz. cartridge of quality Triple-Guard® marine grease.

775615

P/N	Description	Pack qty	Price	
775615	Triple-Guard® Cartridge Gun Kit (POP)	4	DN18H98	\$31.63

Triple-Guard® Marine Grease, Tube Gun Kit

Kit includes 8 oz. tube of Triple-Guard® Marine Grease and one grease gun.

775617

P/N	Description	Pack qty	Price	
775617	Triple-Guard® Tube Gun Kit	1	DN11H98	\$19.97
303719	Triple-Guard®, .37 oz Tube	25	DN1M75	\$3.49
434697	Extreme Pressure Wheel Bearing Grease Gun, for use with 8 oz. tube	1	DN8H48	\$14.13

Grease, Extreme Pressure Wheel Bearing

- A must for trailer wheel bearings and corrosion control.
- Aluminum complex-based grease with excellent water shedding properties
 - Delivers outstanding resistance to severe conditions - protects from rust and oxidation in saltwater, salt air, water and corrosive atmospheric conditions
 - Strongly recommended for boat trailer wheel bearings and disc brake wheel bearings
 - **Extreme Pressure Applications:** for universal joints, steering systems, etc.

775778

P/N	Description	Pack qty	Price	
508303	Extreme Pressure Wheel Bearing Grease 8 oz Tube (POP)	12	DN4H19	\$6.99
434697	Extreme Pressure Wheel Bearing Grease Gun, for use with 8 oz. tube	1	DN8H48	\$14.13

775779	Extreme Pressure Wheel Bearing Grease 1 lb Container	6	DN6H29	\$10.49

Note: Order in multiples of dealer pack quantities.

Extreme Pressure Wheel Bearing Grease, Cartridge Gun Kit

Convenient, one-hand grease gun combined with 3 oz. cartridge of Extreme Pressure Wheel Bearing Grease.

775618

P/N	Description	Pack qty	Price	
775618	Extreme Pressure Wheel Gun Kit (POP)	4	DN18H98	\$31.63
775619	3-Pack Replacement Cartridges (POP) [1 = 6 packs of 3 cartridges]	6	DN8H39	\$13.99

Engine Degreaser

Water-based degreaser & cleaner cuts heavy grease and soil quickly on engines, available in a 1qt spray bottle or 15oz spray can.

- Just spray it on and hose it off. Can be used on just about any machinery that's greasy and needs cleaning.
- Harmless to electrical systems.

765428

P/N	Description	Pack qty	Price	
765428	Engine Degreaser, Quart Spray Bottle	12	DN5H99	\$9.99
775622	Engine Degreaser, 15 oz Spray Can	12	DN4H49	\$7.49

Carburetor and Choke Cleaner

Formulated to remove gum and varnish.

777191

P/N	Description	Pack qty	Price	
777191	Carburetor and Choke Cleaner, 11 oz Spray Can	12	DN4H79	\$7.99

All Purpose Marine Cleaner

Phosphate-free, biodegradable, and highly-concentrated detergent cleaner.

- Spray on, wipe off cleaning for boat hulls, convertible tops, vinyl upholstery
- Powerful enough to remove exhaust stains

508326

P/N	Description	Pack qty	Price	
775631	All Purpose Marine Cleaner, Quart	6	DN7H49	\$12.49
508326	All Purpose Marine Cleaner, Gallon	4	DN16H79	\$27.99

Fuel Systems Cleaner

For 2- and 4-cycle engines, to treat carbon deposit removal. Not for use on diesel systems.

- When fuel injector or carburetor is malfunctioning due to deposits, one 16 oz. bottle should be used to treat 36 gallons.
- To keep fuel injectors or carburetor in optimal operating condition. 16 oz. should be used to treat 72 gallons.

764687

P/N	Description	Pack qty	Price	
764687	Fuel Systems Cleaner, 12 oz Bottle	12	DN5H99	\$9.99

2 + 4® Fuel Conditioner

Protects the complete fuel system, conditions fuel, and extends useful shelf life when added to fresh fuels.

All operator and service literature encourages the use of 2 + 4® fuel conditioner, for day-to-day operation, particularly during periods of engine non-use. Gasoline, as purchased at the pump, has a guaranteed shelf life of three months. 2 + 4® fuel conditioner extends the useful life of fuel in a number of ways.

- **Metal deactivators** - to render brass or copper alloy chemically inactive toward gasoline
- **Anti-oxidants** - to slow the chemical breakdown of gasoline
- **Double strength** - treats more fuel per ounce
- **Corrosion inhibitors** - to help reduce long term corrosion of metal fuel system components
- **Dryers** - to absorb and isolate moisture in the fuel system
- **Concentrated formula** - 8 oz. treats 32 gallons, 16 oz. treats 64 gallons, 32 oz. treats 128 gallons

766209

P/N	Description	Pack qty	Price

766211	2 + 4® Fuel Conditioner, 55 Gallon	1	DN1889H99	\$3,149.99

Note: Order in multiples of dealer pack quantities.

Carbon Guard™

The Carbon Guard™ additive is a gasoline additive formulated to minimize carbon deposit build-up in 2-cycle and 4-cycle marine engines.

Add Carbon Guard™ to the fuel tank each time you add gasoline.

For 2-cycle and DI Engines - add 1 oz. of Carbon Guard™ for every 8 gallons of gasoline. For 4-Stroke Engines - add 1 oz. of Carbon Guard™ for every 16 gallons of gasoline. It is recommended that oil be changed on 4-stroke engines after on application of Carbon Guard™. 2-cycle engines with an excess of 100 hours of operation and not previously treated with Carbon Guard™ should be treated with engine tuner before beginning use of Carbon Guard™.

- Reduced possibility of piston ring sticking
- Reduced carbon build-up in 4-cycle intake valves
- Better overall engine performance
- Increased engine life

775629

P/N	Description	Pack qty	Price	
775629	Carbon Guard™, 12 oz Bottle	12	DN11H39	\$18.99

Paint

Factory Matched to Your Evinrude® or Johnson® Outboard or Drive System. Refer To Individual Engine Parts Book For Specific Color Application.

- For best results, please review service bulletin 2275.
- Adequate mixing is required - agitate for one full minute. Let can stand upside down for one to two minutes. Then agitate for another minute.
- Proper mixing and at least four coats are required to come close to matching original paint.
- Can only be shipped ground transportation.

Raker® & Raker II® - Bass and High Performance

Looking to plane fast - and run faster? The Raker II® prop is specially designed for building up engine RPMs and getting you on plane faster. A great prop in surfacing conditions, especially when the boat is running over 50 mph. Perfect for bass boats and high performance boats. The Raker® propeller utilizes vent holes in the outer exhaust hub to allow exhaust gases to ventilate the blade area. This allows the engine to build up RPMs and get the boat on plane faster. At higher speeds, the water rushing past the hub blocks these vent holes, preventing them from ventilating the blades. **V6 Raker II® 22, 24, 26, & 28 use the TBX™ hub system.**

- Fast, Fast, Fast...
- Custom cupped high rake blades provide superior bow lift and exceptional top end speed
- Special vent holes for powerful acceleration
- V4 & V6 engines

Rebel™ - Offshore and Cruising

The Rebel™ propeller is designed and engineered to deliver improved midrange cruising and top end performance on V6 Evinrude® E-TEC®. Large diameter and efficient blade contour provide faster speeds at lower RPMs to deliver significant improvement in fuel economy. Your customers will get more miles to the gallon and a longer cruising range. Standard rotation and counter rotation models are available from 15 to 25 inch pitch. Use the Rebel™ propeller on offshore boats, large runabouts, and even large pontoon boats to make them perform to their maximum potential.

- High polish stainless steel
- Designed and engineered for efficient midrange cruising
- Improved fuel economy with longer cruising range
- Use on offshore boats, large runabout, and pontoon boats.

REBEL

Cyclone™ - 4-Blade Offshore Cruising and Runabouts

When you need a prop that can hold course straight and true in all water conditions, trust the Cyclone™ prop to maintain compass headings and stay hooked up in big water. Designed for heavier and twin-engine boats as well as runabouts. **Cyclone™ uses the TBX™ hub system.**

- Ultimate performance 4-blade offshore and runabout propeller
- Stays on plane with minimum RPM
- Tracks true in all water conditions
- Less vibrations and improved fuel economy
- V6 engines

CYCLONE™

Viper™ - Runabouts and General Recreation

If you want speed, you want the Viper™ prop. It's longer swept blades and a larger diameter give this prop a better grip on the water faster acceleration, and greater top end speed. Excellent on any recreational boat, from runabouts and cruisers to deck boats.

- Versatile 3-blade performance
- Custom high luster finish
- Balance of speed and durability
- V4 & V6 engines

VIPER™

Rogue™

The new Rogue™ propeller for the 20" shaft, 40 through 115 hp Evinrude® E-TEC® provides faster acceleration and faster top speeds in stern heavy boats. Flats boat operators will appreciate this propellers ability to lift the transom and accelerate cleaner in shallower water.

- Stainless steel 4-blade design
- Polished, high luster finish
- Carry a 3 year limited warranty
- Available in 13, 15, 17, 19, and 21 inch pitch sizes

ROGUE™

SSP Prop - General Purpose and Durability

Since stainless steel is five times stronger than aluminum, the SSP can be designed and cast with thinner blades...blades that are cupped to provide better performance.

This versatile prop is an ideal upgrade replacement for aluminum propellers and provides greater performance for water skiing. If a customer has an aluminum propeller, a "direct pitch" replacement (same pitch and diameter) is recommended when upgrading to an SSP.

- Fast planing 3-blade versatile prop
- Ideal upgrade from aluminum
- Cupped blades provide superior performance

Hydrus® - Pontoon and Work Boats

A high-thrust prop designed and manufactured to meet the specific performance needs of pontoon boats and work boats. This three-blade prop provides an oversized blade area for maximum thrust and stability (it will keep its grip even when most of the weight is near the bow) and aggressive cupping for tight, balanced turning. The result? A high-thrust prop that bites the water and hangs on tight.

- Aggressive cupping holds tight in turns
- Big blade area for high reverse thrust
- Special blade contour delivers maximum thrust in any water condition

HYDRUS™

Evinrude®/Johnson® Aluminum™ Props

- **More Performance for the Money!** Evinrude®/Johnson® props are cast with a custom aluminum alloy to give them greater strength and longer life than ordinary propellers. Many of the Evinrude®/Johnson® outboards are speed cupped for better top end performance. Special baked-on corrosion-resistant paint gives added protection against salt water and galvanic corrosion.

- Precision casting provides greater strength and longer life
- Baked-on corrosion-resistant paint gives added protection
- Engineered to match the power curve of your outboard for superior performance

ALUMINUM™

Propeller Note

This catalog is not intended to be an all inclusive listing of propellers for every Evinrude®/Johnson® outboard. Refer to the specific engine parts catalog for engines not listed.

TBX™ Propeller Hub System

For Evinrude®/Johnson® Introducing the TBX™ Multiple Piece Propeller Hub System from Evinrude®/Johnson® Genuine Parts. The TBX™ prop hub system adds a new level of durability and reliability to the Raker II®, Renegade® Bass, and Cyclone™ propellers. TBX™ is designed to flex and cushion shock loads to help protect the lower unit drivetrain. The patented torsion sleeve and drive spline withstand extreme temperatures especially in high performance applications.

A TBX™ prop hub kit comes with the propeller and the multi-piece design slips together keeping the installation simple. Replacement parts are available in kits or separately.

Look for the TBX™ designation in the V6 prop chart to determine availability.

TBX™ Propeller Hub Kit P/N 177283 for Evinrude®/Johnson® Outboards

TBX™ Competitor Propeller Hub System

We DARE You to Try Our Props on Competitor Outboards! Our interchangeable TBX™ hub kit is designed to fit Mercury®, Yamaha®, Honda®, and Suzuki® V6 outboard engines.

This kit lets you install a Raker II® TBX™, Renegade® Bass TBX™, and Cyclone™ TBX™ propellers on competitor outboards.

TBX™ Propeller Hub Kit P/N 177288 for competitor outboards available July 2009.

Aluminum Propeller Interchangeable V4 Hub System

For Evinrude®/Johnson® each propeller includes a hub kit of P/N 765195 for a V4, fitting an Evinrude®/Johnson® outboard. Each hub kit includes the rubber torsion bushing, thrust washer, spacer and instructions. Accessory hub kits are required to install the propeller on competitive brands of engines. Select the accessory hub kit for competitive engines from the listing in this section.

Aluminum Propeller Interchangeable V6 Hub System

For Evinrude®/Johnson® each propeller includes a hub kit of P/N 765190 for a V6, fitting an Evinrude®/Johnson® outboard. Each hub kit includes the rubber torsion bushing, thrust washer, spacer and instructions. Accessory hub kits are required to install the propeller on competitive brands of engines. Select the accessory hub kit for competitive engines from the listing in this section.

Demo Prop Program

It's no secret that on-water testing is the key to find the right style and pitch of propeller for any boat and motor combination. The wrong propeller choice can affect boat top speed by as much as 5 to 10 MPH. It also has a direct effect on acceleration, cornering, pulling power and fuel economy. The Evinrude® Demo Prop program provides a convenient solution to help identify and select the correct propeller for nearly every application. The most popular styles and pitch sizes of Evinrude®/Johnson® stainless steel propellers are available for nearly all applications and performance requirements.

The Demo Prop Advantage:

- Demo props help you and your customer decide which prop is right for their rig.
- Demo props increase customer satisfaction – right from the start.
- Demo props save time and reduce the hassle recommending different props.
- Demo props are painted bright yellow for easy identification and loss prevention.
- Demo props are priced right and can be ordered individually to minimize your investment.

Hydrus® Propeller Exhaust Ring

Improves midrange engine operation and performance on Evinrude® E-TEC® 40, 50, 60, 75, and 90 HP engines. The Hydrus® propeller exhaust ring should be used on gearcases fitted with Hydrus® propellers, part numbers 177201, 177202, and 177203. If there are any questions refer to parts and accessories bulletin 2005-01 (P).

5006512

P/N	Description	Pack qty	Price	
5006512	Hydrus® Propeller Exhaust Ring	1	DN7H98	\$13.30

Ventilation Ring (for V-6 Only)

126669 ring should also be installed when severe ventilation is experienced with service-replacement gearcases or on 1993 20" V6 gearcases. Fits "L" and "O"-type gearcases only (not for Magnum Gearcases). See Service Bulletin 2262 and 2003-OI-P

126669

P/N	Description	Pack qty	Price	
126669	Ventilation ring (see Service Bulletin 2003-OI-P)	1	DN5H98	\$9.97
346462	Exhaust ring for 3-blade standard hub props (for use with Magnum or M Type Gearcase - and all propellers except Renegade)	1	DN5H98	\$9.97
350626	Ring, for use on Renegade Bass props on Magnum gearcases	1	DN5H98	\$9.97

Propeller Wrench

Non-floating propeller wrench for Evinrude® and Johnson® 50 HP V4 20" outboards. Not for V6 outboards.

770242

P/N	Description	Pack qty	Price	
770242	Propeller wrench 1 1/16"	1	DN11H98	\$19.97

Propeller Guard Kit

Protect propellers from underwater obstructions, floating or submerged logs and general debris. Heavy aluminum casting will absorb shocks and bumps. An asset for the fisherman wanting to get close to tree stumps or downed trees.

- For 9.9, 15 HP 2-stroke with Thru-Hub™ exhaust
- For props under 10" diameter
- Not for 15 H.O. Evinrude® E-TEC®

ICON™ Controls

The electronic shift and control component on the Evinrude® ICON™ control system features an advanced high-speed network controller that electronically delivers effortless shifting and precise throttle control in a reliable and intuitive package. Specialized features include gear position indicators, neutral throttle advance, synchronized engine trim, RPM Tune and a unique PowerSync control for multi-engine applications. ICON™ control systems are designed to help make a more reliable, user-friendly boating experience. Evinrude® E-TEC® outboards are designed to give you more time on the water.

Use ICON™ System rigging kits for the selection of an ICON™ network. Rigging kits include most components used for ICON™ System installations.

The ICON™ engine add-on kits are an additional purchase to retro fit MY 2008 thru, non-factory-ICON™ models. Engine add-on kits include under-hood shift and throttle actuators.

- **INNOVATIVE TECHNOLOGY.** The Evinrude® ICON™ system puts you in charge with the industry’s most advanced electronic engine control. The latest technology, the most versatile, the easiest-to-install, and the best looking shift & throttle ever.
- **1 to 5 Engines Ready.** The ICON™ system is engineered to control up to 5 Evinrude® E-TEC® V6 outboard engines. No application too big or too small.
- **Control From Multiple Stations.** The search for your quarry from the dual station - flying bridge is made even easier by a system which installs at an additional station with minimal parts and effort.
- **Evinrude® Innovations.** New features like RPM Tune™ and PowerSync™ give you more control than ever before.

Refer to the following pages for the complete listing of ICON™ rigging kits, and recommended I-Command™ components.

ICON™ System

ICON System - Main Station

Electronic Shift and Throttle Remote Control, Gauges, and Harnesses

ICON System				I-Command Digital Network	
Item	Description			Item	Description
1	Buss Cable Extension	7	Master Power/Key Switch	A	NMEA 2000 Cable
2	Protective Caps	8	Gateway Module	B	Terminators
3	Hub	9	Buss Cable Extension	C	T-Connectors
4	Buss Cable Backbone	10	Accessory Power Relay	D	I-Command Gauges
5	Remote Control	11	Network Power Cable		
6	Start/Stop Switch Panel				

Use *ICON* System rigging kits for the selection of an *ICON* network. Rigging kits include most components used for *ICON* System installations.

First, select one main station rigging kit per vessel for 1, 2, 3, 4, or 5 engine installations. Next, select a second station rigging kit for a dual station installation.

ICON conversion kits can be used to convert newer *Evinrude E-TEC* models. *ICON* conversion kits are available for models built without *ICON* components.

150-200 HP 60° V6 - available for 2008 and newer models

200-300 HP 90° V6 - available for 2008 and newer models

Additional *I-Command Digital Network* components are listed in the *I-Command Digital Network* section.

Choose oil tanks, fuel system components, steering components, and propellers to complete boat rigging.

ICON™ Network System

With I-Command™ or ICON™ Gauges
Evinrude® ICON™ is designed to use I-Command™ or ICON™ gauges. The ICON™ Gateway provides the connection to the I-Command™ network. The Gateway includes additional functionality as the analog to digital converter for fuel tank level supporting input from one to four fuel tanks.

- Use the table below to identify recommended I-Command™ components.

Item	P/N	Description
1	766024	I-Command Gauge and Tee, 3.5 in.
2	764155	Terminator Kit (1 per boat)
3	765349	GPS Module and Tee
4	764181	Memory Module and Tee
5	764151	Tee Connector, Individual (Included with gauge)
6	764922	Gateway Module Kit (Includes 5, 6, 7 & 9)
7	764945	Buss Extension Cable, ICON 2 ft.
8	764943	Hub, ICON
9	764161	Buss Extension Cable, I-Command 6 ft.
10	N/A	Fuel Tank Sending Unit Inputs (4 Total)

765080	Trim Plate, dual binnacle to ICON™ dual, off white	1	DN18C98	\$25.31

ICON™ Gauges, Basic Series

ICON™ Basic offers digital performance with an analog look.

- Basic functions in a high value, lower cost package
- User Friendly - no push buttons to push, no setup required. Just straight accurate engine information.
- It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network
- Easy plug and play daisy chain connections between the tachometer and accessory gauges simplify wiring.
- Works on Evinrude® E-TEC® 40-hp through 300-hp.
- Supports up to 2 engines
- Supports up to 2 fuel tanks
- Multi-function 3-n-1 gauges offer high visibility and compact installation. Two gauges offer 7 major functions.
- Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
- Engine fault warning lights
- Anti-fog lens

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Basic 3.5" Diameter

ICON™ Basic offers digital performance with an analog look.

Black P/N	White P/N	Description	Pack qty	Price	
766159	766182	3" (89mm), ICON Basic Tachometer with System Check Kit	1	DN212C98	\$283.97

766164	766187	3" (89mm), ICON Basic Speedometer Kit, 50 Mph	1	DN140C98	\$187.97
766165	766188	3" (89mm), ICON Basic Speedometer, 80 Mph	1	DN140C98	\$187.97

ICON™ Gauges, Basic 3-n-1, 5" Diameter

ICON™ Multi-function 3-n-1 gauges offer high visibility and compact installation. Two gauges offer 7 major functions.

Black P/N	White P/N	Description	Pack qty	Price	
766160	766183	5" (127mm), 3-in-1, ICON Basic Tachometer, Engine Temperature & Trim Kit	1	DN270C98	\$361.30
766166	766189	5" (127mm), 3-in-1, ICON Basic Speedometer Kit, 80 Mph with Fuel & Volt	1	DN187C48	\$249.97

ICON™ Gauges, Pro Series

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

- Specialized functions include GPS speed, fuel management, fuel economy, trip logs and many more.
- It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network
- Works on Evinrude® E-TEC® 40-hp through 300-hp.
- Supports up to 5 engines
- Supports up to 4 fuel tanks
- Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
- Multi-language support
- Engine fault warning lights
- Anti-fog lens

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Pro 3.5" and 5" Diameter

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

I-Command™ Digital Network

I-Command Digital Network with Mechanical Remote Control
Remote Control, Gauges, and Harnesses
Single Engine

I-Command Digital Network Components

Item	Description	Item	Description
1	Remote Control	4	Terminators
2	I-Command Gauges	5	T-Connectors
3	Ignition and Trim/Tilt Harness*	6	Power Supply Cable
		7	EMM Cable

*Select Ignition and Trim/Tilt Harness and multi-engine adapters as needed.

Use I-Command Digital rigging kits for the installation of the I-Command Digital network.

For one or two engine installations, select one I-Command Digital rigging kit per vessel.

Ignition and Tilt/Trim harnesses are available in multiple lengths. These harnesses are not included in I-Command Digital rigging kits.

Choose Ignition and Trim/Tilt Harnesses for one, two, or three engine installations.
Select and use multi-engine adaptor harnesses for two and three engine installations.

Additional I-Command Digital network components are identified in the I-Command Digital network section. Order extra I-Command gauges as needed.

Choose oil tanks, control cables, fuel system components, steering components, and propellers to complete boat rigging.

For multi-station rigging, use the ICON System.

Rigging Kits, I-Command™ Single Engine

I-Command™ Digital rigging kits provide the ultimate in rigging convenience. Choose your rigging kit and the appropriate Ignition/TNT harness and you've got everything you need to install a basic I-Command™ Digital system. From there you can add more gauges or optional accessories to activate advanced features of the I-Command™ Digital gauges. These new kits feature the easy to assemble and install DeviceNet™ Micro-C™ connector. With these rigging kits it makes I-Command™ Digital component selection easy.

Rigging Kit, I-Command™ Single Engine 764309

I-Command™ Digital Single Binnacle (for single binnacles **WITH KEY**).

Rigging kit includes:

- 5006186 - Single lever binnacle control **with key**
- 764163 - Network buss cable, 25'
- 5008617 - 1.8 Gallon oil tank
- 766026 - EMM Harness kit, 15'
- 764155 - Terminator kit
- 764157 - Power supply kit (single engine)
- 766024 - 3.5" Multi-function I-Command™ digital gauge
- 764168 - Fuel level converter kit, single fuel tank
- **Requires additional Ignition/TNT Harness (order to length)**

5006186

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

764309	I-Command Digital Single Binnacle Rigging Kit (for single lever binnacle control with key)	1	DN828E99	\$1,219.10
5006186	Single Level Binnacle Control with Key Switch	1	DN309H49	\$515.81

Rigging Kit, I-Command™ Single Engine 764310

I-Command™ Digital Single Binnacle (for single binnacles **WITHOUT KEY**).

Rigging kit includes:

- 5006182 - Single lever binnacle control **without key**
- 764163 - Network buss cable, 25'
- 176408 - Single engine key/stop switch
- 5008617 - 1.8 Gallon oil tank
- 766026 - EMM Harness kit, 15'
- 764155 - Terminator kit
- 764157 - Power supply kit (single engine)
- 766024 - 3.5" Multi-function I-Command™ digital gauge
- 764168 - Fuel level converter kit, single fuel tank
- **Requires additional Ignition/TNT Harness (order to length)**

5006182

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty	Price	
764310	I-Command™ Digital Single Binnacle Rigging Kit (for single lever binnacle control without key)	1	DN814E99	\$1,198.51
5006182	Single Level Binnacle Control without Key Switch	1	DN233H48	\$389.14

Rigging Kit, I-Command™ Single Engine 764311

I-Command™ Digital Surface Mount (for surface side mount **WITH KEY**).

- Rigging kit includes:
- 5006180 - Surface side mount control **with key**
 - 764163 - Network buss cable, 25'
 - 5008617 - 1.8 Gallon oil tank
 - 766026 - EMM Harness kit, 15'
 - 764155 - Terminator kit
 - 764157 - Power supply kit (single engine)
 - 766024 - 3.5" Multi-function I-Command™ digital gauge
 - 764168 - Fuel level converter kit, single fuel tank
 - **Requires additional Ignition/TNT Harness (order to length)**

5006180

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty	Price	
764311	I-Command™ Digital Surface Side Mount Rigging Kit, with key	1	DN729E48	\$1,072.77
5006180	Surface mount control with ignition, trim switch, switch	1	DN220H48	\$367.47

Rigging Kit, I-Command™ Single Engine 764312

I-Command™ Digital Concealed Side Mount (for concealed side mount).

- Rigging kit includes:
- 5006561 - Concealed side mount control
 - 764163 - Network buss cable, 25'
 - 176408 - Single engine key/stop switch
 - 5008617 - 1.8 Gallon oil tank
 - 766026 - EMM Harness kit, 15'
 - 764155 - Terminator kit
 - 764157 - Power supply kit (single engine)
 - 766024 - 3.5" Multi-function I-Command™ digital gauge
 - 764168 - Fuel level converter kit, single fuel tank
 - **Requires additional Ignition/TNT Harness (order to length)**

5006561

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty	Price	
764312	I-Command™ Digital Concealed Side Mount Rigging Kit with key	1	DN812E99	\$1,195.57
5006561	Concealed Side Mount Control	1	DN226E98	\$333.80

Rigging Kits, I-Command™ Dual Engine

I-Command™ Digital rigging kits provide the ultimate in rigging convenience. Choose your rigging kit and the appropriate Ignition/TNT harness and you've got everything you need to install a basic I-Command™ Digital system. From there you can add more gauges or optional accessories to activate advanced features of the I-Command™ Digital gauges. These new kits feature the easy to assemble and install DeviceNet™ Micro-C™ connector. With these rigging kits it makes I-Command™ Digital component selection easy.

Rigging Kit, I-Command™ Dual Engine 764313

I-Command™ Digital Dual Lever Binnacle

- Rigging kit includes:
- 5006184 - Dual lever binnacle control
 - 764163 - Network buss cable, 25'
 - 176410 - Dual engine key/stop switch
 - (2) 5008613 - 3.0 Gallon oil tank
 - (2) 766026 - EMM Harness kit, 15'
 - 764155 - Terminator kit
 - 764159 - Power supply kit (multi-engine)
 - (2) 764175 - 3.5" Multi-function I-Command™ digital gauge
 - 764168 - Fuel level converter kit, single fuel tank
 - **Requires additional Ignition/TNT Harness (order to length)**

5006184

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty	Price	
764313	I-Command™ Digital Dual Lever Binnacle Rigging Kit	1	DN1576E99	\$2,319.11

I-Command™ Digital Gauge Kits

2-inch and 3.5-inch multi-function digital gauge kits offer more ways to communicate with your engine than ever before. You decide how to view displays. I-Command™ is designed to enhance the engine monitoring capabilities. Plug and Play connections create a clean, simple, and reliable network that is expandable to meet your needs.

- Simulated analog or digital readouts
- Single, dual or quad displays
- Plug and Play connections are compliant to NMEA 2000
- 2005 and newer: Evinrude® E-TEC® 200-250 HP 90° V6 (3.3L) models
- 2008 and newer: Evinrude® E-TEC® 250-300 HP 90° V6 (3.4L) models
- 2007 and newer: Evinrude® E-TEC® 150-200 HP 60° V6 (2.6L) models
- 2007 and newer: Evinrude® E-TEC® 115 HP 60° V4 (1.7L) models
- 2009 and newer: Evinrude® E-TEC® 130 HP 60° V4 (1.7L) models
- 2008 and newer: Evinrude® E-TEC® 40-90 HP Inline (1.3L) models

Use the I-Command™ Network Design Tool on DealerPort.com to help build a complete I-Command™ Network.

Wire Harness, Ignition/TNT I-Command™ - Single Engine

Ignition/TNT - Single Engine. Required for vessels equipped with I-Command™ in order to view engine trim.

- Runs directly from the helm to the outboard
- One harness required per outboard
- Includes accessory power leads

763543

P/N	Length	Description	Price	
763543	15'	Ignition/TNT Harness 15'	DN109D98	\$157.12
763544	20'	Ignition/TNT Harness 20'	DN115D48	\$164.97
763545	25'	Ignition/TNT Harness 25'	DN121D49	\$173.55
763546	28'	Ignition/TNT Harness 28'	DN127D48	\$182.12

Wire Harness, Ignition/TNT I-Command™ - Multi Engine

Ignition/TNT - Multi Engine. Required for multi-engine vessels equipped with I-Command™ in order to view engine trim.

- Runs directly from the helm to the transom
- Includes appropriate number of accessory power leads
- One harness required per vessel
- Requires one 6' or 10' multi-engine adapter harness per outboard to complete connection from transom to outboard

763551

P/N	Length	Description	Price	
763548	20'	Ignition/TNT Harness, 2 Engines 20'	DN209D48	\$299.26
763549	25'	Ignition/TNT Harness, 2 Engines 25'	DN209D99	\$299.98
763550	20'	Ignition/TNT Harness, 3 Engines 20'	DN248D48	\$354.97
763551	25'	Ignition/TNT Harness, 3 Engines 25'	DN299D48	\$427.83

Wire Harness, Multi-Engine Adapter I-Command™

Required for use with dual or triple engine installations.

- Installs at the outboard ends of the harness only
- Available in 6 or 10 foot lengths
- Order one per engine

763552

P/N	Length	Description	Price	
763552	6'	Multi-Engine Adapter Harness 6'	DN65D98	\$94.26
763553	10'	Multi-Engine Adapter Harness 10'	DN69D48	\$99.26

EMM Harness, I-Command™ and ICON™ Gauges

Includes a harness and a tee to link the Evinrude® E-TEC® EMM to the NMEA® 2000 network.

- One EMM harness required per engine on the network.
- *Not used with ICON™ controls.*

766026

P/N	Length	Description	Price	
766026	15'	EMM Harness Kit, 15'	DN40C48	\$53.97

Power Supply Kit, I-Command™ and ICON™ Gauge

For Single & Multi-Engines. Provides 12 volt switched power to the I-Command™ network.

- One power supply kit required per vessel
- Select appropriate single or multi-engine power supply kit
- *Not used with ICON™ controls.*

764159

P/N	Description	Pack qty	Price	
764157	Power Supply Kit - Single Engine (not recommended for multiple engine applications)	1	DN21C37	\$28.49
764159	Power Supply Kit - Multi-Engine	1	DN36C48	\$48.64

Terminator Kit, I-Command™ and ICON™ Gauge

- Includes one female and one male terminator
- One terminator kit required per vessel

764155

P/N	Description	Pack qty	Price	
764155	Terminator Kit	1	DN8C48	\$11.31

Harness, Extension Network BUSS Cable,

I-Command™ and ICON™ Gauge.

Used to extend the harness between the engine and the helm of the vessel, or as an extension to a NMEA 2000® device harness.

- Required to extend gauge network cables from main station to second station application.

764163

P/N	Length	Description	Price	
765132	2'	Network buss Cable, 2'	DN12C37	\$16.49
764161	6'	Network buss Cable, 6'	DN13C49	\$17.99
764162	15'	Network buss Cable, 15'	DN16C79	\$22.39
764163	25'	Network buss Cable, 25'	DN22C87	\$30.49

Fuel Level Converter Kit, I-Command™ and ICON™ Gauge

Converts analog fuel level sender signal to a NMEA 2000® fuel level signal.

- Select for single or multiple tank configuration.
- Unconfigured converter can be programmed to the desired tank instance and fluid type.
- All fuel level converter kits include one network tee.
- *Not used with ICON™ controls.* or gauges.

764168

P/N	Description	Application	Price	
764168	Fuel Level Converter Kit - I0	Instance 0 (Tank 1)	DN75C98	\$101.30
765047	Fuel Level Converter Kit - Dual Tank	2 Fuel Tanks	DN156C47	\$208.63

Tees, Network - Single I-Command™ & ICON™ Gauge

Used for adding NMEA 2000® devices to the network.

- Single network tees are included with all kits
- Order individual tees for adding devices not sold in kits or for service replacement of an existing network tee

764151

P/N	Description	Application	Price	
764151	Tee - Single	One required per device added	DN9C98	\$13.31
766027	Tee - Bulk pack 10 pcs	One required per device added	DN94D78	\$135.40

Oil Level Converter Kits with Sender, I-Command™

Used to add oil level sender capability to 1.8 gallon, 3.0 gallon or 10 gallon oil tank.

- Oil level converter kits include the converter cable, an oil level sensor and network tees

764271

P/N	Description	Pack qty	Price	
764271	Oil Level Converter Kit - Single Engine (1.8 gallons)	1	DN113C48	\$151.30
764272	Oil Level Converter Kit - Single Engine (3.0 gallons)	1	DN116C98	\$155.97
764273	Oil Level Converter Kit - Dual Engine (1.8 gallons)	1	DN227C48	\$303.30
764274	Oil Level Converter Kit - Dual Engine (3.0 gallons)	1	DN232C97	\$310.63
764275	Oil Level Converter Kit - Triple Engine (3.0 gallons)	1	DN340C47	\$453.96
763737	Oil Level Converter Kit - 10 Gallon Tank	1	DN78C48	\$104.64

ICON™, Water Pressure Sensor

Application Chart

P/N	HP Range	Model Year	Pressure Range PSI	Sensor Mounting Location
5008300	115-200HP	2008 thru	0-30	Engine
5008640	200HO-300HP	2012 thru	0-60	Engine
765038	40-90HP and 115-300HP	2008 thru	0-100	I-Command™

Order quantity one per engine.

P/N	Description	Pack qty	Price	
5008300	Block Mounted Water Pressure Sensor Kit, one per engine (0-30 PSI maximum pressure range) - 115-300 HP 2008 thru 2011	1	DN128E98	\$189.68
5008640	Block Mounted Water Pressure Sensor Kit, one per engine (0-50 PSI maximum pressure range) - 115-300 HP 2012 thru	1	DN128E98	\$189.68
765038	NMEA Network Based Water Pressure Sensor Kit (0-100 PSI pressure range) - 40-90 HP 2008 thru	1	DN90C48	\$120.64

Water Pressure Sensor Kits, I-Command™

Required to view water pressure on I-Command™ gauges. Can also be configured to provide speed over water when connected to a standard transom mount pitot tube or engine gearcase pitot tube.

- I-Command™ water pressure sensor works with all Evinrude® E-TEC® outboards supporting I-Command™ and ICON™ gauges.
- Includes network tees as required

5008640 & 765038

P/N	Description	Pack qty	Price	
5008300	Block Mounted Water Pressure Sensor Kit, one per engine (0-30 PSI maximum pressure range) - 115-300 HP 2008 thru 2011	1	DN128E98	\$189.68
5008640	Block Mounted Water Pressure Sensor Kit, one per engine (0-50 PSI maximum pressure range) - 115-300 HP 2012 thru	1	DN128E98	\$189.68
765038	NMEA Network Based Water Pressure Sensor Kit (0-100 PSI pressure range) - 40-90 HP 2008 thru	1	DN90C48	\$120.64
765045	Dual Engine Water Pressure Sensor Kit (0-100 PSI pressure range)	1	DN180C47	\$240.63
765046	Triple Engine Water Pressure Sensor Kit (0-100 PSI pressure range)	1	DN270C47	\$360.63

GPS Module & Tee, I-Command™ and ICON™ Gauge

Required to view GPS speed over ground (SOG), longitude and latitude, time, and to support fuel management functions.

- Includes one network tree

765349

P/N	Length	Description	Price	
765349	16"	GPS Antenna - SOG input	DN174C74	\$232.99

Memory Module Kit, I-Command™ and ICON™ Gauge

- Used to support fuel management functionality to the I-Command™ gauges. Works with up to 5 engine applications.
- One per vessel for 1 to 3 engines.
- Two per vessel for 4 to 5 engines

Not Required with ICON™ Pro gauge.

764181

P/N	Length	Description	Price	
764181	18"	Memory Module Kit	DN51C98	\$69.30

Speed/Fuel Economy Kit, I-Command™ and ICON™ Gauge

- Used to provide complete fuel management functionality to the I-Command™ gauges. Works with single, dual or triple applications.
- Includes two network tees, GPS and memory module.
- One kit per vessel.
- Not required with ICON™ Pro Gauge.

764315

P/N	Description	Pack qty	Price	
764315	Speed/Fuel Economy Kit	1	DN240E48	\$353.65

Speed Kit, Paddle Wheel I-Command™ & ICON™ Gauge

Measures speed over water only.

765150

P/N	Description	Pack qty	Price	
765150	Transducer, Speed Only, Transom Mount	1	DN90C98	\$121.30

Temperature Kit, I-Command™ & ICON™ Gauge

Measures fluid, air or mechanical temperatures.

- Includes a 12' lead and one network tee.

764183

P/N	Description	Pack qty	Price	
764183	Temperature Kit	1	DN74C98	\$99.97

Tri-Ducer Kit, Paddle Wheel - Transom Mount, I-Command™ & ICON™ Gauge

Measures SOW (speed over water), depth and, water temperature.

- Includes a 12 foot lead and one network tee.

764671

P/N	Description	Pack qty	Price	
764671	Paddle Wheel Tri-Ducer, Transom Mount, Speed, Depth, Temperature	1	DN221D98	\$317.12
764672	Transducer, Transom Mount - Depth/Temp Only	1	DN207D98	\$297.12

Tri-Ducer Kit, Paddle Wheel - Thru Hull, I-Command™ & ICON™ Gauge

Plastic thru-hull tri-ducer measures SOW (speed over water), depth and, water temperature.

- Includes a 12 foot lead and one network tee.

764673

P/N	Description	Pack qty	Price	
764673	Paddle Wheel Tri-Ducer, Thru Hull, Plastic, Speed, Depth, Temperature	1	DN215D48	\$307.83

I-Command™ Digital Data Functions

I-Command™ Digital Gauges are capable of displaying 30 separate data functions.

Standard Gauge Functions	Required I-Command™ Component	P/N
Tachometer		
Fuel Flow Rate		
Push-Button Auto Winterize		
Multi-Engine RPM Sync Display		
Multi-Engine Combined Fuel Use		
Engine Status/Fault	3.5" I-Command™ Digital Gauge Kit	764175
Engine Hour Meter	(minimum of one 3.5" gauge recommended per engine)	
Engine Trim Level *	2" I-Command™ Digital Gauge Kit	764177
Engine Temperature		
Alternator Voltage		
Battery Voltage		
Engine Load % of Throttle		
Barometric Pressure		
* Trim function not available on I-Command™ Gauges when used with Evinrude® E-TEC 40-90 HP Outboards. Analog gauge must be used to view trim on these models.		
Optional Gauge Functions	Required I-Command™ Component	P/N
Engine Water Pressure	Single Water Pressure Sensor Kit (0-100 PSI)	765038
	Dual Water Pressure Sensor Kit (0-100 PSI)	765045
	Triple Water Pressure Sensor Kit (0-100 PSI)	765046
	Block Mounted Water Pressure Sensor Kit (0-30 PSI) (one per engine)	5008300
Oil Tank Level	1.8 Gallon Single Engine Oil Level Kit	764271
	3.0 Gallon Single Engine Oil Level Kit	764272
	1.8 Gallon Dual Engine Oil Level Kit	764273
	3.0 Gallon Dual Engine Oil Level Kit	764274
	3.0 Gallon Triple Engine Oil Level Kit	764275
	10.0 Gallon Oil Level Kit	763737
Fuel Tank Level	Unconfigured Fluid Level Kit	764166
Fuel Used	Fuel Level Kit - I0 - Single Tank	764168
	Memory Module Kit	764181
GPS Speedometer, Speed Over Ground - SOG		
GPS Position in Longitude and Latitude	GPS Antenna and Quick Mount Kit	765349
GPS Clock		
Fuel Economy	Required	Speed/Fuel Economy Kit - GPS and Memory Module
Fuel Range		764315
Trip Fuel Used	Choose one	Memory Module Kit or
Seasonal Fuel Used		Speed/Fuel Economy Kit - GPS and Memory Module
		764315
Speedometer, Speed Over Water - SOW	Choose one	Paddle Wheel Speed Only Kit or
		765150
		Transom Mount Tri-Ducer, Speed, Depth, Temperature or
Seawater Temperature	Choose one	764671
		Plastic Thru-Hull Tri-Ducer, Speed, Depth, Temperature or
		764673
Depth	Choose one	Temperature Sending Kit
		764183
		Transom Mount Tri-Ducer, Speed, Depth, Temperature or
Livewell Temperature, Baitwell Temperature, Air Temperature	Choose one	764671
		Plastic Thru-Hull Tri-Ducer, Speed, Depth, Temperature or
		764673
Fluid Levels (livewells, holding tanks)	Required	Transom-Mount Tri-Ducer, Speed, Depth, Temperature
		764672
		Temperature Sending Kit
		764183
	Required	Unconfigured Fluid Level Kit
		764166

SystemCheck® Network

With mechanical remote control.

SystemCheck Gauges with Mechanical Remote Control
Remote Control, Gauges, and Harness
Single Engine

SystemCheck Network			
Item	Description	Item	Description
1	Remote Control	4	Warning Horn
2	3.5" SystemCheck Tachometer	5	2" Gauge
3	MWS Harness	6	3.5" Gauge

Use SystemCheck rigging kits for the installation of SystemCheck components. Rigging kits include most components used for SystemCheck installations.

For one or two engine installations, select one SystemCheck rigging kit per vessel.

SystemCheck gauges and additional components are listed in the SystemCheck section.

Choose oil tanks, control cables, fuel system components, steering components, and propellers to complete boat rigging.

For multi-station rigging, use the ICON System.

Rigging Worksheet- SystemCheck®

P/N	Description	Pack qty	Price	
5006184	Dual Lever / Dual Engine Binnacle Control	1	DN448H99	\$748.31

Rigging Kits, SystemCheck® Dual Binnacle

Evinrude® E-TEC® (15HO-300 HP) Kits. These kits provide convenience for ordering and easier inventory management. See description for detail of kit components.

Rigging Kit, SystemCheck®, Dual Binnacle with Oil Tank, 20' MWS

Evinrude® E-TEC® (115-300 HP) Dual Engine Kits.

P/N	Description	Pack qty	Price	
763856	Rigging Kit includes: 1.8 gal oil tank (5008617), Dual Key Switch kit (176410), Dual lever/Dual Engine binnacle control (5006184), 20' MWS (176341)	1	DN1039E49	\$1,528.66

Rigging Kit, SystemCheck®, Dual Binnacle with Oil Tank, 28' MWS

Evinrude® E-TEC® (115-300 HP) Dual Engine Kits.

P/N	Description	Pack qty	Price	
763857	Rigging Kit includes: 1.8 gal oil tank (5008617), Dual Key Switch kit (176410), Dual lever/Dual Engine binnacle control (5006184), 28' MWS (176342)	1	DN1089E99	\$1,602.92

Rigging Kit, SystemCheck®, Dual Binnacle without Oil Tank, 20' MWS

Evinrude® E-TEC® (15HO-90 HP) Dual Engine Kits.

P/N	Description	Pack qty	Price	
763867	Rigging Kit includes: Dual Key Switch kit (176410), Dual lever/Dual Engine binnacle control (5006184), 20' MWS (176341)	1	DN786E98	\$1,157.33

Rigging Kit, SystemCheck®, Dual Binnacle without Oil Tank, 28' MWS

Evinrude® E-TEC® (15HO-90 HP) Dual Engine Kits.

P/N	Description	Pack qty	Price	
763868	Rigging Kit includes: Dual Key Switch kit (176410), Dual lever/Dual Engine binnacle control (5006184), 28' MWS (176342)	1	DN837E49	\$1,231.60

Cables - Control (Shift & Throttle)

Evinrude®/Johnson® Shift and Throttle Cables

Evinrude®/Johnson® Genuine Parts offers two types of control cables to deliver superior performance in almost any rigging situation. They are called Snap-In Classic and Snap-In HE. Each style has enhanced designs that deliver high performance and efficiency in nearly every installation. Snap-In Classic and Snap-In HE cables are dedicated to the exact connection points for Evinrude®/Johnson® outboards.

ALL Evinrude®/Johnson® Shift and Throttle cables feature an industry best 3 year limited warranty.

Which control cable is the right choice for my boat - Snap-In Classic or Snap-In HE?

SNAP-IN CLASSIC CABLES FOR BETTER PERFORMANCE!

Lubricated Liner - Smoother operation, longer life

Because of our lubricated liner, we can accept a smaller tolerance between the core wire and liner. This lower tolerance keeps the cable from moving sideways in the liner resulting in less cable backlash.

Stainless Steel Core Wire - Salt water corrosion resistant

Most of the imitation cables do not use stainless steel. The area between the core wire and liner is a perfect environment for corrosion. This concern is addressed by using high quality stainless steel core wires.

Hard Drawn Steel Lay Wires

16 lay wires support the cable. Many imitation cables use less than half as many lay wires. With this much support in a cable, you are guaranteed a smooth radius without "kinks".

**NO ADAPTER
KITS REQUIRED**

COMPETITOR'S CABLE

Choose the Snap-In Classic cable for short cable runs up to 22 ft. that have simple routings with the fewest twists and bends. The Snap-In Classic cable delivers better performance than competitors imitation control cables.

SNAP-IN HIGH EFFICIENCY CABLES FOR BEST PERFORMANCE!

Choose the Snap-In HE, high efficiency cable for long cable runs and complex routing paths through the boat. Snap-In HE cables have lower friction and reduced lost motion which translates to smoother shifting and more responsive throttle operation in the toughest rigging conditions. Snap-In HE delivers superior performance.

Cable Assembly, TFXtreme®

TFXtreme®'s unique breakthrough design assures unparalleled smoothness and efficiency - with hardly any lost motion - even in the longest and most complex cable routings.

TFXtreme®'s unique design incorporates a patent-pending spined core to achieve the "impossible." Ridges on the core allow a close fit with the cable's inner liner, but with minimum contact, so the core glides back and forth smoothly like a skater on ice. The result - easy movement and minimum lost motion.

Cable Assembly, 3300 TFXtreme® Control

776830

Cable Assembly, 3300 Type Control

Universal (or 3300/33) type throttle/shift control cables are direct replacements for many boats using aftermarket controls or the following engine makers' controls: Mariner®, MerCruiser®, Mercury®, BMW®, Chrysler®, Honda®, Nissan®, Suzuki®, Tohatsu®, Volvo®, Yamaha® and others. For twin stations and other demanding applications, we recommend TFXtreme®.

176333	Extension between MWS harness and engine - 5'	1	DN80E48	\$118.35
176334	Extension between MWS harness and engine - 10'	1	DN103E48	\$152.18
176335	Extension between MWS harness and engine - 20'	1	DN124E98	\$183.80

Extensions Between Harness and Dash - 1996 & Newer

P/N	Description	Pack qty	Price	
176715	Key switch extension - 6 wire - 3'	1	DN15H48	\$25.80
176716	Trim Switch extension - 3 wire - 3'	1	DN11E98	\$17.62
176717	System Check MWS extension - 8 wire - 3'	1	DN32E98	\$48.50
176718	Horn extension - 2 wire - 3'	1	DN8E48	\$12.47

Note: All extensions are 3' long.

Horn Driver

Can be used in place of a SystemCheck® gauge, provides audible signal only. No lights. Will void warranty if used with Direct Injection (Ficht) and E-TEC® models.

176794

P/N	Description	Pack qty	Price	
176794	Horn Driver (see Service Bulletin 2330)	1	DN104E48	\$153.65

Adapter Harness SystemCheck®

1995 or Older Boat to 1996 & Newer Engine with SystemCheck® Engine Monitor

Kit includes:

- Harness to adapt engine and trim connections - 10 feet long
- Harness to supply SystemCheck® signals to the dash - 26 feet long
- Pickup kit for 1.8 gallon oil tank (Connectors and circuitry in the 1995 and earlier tank are not compatible)
- To accommodate a 3.0 gallon oil tank, order pickup p/n 5008614
- Horn Kit - connects to SystemCheck® harness

176345

P/N	Description	Pack qty	Price	
176345	Adapter Kit	1	DN249E49	\$366.89

Note: Customer must select appropriate SystemCheck® gauge to complete the conversion.

Adapter Harness - Non-SystemCheck®

1995 or Older Boat to 1996 & Newer Engine without SystemCheck® Engine Monitor

Kit includes:

- Harness to adapt engine and trim connections - 12 inches long
- Harness to adapt oil tank connection - 4 inches long

176349

P/N	Description	Pack qty	Price	
176349	Adapter Kit	1	DN124E98	\$183.80

Note: Kit does not provide visual warnings.

Adapter Harness SystemCheck®

1996 or Newer Boat with SystemCheck® Engine Monitor to 1991 - 1995 Engine

Kit includes:

- Harness to adapt engine and trim connections - 10 feet long
- Harness to adapt oil tank connections
- Jumper leads and hardware to adapt no oil, engine temperature and vacuum switch senders

176346

P/N	Description	Pack qty	Price	
176346	Adapter Kit	1	DN186E48	\$274.24

Note: Engines older than 1991 must be upgraded to 4 wire VRO.

Adapter Harness SystemCheck®

Add SystemCheck® Engine Monitor to a 1991 - 1995 Boat and Motor

Kit includes:

- Harness to adapt engine and trim connections - 10 feet long
- Harness to supply SystemCheck® signals to the dash - 26 feet long
- Pickup kit for 1.8 gallon oil tank (Connectors and circuitry in the 1995 and earlier tank are not compatible.) To accommodate a 3.0 gallon oil tank, order pickup p/n 5008614.
- Horn Kit - connects to SystemCheck® harness
- Wiring to convert engine to SystemCheck®

176709

P/N	Description	Pack qty	Price	
176709	Adapter Kit	1	DN274E99	\$404.39

Note: Customer must select appropriate System Check® gauge to complete the conversion.

Wiring Harness Connector Dielectric Grease

Proven for marine, automotive and truck applications. Superior connector lubricant/sealant based upon synthetic hydrocarbon base oils.

- Oxidation resistant
- Proven salt water soak/spray resistance
- Prevents corrosion of terminals
- Reduces insertion forces
- Packaged in easy-to-use syringe dispensers or 4 oz. squeeze tube

503243

P/N	Description	Pack qty	Price	
503243	Wire Harness Connector Dielectric Grease, 30cc Syringe	1	DN15C98	\$21.31
504824	Wire Harness Connector Dielectric Grease, 4 oz Tube (POP)	1	DN24C48	\$32.64

Key Switch Kit - Single Engine

Connect to main electrical cable when using a control that is not pre-wired. Includes horn and emergency stop switch.

- Requires one SystemCheck® MWS wiring harness

176408

P/N	Description	Pack qty	Price	
176408	Key Switch Kit	1	DN65E98	\$97.03
174653	Bezel Kit (bezel and 2 screws)	1	DN7H98	\$13.30

Key Switch Kit - Dual Engine

Connect to main electrical cable when using a control that is not pre-wired. Includes two horns and emergency stop switch.

- Requires two SystemCheck® MWS wiring harnesses

176410

P/N	Description	Pack qty	Price	
176410	Dual Key Switch Kit	1	DN132E48	\$194.83
174693	Bezel Kit (bezel and 4 screws)	1	DN9E98	\$14.68

Connectors - Trim "Y"

To provide electrical connections to "tap into" the trim harness with a second trim switch (i.e. bow mounted trim).

176560

P/N	Description	Pack qty	Price	
176534	"Y" Connector Only - 6"	1	DN23H48	\$39.13
176588	"Y" Connector with 13' Cable no Switch	1	DN30H98	\$51.63
176560	"Y" Connector with 13' Cable and Remote Trim Switch (Tiller Engine Instrumentation Adapter)	1	DN43H48	\$72.47

Pro Trim® from Teleflex®

Pro Trim® offers trim or jack plate control at your fingertips with a column mounted switch that looks great in any cockpit. Best of all, you can keep your hands on the wheel and concentrate on your driving. Will fit: SeaStar® hydraulic steering, Teleflex® cable steering and most other brands of cable steering.

- Order the "Y" connector for plug & play connections.

P/N	Description	Pack qty	Price	
772022	ProTrim® Single	1	DN54D98	\$78.54
772023	ProTrim® Dual	1	DN74D98	\$107.12
176534	"Y" Connector Only - 6"	1	DN23H48	\$39.13

Trim Control - Steering

Steering Trim Control unit provides trim control without removing hands from steering wheel.

- Place engine trim control at your fingertips for maximum safety and ease of operation
- Enhances control of any high performance boat
- Weather proof switch mounts easily to steering wheel
- Molded of black plastic with raised white letters
- T.H. Marine p/n ST-1

P/N	Description	Pack qty	Price	
504278	Steering Trim Control	1	DN31G48	\$49.19
176534	"Y" Connector Only - 6"	1	DN23H48	\$39.13

Trim Control - Floor Mount

Floor mounted trim control for high performance bass boats.

- Mounts in floor of boat under the console
- Allows operator to trim engine with foot
- Comes pre-wired with wiring instructions to connect it to existing trim wiring
- T.H. Marine p/n HT-1

504280

P/N	Description	Pack qty	Price	
504280	Floor Mount Trim Control	1	DN30F83	\$46.24
176534	"Y" Connector Only - 6"	1	DN23H48	\$39.13

(INF)**Foot Throttle Control - Hot Foot™**

Marine Foot Throttle makes driving boats fun and safe.

- Mounts directly to floor for outboard and inboard engine applications
- Adaptable to all high performance boats
- Cast aluminum reduces weight and resists corrosion
- Stainless steel hardware with Teflon® and nylon bearing surfaces for trouble free operation
- Stainless steel spring returns engine to idle position when released
- Toe clip for additional safety in extreme operating conditions
- Provisions for additional return spring if required
- Uses standard control cables for easy hook-up
- Adjustable Slide Mount allows boaters to adjust the Hot Foot™ for maximum comfort and adjust to different heights for drivers (HFM-1)

504281

P/N	Description	Pack qty	Price

Gauges - Concept™ Series Instruments

White dial face, black letters, perimeter lit, black pointer, short black bezel

These instruments are built tough, to withstand the rigors of life on the water. Solid-state electronics temperature-resistant plastics and scratch-resistant glass lenses are engineered into every instrument to ensure a long life of accurate reading. Plus, they feature perimeter lighting for night reading.

P/N	Description	Dia.	Price	
775797	Fuel Level Gauge	2"	DN27H98	\$46.63
172114	Universal Fuel Gauge Sending Unit		DN28H48	\$47.47

Trim Plates & Spacers - Remote Control

Cover plates and spacers are available for the current style Evinrude® controls. Although the controls are designed to fit a wide variety of boat consoles and applications, you may encounter situations in a repower or service replacement when the new control does not fit the old cutout exactly right. These control box cover plates provide a convenient way to cover the screw holes and cutout left from the old control. They eliminate the need for fiberglass repairs plus are weather and waterproof. These attractively priced spacers are custom designs for an exact fit from the old control to the new controls and are available in 3 colors.

Trim Plates - Dual Binnacle

Used to cover older dual lever binnacle control cutout hole and fit to current style dual binnacle control.

764232

P/N	Description	Pack qty	Price	
764231	Trim plate, dual binnacle, white	1	DN17C98	\$23.97
764232	Trim plate, dual binnacle, off white	1	DN17C98	\$23.97
764233	Trim plate, dual binnacle, black	1	DN17C98	\$23.97
765073	Wedge Plate, White, 1", dual lever control	1	DN40C98	\$54.64
765074	Wedge Plate, Off-White, 1", dual lever control	1	DN40C98	\$54.64

Trim Plates - Single Binnacle with Key

Used to cover cutout hole for older single lever binnacle with key and fit to current style single binnacle with key.

764235

P/N	Description	Pack qty	Price	
764234	Trim plate, single binnacle with key, white	1	DN18C98	\$25.31
764235	Trim plate, single binnacle with key, off white	1	DN18C98	\$25.31
764236	Trim plate, single binnacle with key, black	1	DN18C98	\$25.31
765112	Wedge Plate, White, 1", OMC single lever control	1	DN41C48	\$55.31
765113	Wedge Plate, Off-White, 1", OMC single lever control	1	DN44C48	\$59.31

Trim Plates - Single Binnacle No Key

Used to cover cutout hole for older single lever binnacle, no key and fit to current style single binnacle no key.

764238

P/N	Description	Pack qty	Price	
764237	Trim plate, single binnacle without key, white	1	DN14C48	\$19.31

Spacers - Concealed Side-Mount

Used to increase clearance between bulkhead and control handle grip of current style concealed side mount.

764243

P/N	Description	Pack qty	Price	
764243	Spacer, ½" thick, black	1	DN18C98	\$25.31

Note: 5/8" Maximum bulkhead thickness allowed before spacer installation.

Depth Sounder Kit

- Depth range to 199 feet (61m)
- Reads depth in meters, fathoms and feet
- Oversized backlit display
- Easy installation
- Keel offset, shallow and deep water audio and visual alarms
- Both include transom mount transducer (p/n 775651)

P/N	Description	Pack qty	Price	
775671	Depth Sounder Kit	1	DN112H98	\$188.30
775686	Depth Sounder Kit	1	DN112H98	\$188.30

Transducers - Analog Style

- For use with SystemCheck® Commander gauges

P/N	Description	Pack qty	Price	
775651	Standard Transom Mount Transducer	1	DN61H48	\$102.47
776011	Through Hull Transducer	1	DN62H48	\$104.14
776012	In Hull Transducer	1	DN55H48	\$92.47

Hourmeter - Mini

- Solid state electronics: no moving parts
- 100% Epoxy encapsulation: the mini hourmeter can withstand extreme vibration, shock and exposure to water ... even salt water
- Flash notification: special "Flash Notification" feature alerts operator when it is time to inspect and change gear lubricant. Gives alert for 10 hour break-in, 50 hour inspection and 100 hour change
- LCD digital display is always on: competitive hour meters go dark when the power is interrupted. With the mini hourmeter, the battery has a life expectancy up to 14 years
- Records and displays to 9,999.9 hours
- Hour glass indicator: an hour glass indicator on the display appears and flashes on/off to indicate counting time
- Quarts accuracy: + or - .02% (over entire voltage and temperature range)
- Super convenience ... super value

P/N	Description	Pack qty	Price	
776020	Mini Hourmeter	1	DN30E48	\$44.82

Cable Boot, Motorwell

Motorwell boot effectively meets the ABYC standards.
 • Made of vinyl Plastisol, resists oil, gas and salt water
 • Easily installed, covers holes to 10 cm (4") diameter

771970

P/N	Description	Pack qty	Price	
771970	Cable Boot	1	DN2H24	\$3.73

Cable Boot, Open Motorwell

The first truly functional cable boot. Eliminates the need to split or cut your motor well boot to pass cables through. Provides a fully open area to pass wiring and cables through, when rigging is complete simply pull cable tie snug around wires and cable to complete installation.

- Easy to install
- Constructed of rugged black vinyl that resists ultraviolet rays, gasoline and oil
- Available in two sizes to cover all installation requirements

504300

P/N	Description	Pack qty	Price	
504300	3" Motor Well Cable Boot	1	DN3M21	\$6.42
504301	4 1/2" Motor Well Cable Boot	1	DN4M48	\$8.96

Hose, Split Conduit

- Flame retardant cable/wire harness cover
- Split for easy access to route wires
- Polyethylene

503956

Cables - Battery with Terminals

The Evinrude®/Johnson® battery cable product line has been developed using a thermoplastic elastomer (TPE) jacket compound versus the standard PVC insulation.

- Thermal range - 55° C to 105° C
- Enhanced flexibility
- Higher resistance to fuels, oils and abrasion

Steering System, TITAN by Merton

The Merton "Titan" is a patented, hydraulically controlled, anti-feedback steering system for select outboards equipped with factory or accessory add-on tiller arms.

How the TITAN integrates to the outboard:

A TITAN steering system utilizes a hydraulic cylinder held in place by the outboard's tilt tube. The hydraulic cylinder is attached, by actuator cables, to a pivot block mounted to the steering arm of the outboard, and it replaces the factory tiller steering arm bracket. The result is a clean installation without cumbersome hoses and hydraulic pumps that take up valuable space.

How the TITAN works:

When the operator is maintaining a set steering course, and not applying input to the tiller handle, the pivot axis is centered and is not actively pulling on either actuator cable and therefore all valves within the hydraulic circuit remain closed. A closed hydraulic circuit blocks out any steering force created by the outboard regardless of throttle position or trim position. The operator feels absolutely no steering from the outboard.

When the operator is applying input to the tiller handle in either direction, a very small amount of tiller handle movement causes the handle to pivot at the pivot axis. This causes the actuator cables to move and open one of the valves within the hydraulic circuit. As the tiller handle continues movement to effect a steering course adjustment change, hydraulic oil flows through the open circuit until the tiller handle movement ceases. At the very instant the hydraulic circuit closes, the hydraulic cylinder locks the outboard in its steering position until tiller handle movement causes the hydraulic circuit to open again. The outboard will not steer on its own at any time.

Consumer Advantages:

- Improved drivability
- Cost effective alternative to power steering
- No battery draw-down. Titan requires no voltage
- Self-contained unit takes up no space in the boat

Evinrude® Dealer Advantages:

- Easy installation
- Excellent accessory or upgrade item
- Creates satisfied and loyal customers
- Excellent profit opportunity

765081

P/N	Engine	Year	Price	
765081	40-130 HP Evinrude® E-TEC	2004-thru	DN920D50	\$1,315.00

Note: 40-130 HP Evinrude® E-TEC® outboards must be equipped with new style tiller kits that have a forward located shift lever. Tiller handle not include with Titan.

Steering Friction Kit

This kit adds external steering friction to engines that have a tiller kit installed (included in 75–115 HP tiller kits).

P/N	Description	Pack qty	Price	
5007322	Steering Friction Kit (40-115 HP), 2004-2009	1	DN139H48	\$232.47

Kicker Cable Tie Bar, SeaStar®

This SeaStar® product allows a user to manually steer an auxiliary engine (kicker motor) using the existing SeaStar® hydraulic steering system. Today this is accomplished with a variety of solid mechanical linkages between the main engine and the auxiliary engine. Teleflex® has developed a patent pending design that incorporates a Teleflex® Extreme cable as a linkage between the two engines.

- Features:
- Flexible cable allows for adjustable locations of kicker motor.
 - Allows independent trim/tilt of both engines.
 - Allows full steering stroke of both engines.

- Simplified installation using universal ABYC steering connection (as per ABYC P17 & P21 standards) on kicker motor.
 - Retrofit to SeaStar® Front Mount Cylinders.
 - Incorporates unique Teleflex® Extreme cable technology.

P/N	Teleflex P/N	Length	Description	Price	
765518	HO6116	16"	Sea Star® Auxiliary Outboard Cable & Tie Bar - 16" cable	DN306C47	\$408.63
765524	HO6122	22"	Sea Star® Auxiliary Outboard Cable & Tie Bar - 22" cable	DN306C47	\$408.63
765528	HO6128	28"	Sea Star® Auxiliary Outboard Cable & Tie Bar - 28" cable	DN306C47	\$408.63

Auxiliary Motor

The auxiliary motor steerer is a quick connect steering bar that allows both engines to be steered from the helm together. When auxiliary power is used, the steering bar is attached so you steer your auxiliary power from the helm.

- Both engines turn together with the main motor tilted up or down
- When main power is used, auxiliary motor can be raised with an auxiliary motor bracket
- The quick disconnect steering bar clips out of the way to the side of the auxiliary
- For 4 1/2, 6, 7 1/2, 8, 9.9 and 15 hp auxiliary application
- Not recommended for twin engine applications
- Can only be used on single cable steered 3 cylinder thru V6 with power tilt and trim for 1991 thru
- 175947: 9.9 and 15 hp, 2 and 4-stroke 1993-2001
- 434576: 5 thru 8 hp 1991 and later 2-stroke models and 5 and 6 hp 4-stroke engines 1998-2001

P/N	Description	Pack qty	Price	
175947	Auxiliary Motor Steering Kit	1	DN255F21	\$382.80
434576	Auxiliary Motor Steering Kit	1	DN252F48	\$378.70

Note: The center line between the main power and the auxiliary motor must be 29" to 37". The auxiliary motor must be port mounted using an auxiliary motor bracket and steering connector with a NMMA® certified motor mounted steering system.

Steering Link Kit, Ranger® Boats Auxiliary Engine

Attaches from the main engine to auxiliary engine. Special configuration for auxiliary outboards on Ranger® boats.

- Recommended for use with auxiliary motor lift p/n 778743 (Engine Accessories Section)

Steering Packages, “The Rack”®

The most popular rack and pinion system in boating! The helm incorporates an extruded pinion gear that engages a pre-assembled tack and cable, driving an armored-stranded core for minimized steering effort. Twin-cable systems recommended for boats that exceed 50 mph or experience instability due to engine flutter. Follow engine maker recommendations. The package includes: single helm, 90° bezel, and steering cable.

Applications:

- Boats up to 24'
- Steering wheels up to 16"
- Single and dual engines
- See safe steering page
- Small cruisers
- Outboard runabouts
- Bass boats
- Jet boats
- Pontoon boats
- Houseboats

Features:

- Standard ¾" tapered shaft
- Four turns lock-to-lock for standard travel
- Optional wedge kits offer mounting flexibility
- Stainless steel cable ends minimize corrosion
- Exceeds ABYC safety standards and NMMA® certification requirements

Steering Packages, Safe-T® Quick Connect

The OEM choice for safe, simple, reliable steering for boats up to the 24' range! To enhance the simplicity of this design, we now offer the Safe-T® Quick Connect (QC) system. This system does not require tools for connection of the SSC62 cable to the helm, thereby reducing installation time up to 50%. We have also trapped the nut on the engine end of the cable, which ensures coupler nuts remain at the engine end during cable installation. Twin cable systems are recommended for boats that exceed 50 mph or experience instability due to engine flutter. Follow engine maker recommendations. The package includes: single helm, 90° bezel, and steering cable.

Applications:

- Boats up to 24'
- Steering wheels up to 16"
- Single engines
- See safe steering page
- Small cruisers
- Outboard runabouts
- Bass boats
- Pontoon boats

Features:

- Compact rotary helm unit occupies minimum space behind the dashboard
- Three turns lock-to-lock for standard travel
- Variety of bezels offer mounting flexibility
- Stainless steel cable output ends minimize corrosion
- Standard 3/4" tapered shaft
- Exceeds ABYC safety standards and NMMA® certification requirements

Steering Packages, No-Feedback (NFB™)

The most revolutionary advancement in mechanical steering since the Teleflex® helical cable! Built with the same emphasis on safety, durability and performance as the Safe-T®, Big-T and "The Rack"® steering systems, the newly designed No-Feedback helm unit locks out torque feedback from the engine to the steering wheel, reducing driver fatigue. The precision die cast zinc helm unit uses the new SSC61XX helical cable assembly for quick and easy installation. A dual-cable helm is recommended for boats that exceed 50 mph or experience instability due to engine flutter. Follow engine maker recommendations. The package includes: single helm, 90° bezel, and steering cable.

Applications:

- Boats up to 24'
- Steering wheels up to 16"
- Runabouts
- Bass boats
- Center consoles

Features:

- Patented No-Feedback mechanism
- Compact rotary helm unit
- Standard ¾" tapered shaft
- 4.2 turns lock-to-lock
- Utilizes standard Safe-T® bezel kits for mounting flexibility
- Low profile dual-cable helm uses minimal space behind the dash
- Stainless steel cable output ends minimize corrosion
- Exceeds ABYC safety standards and NMMA® certification requirements

Steering Packages, No-Feedback (NFB™) Rack Single Cable

Teleflex® has applied its patented No-Feedback technology to the incredible precision of a rack and pinion system, and engineered-in serious advances in steering comfort and control. The NFB™ Rack is the rack and pinion steering system of tomorrow, and it's available today in single cable configuration for outboards up to V-4. The package includes: single helm, 90° bezel, and steering cable.

Applications:

- The NFB™ Rack is suitable for most boats with single non-power assisted outboard engines up to V-4 and minimal engine flutter or steering instability.
- New Back-Mount design means easy installation: helm & cable are installed as a unit from behind the dash
- Replaces standard Teleflex® rack steering systems without dash modifications

Features:

- Patented No-Feedback steering mechanism
- Precision feel of 4.0 turns from lock-to-lock
- Minimal clutch free play
- Standard ¾" tapered steering shaft
- Stainless steel cable output ends
- Back mount design enables fast and easy installation
- Fits industry standard Teleflex® rack dash cutout
- Meets ABYC standards
- Meets NMMA® certification requirements

Steering Packages, NFB™Dual Back-Mount Rack

Teleflex® NFB™ Rack Systems are 4.0 turn steering for the serious boater. They deliver all the precision that's made rack and pinion steering famous, and at the same time isolate the operator from the considerable steering loads today's high horsepower outboards produce.

Applications:

- The Pro Rack is suitable for high performance boats equipped with single non-power-assisted outboards in which engine flutter or steering instability is present.
- New Back-Mount design means easy installation: helm & cable are installed as a unit from behind the dash
- Replaces standard Teleflex® rack steering systems without dash modifications

Features:

- Patented No-Feedback steering mechanism
- Twin cables minimize lost motion in systems
- Precision feel of 4.0 turns from lock-to-lock
- Minimal clutch free play
- Standard 3/4" tapered steering shaft
- Stainless steel cable output ends
- Back mount design enables fast and easy installation
- Fits industry standard Teleflex® rack dash cutout
- Meets ABY standards
- Meets NMMA® certification requirements

Steering Packages, NFB™ Dual Back-Mount Rack

P/N	Teleflex P/N	Length	Description	Price

Steering Module, Power

SeaStar® Power Assist steering brings automotive-type steering comfort and control to powerboats.

The addition of a Power Assist unit will greatly reduce steering effort and enhance the boating experience for everyone.

The SeaStar® Power Assist steering unit is designed for use with SeaStar® manual hydraulic steering systems and is suited for all heavy / high torque steering applications.

Features:

- Dramatically reduces wheel torque
- Easy to install
- Simple 'add on' to an existing SeaStar manual system (optimal performance achieved when used with SeaStar 1.4 – 2.0 pumps)
- OEM or Retro fit
- Compatible with power purge system
- Reverts to manual mode in the case of power loss.
- Suitable for use with autopilots
- 12v or 24v operation
- Wall or floor mounted
- Wiring harness, and mounting bracket included
- Ignition protected (SAE J-1171)
- ABYC, CE, NMMA, ISO 10592 Approved

Steering Packages, BayStar™ Hydraulic

With mechanical steering you sacrifice a degree of comfort, and traditional hydraulic systems may be more than is needed on lower horsepower engines. The solution is finally here - Built in the tradition of SeaStar®, BayStar™ brings the same safety and comfort now common on larger outboard powered boats with 150 (Total). BayStar™ hydraulic steering is brought to you by the manufacturers of SeaStar®, the most trusted name in pleasure boat steering.

- Designed just for smaller outboards
- Low friction hydraulic steering system
- 4.5 turns from lock to lock
- Balanced cylinder, featuring a compact design that fits most splashwells and provides full engine movement
- Compact helm has only a 5" footprint; needs only 3" dash hole (standard or tilt)
- Packaged complete with helm, cylinder, fittings, tubing, oil, fill kit and detailed instructions
- Standard 3/4" tapered steering shaft
- Enough cut-to-fit tubing for either 20' run is supplied
- Fast, easy installation
- Meets NMMA® certification requirements

175293	Dura-Tank™ Anchor Kit (POP)	1	DN15H48	\$25.80

Hose - Fuel Line-EPA Guidelines

The EPA and CARB have mandated reduced fuel permeation from specific fuel system components. The legislation applies to all marine manufacturers and component suppliers of fuel hoses, primer bulbs and portable fuel tanks.

BRP achieved the EPA mandate and CARB compliance for low permeation fuel hoses in 2009. The EPA and CARB requirement for low permeation primer bulbs and portable fuel tanks went into effect on January 1, 2011 and BRP has now met that requirement.

As a user of Evinrude®/Johnson® Genuine Parts you can install and sell our components with complete confidence of compliance to the regulations and achieving the same level of durability, reliability and quality.

The fuel components listed are all EPA and CARB compliant.

Hose & Primer Bulb Assembly EPA Compliant

Quick disconnect at motor and tank end.

- 5/16" I.D. hose 8' long
- SAE J30R9 rated hose
- Meets USCG B1-15 spec

5008589	Quick Disconnect at Motor and Tank End (POP) - EPA Compliant	1	10'	3/8"	DN36H98	\$61.63

Hose & Primer Bulb Assembly EPA Compliant

Quick disconnect at motor end only.

- 3/8" I.D. hose 3' long
- SAE J30R9 rated hose
- Meets USCG B1-15 spec
- Point of Purchase Packaged

P/N	Description	Pack qty	Length	Dia.	Price	
5008579	Quick Disconnect at Motor End Only (POP), 25 pack - EPA Compliant	25	3'	3/8"	DN27H48	\$45.80

Hose - Fuel Line Bulk, EPA Compliant

- Bulk fuel line may be shipped in a non-continuous roll.
- Priced by the foot in multiples of dealer pack quantity
 - SAE J30R9 rated hose (EPA compliant)
 - Meets USCG B1-15 spec
 - 772576 also meets USCG A-1 spec

772564

P/N	Description	Pack qty	Length	Dia.	Price	
772564	Fuel Line	25	25'	5/16" ID	DN3H48	\$5.80
772565	Fuel Line	50	50'	3/8" ID	DN3H98	\$6.63
772572	Multi-Purpose Hose	25	25'	1/4" ID	DN3H48	\$5.80
772576	USCG A-1 Hose	50	50'	3/8" ID	DN2H53	\$4.22

Fuel Primer Bulb Assembly, EPA Compliant

- Primer bulb assemblies for 5/16" or 3/8" hose.
- Meets EPA and Carb requirements for MY12
 - Point of Purchase Packaged

5008605

P/N	Description	Pack qty	Price	
5008605	Primer Bulb Assembly for 5/16" I.D. hose (POP) - EPA Compliant	1	DN13H98	\$23.30
5008586	Primer Bulb Assembly for 3/8" I.D. hose (POP) - EPA Compliant	1	DN13H98	\$23.30

Hose - Multi-Purpose Bulk, Non-EPA Compliant

Cannot be used for fuel line on 2009 and newer engines. Priced by the foot in multiples of dealer pack quantity.

Fitting - Quick Disconnect

- Point of Purchase Packaged

775641

P/N	Description	Pack qty	Price	
775640	Quick Disconnect Fittings for 5/16" I.D. hose (POP)	1	DN3H98	\$6.63
775641	Quick Disconnect Fittings for 3/8" I.D. hose (POP)	1	DN3H98	\$6.63
334913	O-Ring Single Line Connector (fits 775640 & 775641)	5	DN0M72	\$1.44

Fitting - Fuel Evinrude® & Johnson®

Use with quick disconnect fuel line hose on all Evinrude® and Johnson® motors.

- Machine brass with 1/4" NPT thread
- Contains Viton® O-ring for improved resistance to reformulated fuels and alcohol

772681

P/N	Description	Pack qty	Price	
772681	Evinrude® and Johnson®	1	DN5H48	\$9.13

Connector, Evinrude®/Johnson® Tank-Side

For Double Line Hose

375587

P/N	Description	Pack qty	Price	
375587	Tank-Side Fuel Connector for Double Line Hose	1	DN97E98	\$144.09
301824	O-Ring Double Line Connector (fits 375587)	10	DN0N86	\$1.90

Connector, Yamaha® - Female

This connector is complimentary to Yamaha® male "Quick" connector.

- Joins gas line to motor fuel tank

770792

P/N	Description	Pack qty	Price	
770792	Yamaha® - Female	1	DN7H98	\$13.30

Connector, Yamaha® - Male

Use with quick disconnect fuel line hose on all Yamaha® motors.

- Fitting is machined brass with 1/4" NPT thread to fit American fuel tanks

502865

P/N	Description	Pack qty	Price	
502865	Yamaha® - Male	1	DN5M48	\$10.96

Connector, Suzuki® - 75 HP & up - Female

This quick connector is complimentary to Suzuki® — 75 HP and up male "Quick" connect.

- Joins gas line to motor and to fuel tank
- Fitting is plated brass

502864

P/N	Description	Pack qty	Price	
502864	Suzuki® - 75 HP and up - Female	1	DN7H98	\$13.30

Connector, Suzuki® - 75 HP & up - Male

Use with quick disconnect fuel line hose on large Suzuki® motors.

- Fitting is plated brass with 1/4" NPT thread to fit American fuel tanks

502870

P/N	Description	Pack qty	Price	
502870	Suzuki® - 75 HP and up - Male	1	DN4H98	\$8.30

Connector, Chrysler®, Force®, Sears® & Small Suzuki® - Female

This quick connector is complementary to Chrysler® male "Quick" connect.

- Joins gas line to motor and fuel tank
- Fitting is plated brass
- 2002 & 2003

502874

P/N	Description	Pack qty	Price	
502874	Chrysler®, Force, Sears® and Small Suzuki® - Female	1	DN7L98	\$14.78

Connector, Chrysler®, Force®, Sears® & Small Suzuki® - Male

Use with quick disconnect fuel line hose on all Chrysler® motors.

- Fitting is plated brass with 1/4" NPT thread
- Weight is 1 oz.
- 2002 & 2003

502868

P/N	Description	Pack qty	Price	
502868	Chrysler®, Force, Sears® and Small Suzuki® - Male	1	DN4H48	\$7.47

Connector, Mercury® - Female

Use with quick disconnect fuel line hose on all Mercury® motors.

- Machine aluminum with 1/4" NPT thread
- 770799 includes hose barb (molded plastic)
- 770800 includes 1/4" NPT fitting
- 502873 includes 1/4" NPT brass elbow

770800

P/N	Description	Pack qty	Price	
770799	Mercury® - Female	1	DN5H98	\$9.97
770800	Mercury® - Female	1	DN9H98	\$16.63
502873	Mercury® - Female	1	DN8H48	\$14.13

Connector, Mercury® - Male

Use as a replacement part mounted directly to Mercury® motors.
Also used as a hose end fitting to mate with tank quick connector 770800.

- Engineering grade plastic with an aluminum hose barb

502869

P/N	Description	Pack qty	Price	
502869	Mercury® - Male	1	DN5H48	\$9.13

Valve, 4-Way

Connect up to three fuel tanks together. For all outboards using 5/16" I.D. fuel hose.

176746

P/N	Description	Pack qty	Price	
176746	4-Way Valve Adapter Kit	1	DN52E48	\$77.18
171679	4-Way Valve Only	1	DN20H48	\$34.13

Sending Unit - Universal Fuel Gauge

For permanent tanks with five hole or lug type plate adjusts to tank depth from 6" to 24".

- Has 33 to 240 ohms resistance
- Gasket and screws p/n 174496

172114

P/N	Description	Pack qty	Price	
172114	Universal Fuel Gauge Sending Unit	1	DN28H48	\$47.47

Connector, Fuel

For 3/8" fuel line.

393334

P/N	Description	Pack qty	Price	
393334	Fuel Connector	1	DN28H98	\$48.30

Adapter Kit, Fuel Hose

Provides quick-disconnect fitting at outboard for 1985 and later 120 and 140 hp V4's.

398339

P/N	Description	Pack qty	Price	
398339	Fuel Hose Adapter Kit	1	DN54H48	\$90.80

Cover & Tube Assembly

P/N	Description	Pack qty	Price	
775413	Cover and Tube Assembly (for 174176)	1	DN19H98	\$33.30

Filter, Fuel & Water Separating Kit - 10 Micron

Includes Water Sensor. 2007, V4 and V6 60° E-TEC® engines.

5007045

P/N	Description	Pack qty	Price	
5007045	10 Micron Filter Kit	1	DN51M48	\$102.96
502906	Replacement Fuel Filter - 10 Micron	1	DN4M98	\$9.96

Filter, Racor® Fuel & Water Separating Kit, See-Thru Bowl

Outboard applications only.

771866 & 771896 with 11/16" thread

- 771866 Kit includes see-thru bowl
- Fits: Yamaha®, Suzuki®, SMI®, Sierra®, Volvo Penta® and AquaPower® heads.

771864 & 771839 with 1" thread

- 771864 Kit includes see-thru bowl
- Fits BRP applications

771866

P/N	Description	Pack qty	Price	
771866	Replaces Mercruiser Quicksilver #35-60494-1 (11/16" thread)	1	DN36G48	\$57.00
771896	Replacement Element S3213 without Bowl (11/16" thread)	1	DN17H48	\$29.13
771864	Kit with See-Thru Bowl (1" thread) for BRP applications	1	DN35G48	\$55.44
771839	Replacement Element S3214 without Bowl (1" thread) for BRP applications	1	DN17H48	\$29.13

Filter, Racor® Fuel & Water Separating Kit, Metal Bowl

Inboard or outboard applications.

771840 & 771841 with 11/16" thread

- 771840 Kit includes metal bowl
- Fits: Yamaha®, Suzuki®, SMI®, Sierra®, Volvo Penta® and AquaPower® heads.

771842 & 771843 with 1" thread

- 771842 Kit includes metal bowl
- Fits BRP applications

771840

P/N	Description	Pack qty	Price	
771840	Replaces Mercruiser Quicksilver #35-60494-1 (11/16" thread)	1	DN43G48	\$67.94
771841	Replacement Element S322TUL without Bowl (11/16" thread)	1	DN19H98	\$33.30
771842	Kit with Metal Bowl (1" thread) for BRP applications	1	DN47G98	\$74.97
771843	Replacement Element S3221TUL without Bowl (1" thread) for BRP applications	1	DN19H98	\$33.30

Oil Tank Kits without Oil Level Sender

Oil tank kits come complete with mounting hardware, oil supply hose and primer assembly.

- 1.8 gallon (10.2" L x 7.8" W x 9" H)
- 3 gallon (11.8" L x 8" W x 11" H)
- Oil supply hose is 1/4", 30 ft. long

5008617

P/N	Description	Pack qty	Price	
5008617	1.8 Gallon Tank without Oil Level Sender	1	DN145E48	\$213.94
5008613	3.0 Gallon Tank Kit without Oil Level Sender	1	DN187E48	\$275.71

Oil Tank Kits with Oil Level Sender

Oil tank kits come complete with mounting hardware, oil supply hose, primer assembly, and installed oil level sender.

- 1.8 gallon (10.2" L x 7.8" W x 9" H)
- 3 gallon (11.8" L x 8" W x 11" H)
- Oil supply hose is 1/4", 30 ft. long
- **Requires additional oil level converter**

5008619

P/N	Description	Pack qty	Price	
5008619	1.8 Gallon Tank with Sender	1	DN179E98	\$264.68
5008615	3 Gallon Tank Kit with Sender	1	DN211E98	\$311.74

Mounting Hardware - 1.8 Gallon Tank Replacement

For 1.8 gallon tank.

P/N	Description	Pack qty	Price	
862	Replacement Mounting Hardware	1	DN19H98	\$33.30

Oil Tank Assembly - 10 Gallon

For twin and triple engine installations, direct injection or carbureted. Uses Evinrude®/Johnson® oil pickup assembly p/n 177303 - one pickup assembly per engine. Installer will be required to drill a third hole for third engine oil pickup.

- 11.25" H x 30.75" L x 9" W
- Two holes drilled for twin pickups
- Oil level sender
- Molded fitting for fill and vent hose
- **Select additional oil level converter kit, I-Command™ oil level signal converter kit, single tank.**

776580

Warranty to be provided by Rabud™.

P/N	Description	Pack qty	Price	
776580	10 Gallon Tank Assembly	1	DN247D49	\$353.55

Gasket - Oil Injection Oil Tank

123906

P/N	Description	Pack qty	Price	
123906	Oil Injection Oil Tank Gasket	1	DN4H98	\$8.30

Filter - Oil Injection Oil Tank

174377

P/N	Description	Pack qty	Price	
174377	Oil Injection Oil Tank Filter	1	DN5H48	\$9.13

Conversion Kit for FFI

Converts older non-direct injection tanks to direct injection application.

176754

P/N	Description	Pack qty	Price	
176754	Conversion Kit for FFI	1	DN37E98	\$55.85
176724	Oil Return Fitting	1	DN22H98	\$38.30

Oil Fill Kit, Remote

Mounts on deck for remote filling of oil injection tank.

- Includes tank cap and vented deck fitting

176461

P/N	Description	Pack qty	Price	
176461	Remote Oil Fill Kit	1	DN33E98	\$49.97
764721	25' Oil Fill Hose to Connect Kit and Tank (not for gasoline) - 1½" I.D.	1	DN115E98	\$170.56

Conversion Kit, Pre Mix

For applications where oil injection is not wanted. Fuel Only.

- For OMS 3 cylinder and larger engines

5007422

P/N	Description	Pack qty	Price	
5007422	Pre Mix Kit for OMS 3 Cylinder and Larger	1	DN252H98	\$421.64

Oil Level Gauge & Sending Unit

Allows continuous monitoring of oil level in tank 2" dash mounted gauge.

- For 1.8 and 3 gallon tanks
- Sender for kits is p/n 763730

174496

P/N	Description	Pack qty	Price	
174496	Gasket and Screws	1	DN10H48	\$17.47

Oil Pick-Up Kits

May be added to the 3.0 gallon tank to operate two oil injection equipped engines from one oil tank.

- Select 3 gallon tank pick-up for installation to 10 gallon oil tank.
- One per engine required.

5008614

P/N	Description	Pack qty	Price	
5008614	3 Gallon Tank and 10 Gallon Tank, Oil Pick-up (25' hose)	1	DN167E98	\$247.03
5008618	1.8 Gallon Tank, Oil Pick-up	1	DN104E48	\$153.65

Clamps - Oetiker® Ear

Purchase individually or as a kit.

- Kit consists of 20 each of P/N 346150; 1 of P/N 352868 and 10 each of the remaining part numbers
- "A" = clamp identification number

Carbureted Two-Stroke

- Key switch kit - p/n 176408
- Wiring harness - 12' p/n 176339, 15' p/n 176340, 20' p/n 176341

P/N	Application	Color	Starting	Price	
5005624	40-50 HP 2-Cylinder 1996-2005	White	Key Switch - Included	DN809D49	\$1,156.42

Remote Control Adapter

Evinrude® E-TEC® 25-30 HP - Converts tiller controlled engines to “remote” shift and throttle control.

- 1. If converting a DTL model outboard (tiller with power trim and tilt), Trim and Tilt Harness, P/N 587028 is required to control trim function from remote control trim switch.
- 2. If installation of a trim gauge is desired, order sending unit and mounting hardware separately.
- 3. Refer to appropriate parts catalog. For remote steering order Steering Connector Kit, P/N 173699.

Motor Lift, Auxiliary, Panther™ Marine

The heavy duty bracket easily handles auxiliary outboards up to 40 HP or 150 pounds. Ideal for inboards, I/Os, jet-drives and outboards when over the transom mounting is unavailable.

- Use of Pro Strap Kicker Tie Down is recommended
- 778742 fits Triton® boats and others (Mfg PN 55-0035)
- 778743 fits Ranger® boats and Lund® Pro V boats (Mfg PN 55-0350)

778763	Pro Strap Kicker Tie Down	1	DN26C48	\$35.31

Static Motor Mount Plate Model 405, Panther™ Marine

If trolling motors are your thing - then the 405 static plate is a must. the Panther™ static motor mount plate provides a flat secure mounting surface for clamp on or bolt on kicker motors up to 40 HP or 150 pounds.

778765

P/N	Description	Pack qty	Price	
778765	Static Motor Mount Plate Model 405	1	DN155C48	\$207.30

Static Plate, Bobs Machine

Auxiliary engine mount plate

- Use to install auxiliary kicker engine to transom of multi-species type fishing boats.
- Recommended for 15H.O., 25 and 30 HP Evinrude® E-TEC®
- Up to 183 lbs.
- Includes engine mounting hardware to secure engine to the plate.
- **DOES NOT** include hardware to secure plate to the boat.

765459

P/N	Description	Pack qty	Price	
765459	Bobs Machine Static Plate	1	DN275C97	\$367.96

Transom Wedges

- Construction allows for full, positive contact between engine bracket and transom
- Fit newer model Evinrude®/Johnson® and Mercury® engines, bolt-on engines with factory installed tilt and trim
- Cast aluminum
- T.H. Marine p/n TW-2

504311

P/N	Description	Pack qty	Price	
504311	Transom Wedges	1	DN26H48	\$44.13

Mini-Jacker™

Cast aluminum offset type jack plate is designed for clamp-on mount outboard motors up to 35 hp.

- Improves performance & handling of smaller or lighter boats
- Allows mounting of long shaft motors to shorter shaft transom boats
- Stands off transom 4"
- Engine mounting surface is 11-1/2" W x 10" H, vertical offset 3"
- Overall width of transom mounting flanges is 17"

771705

P/N	Description	Pack qty	Price	
771705	Mini-Jacker™	1	DN82D99	\$118.55

The Happy Troller®

The most significant invention in the sport of troll fishing since the advent of the outboard motor. Made of highest quality stainless steel and marine aluminum (no other material used).

- Large troller fits I/O's plus all outboard motors 50 hp and larger
- Smaller troller fits outboard motors through 50 hp
- Use year round in either salt or fresh water
- Lock in "up" position for cruising
- Locks in "down" position for trolling
- Attaching hardware furnished - installs in 15 minutes
- Mounts on an anti-cavitation plate
- Installation and operating instructions provided with each unit
- Available in clear anodized aluminum only

Trol-A-Matic®

Makes any engine, outboard or inboard outdrive, troll slow!

- Glass-filled construction
- No corrosion
- No rust
- Fully automatic
- Less friction at high speeds

Easy to install - simply drill four 7.9 mm (5/16") holes in cavitation plate so that the trolling plate is situated squarely under cavitation, with its hinge even with the rear edge of the cavitation plate.

Sting Ray™ Hydrofoil Stabilizer

The Sting Ray™ eliminates the need for troublesome trim tabs. Its patented, high-tech shape causes water to flow over its surface, hydrodynamically creating upward thrust pressure on the underside surface. Scientific principles go to work the moment the propeller starts turning. Upward pressure lifts the hull, resulting in less drag since less of the boat is in the water. The Sting Ray™ wings then stabilize the water pressure keeping the boat stable. By staying in the water, the Sting Ray™ keeps on working.

FlushPro™

Finally fresh water flushing of your inboard is as simple as connecting a garden hose. Marine engine flushing and winterizing valve and kit.

776750

- Flush your boat engine safely and easily
- Transparent body allows for visual inspection of water flow
- Durable check valve system activated by water pressure from a garden hose
- Check valve automatically shuts off hull intake when water pressure is applied
- Adapter supplies with FlushPro™ makes winterizing your boat easy
- Can be used with onboard generators
- Includes 1 FlushPro™ check valve with hose clamps, PERKO water inlet fitting catalog number 499 DP CHR, and a 7' length of hose
- Constructed of plastic, stainless steel spring
- Available for standard 5/8", 1" or 1 1/4" hose sizes

Shop Packs

24-plug service shop packs.

- Easy for mechanics to handle
- Protective foam shell
- Saves time and money
- Easy to control inventory
- SSP package stakes neatly
- Copper Plus technology
- Order in multiples of 24

Champion® Stainless Steel

The newest wave in spark plug technology...stainless steel spark plugs from Champion®. The world's first spark plug with a rust-proof stainless steel shell.

Boaters operating in salt water or brackish water are going to want these new stainless steel spark plugs. There is always a market for boaters who insist on having the very best for their engines and rigs.

- **Q-Type Suppressor** (wire wound) eliminates RFI related false readings in depth/fish finders and GPS or other navigational instruments
- Also eliminates static in audio and onboard communications systems
- Stainless steel shell - impervious to rust
- Copper core inside the ground electrode - dissipates heat faster resulting in less gap erosion

MerCruiser® U-Joint Bellows

- Include stainless steel clamps and grounding clips

775541

P/N	Description	Replaces	Price	
775541	U-Joint for Merc I Drive	36223A 2	DN28N48	\$63.29
775540	U-Joint for Merc I, Alpha I (R & MR) with ridge	60932A 4	DN28O98	\$72.45
775491	For Alpha® I Gen II includes sleeve	816431A 1	DN39N98	\$88.84
775490	U-Joint for Bravo® I, II & III includes sleeve	86840A 3	DN40N98	\$91.07

MerCruiser® Exhaust Bellows

We use premium grounding clips with the proper perforations. Without perforations, the clips won't scratch through the paint to create a solid ground. We even take the little steps to provide you the quality you expect.

- Includes grounding clips and clamps where appropriate

775539

P/N	Description	Replaces	Price	
775482	Exhaust Tube	78458A 1	DN21N48	\$47.73
775539	Exhaust Bellows	18654A 1	DN20M98	\$41.96
775542	Shift Cable Bellows	74639A 2	DN9K48	\$17.24

MerCruiser® Exhaust Tubes

All of our bellows are manufactures from a certified compound that has been time-tested and proven. Each material batch is individually tested to ensure consistency and integrity. We're taking the extra steps you would expect from your OEM.

775486

Mercury® / Mariner® Impellers

We make sure your parts are manufactured to the quality you expect from an OEM. Each production run is reviewed and certified for compound accuracy and every single impeller is individually tested for bond integrity — the blades are deflected 30% to ensure 100% performance.

Mercury® / Mariner® Rod Bearings

We offer you the superior choice. A gear replacement is a lot of your time and a lot of your customer's money. Your name is on the line. Now you can put your trust in our knowledge as an OEM to bring you the highest quality bearings for the job. Why take a chance with imported knock-offs? We will give you the parts to get it right.

775441 is a high performance replacement, the OEM bearing number 31-17514A 2 is plastic and can fail in high horsepower, high demand applications. The aftermarket only offers the rollers. Our 775441 replaces the plastic version as well as the metal version, and it's designed for harsher environment. We manufacture it with a metal cage to outperform the others. (Alternate reference MC # 31-67526A 1).

Mercury® - Miscellaneous

Rod bolts and crankshaft seal.

Why should you use NauticPRO™ crankshaft seals?

- Seal case - stainless steel
- O.D. - precision ground for superior fit
- Compound - high-temperature Viton® that can cost 4 times more than low temperature compounds

Volvo® Exhaust Bellows

We only use premium Swedish ABA™ clamps (same as the OEM) on our Volvo® bellow applications. Although these clamps can cost over five times as much, we are still keeping you competitive, with the right product.

- P/N 775489 comes with clamps made for Cobra® or SX applications. They are American-Made stainless steel clamps.

Mercury® / Mariner® 12V Motor

- Fits Mercury® / Mariner® 1993-1995
- Design 11, aft fill 3 Ram integral
- Trim / tilt system
- Replaces 3 wire square motor
- Replaces Mercury® #811628 with a 2 wire high performance motor and conversion wire harness
- Flat blade coupler and o-ring included

776935

P/N	Description	Pack qty	Price	
776935	Trim / Tilt Motor	1	DN176H48	\$294.14

Mercury® / Mariner® 12V Motor

- Fits Mercury® / Mariner® outboards 1996 and up
- 135, 150XRG Magnum III, 175, 200, 225, 250 HP
- 105-140 HP Jet
- Replaces Mercury® #828708, 878265A1, A4
- 2 wire motor
- O-ring and mounting bolts included

776936

P/N	Description	Pack qty	Price	
776936	Trim / Tilt Motor	1	DN162H49	\$270.81

Mercury® / Mariner® 12V Motor and Reservoir

- Fits Mercury® / Mariner® and Force®
- Single Ram tilt systems
- Fits assembly #824051
- Includes: conversion wire harness, coupler, o-ring and stainless steel mounting bolts
- Replaces square 3 wire motor with 4 bolt mount

776937

P/N	Description	Pack qty	Price	
776937	Trim / Tilt Motor	1	DN242H98	\$404.97

Mercury® / Mariner® 12V Motor and Reservoir

- Fits Mercury® / Mariner® 1 Ram tilt systems and Force® 2 Ram tilt / trim systems
- Replaces # 811674, 811699, 813447, 809885A1, A2
- Includes: coupler, o-ring and stainless steel mounting bolts
- 2 wire motor with 4 bolt mount

P/N	Description	Pack qty	Price	
776938	Trim / Tilt Motor	1	DN210H49	\$350.81

MerCruiser® 12V Motor and Reservoir

- Fits Mercury® outboards, MerCruiser® and early Volvo Penta®
- Replaces Mercury® #88475A5, 93247A4, A7, 92975A6, A28, 76395A2, A5. 67914A2
- Screws, gasket and drive shaft coupler included
- 3 wire connection

776944

P/N	Description	Pack qty	Price	
776944	Trim / Tilt Motor	1	DN208M98	\$417.96

MerCruiser® 12V Motor and Pump

- Fits late model MerCruiser® using 3 wire motor with an oilydne pump
- Replaces Mercury® #14336A8, A20, 88183A12, 17649A1 and 87828

776939

P/N	Description	Pack qty	Price	
776939	Trim / Tilt Motor	1	DN513H49	\$855.82

Mercury® Outboard 12V Motor and Pump

- Fits Mercury® outboards 225-275 HP
- Replaces Mercury® # 823653A5, 92459A4
- 3 wire connection
- 3.5" reservoir

776940

P/N	Description	Pack qty	Price	
776940	Trim / Tilt Motor	1	DN524H99	\$874.98

Mercury® 12V Motor and Kit

- Kit includes: new 2 wire motor, mounting flange for the original Mercury® pump, new oil seal, o-ring, coupler, hardware and wire harness
- This is the replacement motor kit for Mercury® #99186T, obsolete square Eaton® motors used from 1985-1992

776941

P/N	Description	Pack qty	Price	
776941	Trim / Tilt Motor	1	DN242H98	\$404.97

Yamaha® 12V Motor

- Fits Yamaha® outboards 1987-1995, 115-200 HP and 1992-1994, 225 HP
- Replaces Yamaha® #6G5-43880-02-00, 6G5-43880-01-00, 6G5-42880-02-00
- 2 wire connection, 3 bolt mount
- O-ring included

776931	Trim / Tilt Motor	1	DN202M98	\$405.96

Yamaha® 12V Motor

- Fits Yamaha® 1992-1995, 50-90 HP, 1994, 40 HP, 1996, 70-90 HP, 1997 and up, 60, 70-90 HP
- Replaces Yamaha® #6H1-43880-02-00
- 2 wire connection, 3 bolt mount
- O-ring included

776932

P/N	Description	Pack qty	Price	
776932	Trim / Tilt Motor	1	DN202M98	\$405.96

Yamaha® 12V Motor

- Fits Yamaha® 225-250 HP outboards
- Replaces Yamaha® #61A-43800-25-EK, 61A-43850-01-00, 61A-43850-02-00 and 61A-43880-02-00
- 3 bolt mount , 4 wire connection
- O-ring included

776933

P/N	Description	Pack qty	Price	
776933	Trim / Tilt Motor	1	DN270M48	\$540.96

Yamaha® 12V Motor

- New Yamaha® replacement
- Fits V4 and V6, 90° engines 1997 and up
- 2 wire ring terminal connection
- 4 bolt mount
- O-ring included
- Replaces Yamaha® #64E-4388-00-00

776934

P/N	Description	Pack qty	Price	
776934	Trim / Tilt Motor	1	DN191M48	\$382.96

Gasket Sealing Compound

For use on all gaskets, threaded connections or machine joints. A liquid sealant designed to meet the rigid requirements of original equipment specifications. Provides outstanding performance in sealing all gaskets and threaded connections.

- Non-hardening and resists extreme variations in temperature
- Extends the life of all gasket material
- Prevents corrosion of bolts, studs and fitting threads
- Resistant to gasoline, oil steam, salt-water, antifreeze and propane
- Can be used on all applications where we formerly recommended Perfect Seal No. 4.

771093

P/N	Description	Pack qty	Size	Price	
508235	Gasket Sealing Compound (can with Brush) (POP)	1	4 oz	DN6C48	\$8.64

Cleaning Solvent

This is a 16 ounce spray can for cleaning metal surfaces prior to use of Gel-Seal II™ and other Loctite® products not requiring Locquic® primer.

771087

P/N	Description	Pack qty	Price	
771087	Cleaning Solvent	12	DN6H48	\$10.80

Gel-Seal II™ and Gasket Remover

This is a solvent for cleaning Gel-Seal II™, Permatex® Form-A-Gasket® No. 2, gasket sealing compound or old gaskets form parts.

771050

P/N	Description	Pack qty	Price	
771050	Gel Seal and Gasket Remover	1	DN6C48	\$8.64

Black Neoprene Dip

A 5 ounce can of liquid neoprene. When applied to electrical terminals it will provide superior protection from corrosion.

- Used in production on terminal board and remote control electrical terminals
- Useful for protecting other electrical terminals where corrosion has been a problem

909570

P/N	Description	Pack qty	Price	
909570	Black Neoprene Dip 5 ounces	1	DN7C98	\$10.64

Locquic® Primer

Locquic® primer is offered in a 6 ounce aerosol can. It is a degreasing agent which also greatly reduces the cure time of screw lock, lock nut, spline lock ultra lock and HT 400.

772032

P/N	Description	Pack qty	Size	Price	
772032	Klean 'N Prime™ (Loctite® 37509)	1	6 oz	DN22C48	\$29.97

Gel-Seal II™

An anaerobic sealant that hardens between surfaces in absence of air.

- Seals crankcases pressures immediately
- Cures in 90 minutes

327361

P/N	Description	Pack qty	Size	Price	
327361	Gel-Seal II™	1	1.69 fl oz	DN18C48	\$24.64
324073	Gel-Seal II™	1	.20 fl oz	DN5C98	\$7.97

Instant Bonding Adhesive

Cyanoacrylate bonding adhesive.

- Ideal for bonding motor covers
- Industrial strength, bonds rubber, metal, plastic
- Cures at room temperature in 5 to 10 seconds
- Gelled formula prevents running
- Shelf life 1 year if refrigerated

509955

P/N	Description	Pack qty	Size	Price	
509955	Cyanoacrylate Instant Bonding Adhesive	1	1 oz	DN9C48	\$12.64

Lock Aids

Lock aids come in 10 ml or 50 ml squeezable bottles which assure easy application. These products are called for frequently in the various service manuals and instruction sheets.

Thread Sealant - QuickStix™

- Convenient: small enough to be “pocket friendly”
- No leaks, drips, or spills
- Keeps toolboxes, workbenches, and hands clean
- Fast and easy to apply
- Solid formula: great for overhead use
- Functional for a full range of uses
- 764809 includes 1 each of 764804, 764805, 764806, 764807, 764808

P/N	Description	Pack qty	Size	Price	
764804	Threadlocker Medium Strength Stick (Blue) (POP)	1	9 g	DN26C98	\$35.97
764805	Threadlocker High Strength Stick (Red) (POP)	1	9 g	DN26C98	\$35.97

764809	Stick Assortment 5 Pack (POP)	1	20 g	DN73C48	\$97.97

Pipe Sealant with Teflon®

- Use on fittings, valves and plugs
- Revolutionary applicator
- Great flexibility for tough applications
- Prevents leakage in threaded metal fittings

764806

P/N	Description	Pack qty	Size	Price	
764806	PST® Thread Sealant Stick with Teflon (POP)	1	6 ml	DN11C98	\$15.97

Rubber Silicone RTV Sealant

- Loctite® RTV sealant
- High Performance RTV Silicone Gasket Maker
- Retains flexibility and oil resistance for longer gasket life
- Makes reliable “formed-in-place” gaskets that resist shrinking, cracking, and migrating
- Low odor, non-corrosive
- Resistant to most chemicals and solvents
- Fills gaps to 0.25"

P/N	Description	Pack qty	Size	Price	
764810	Blue Rubber Silicone RTV Sealant (Loctite® 587™)	6	190 ml	DN15C48	\$20.64
764811	Black Rubber Silicone RTV Sealant (Loctite® 598™)	1	8.75 oz	DN15C48	\$20.64
764812	Clear Rubber Silicone RTV Sealant (Superflex®)	6	190 ml	DN15C48	\$20.64

Loctite®Gasket Sealant No. 2

An engine assembling compound or pipe fitting cement. Dries to a soft, pliable film.

- Non-hardening
- Seals cut gaskets and stamped parts
- Resists gasoline, oil, steam, water, grease, mild acids and alkalis

910032

P/N	Description	Pack qty	Size	Price	
910032	Permatex® No. 2 (POP)	1	3 oz	DN4C48	\$5.97

Liquid Gasket

Liquid gasket that fills gaps on a flange surface and thus completely prevents leaks.

351052

- When cured, it forms an excellent rubber-like elastic body
- Excellent resistance to vibration and shock

P/N	Description	Pack qty	Size	Price	
351052	Three Bond #1194	1	3.5 oz	DN12C48	\$16.64
351053	Three Bond #1207B	1	3.5 oz	DN25C48	\$33.97

Heat Sink Compound

Heat sink compound Type 120 thermal joint compound specified in the electric outboard service manual. Available in 5 ounce squeeze tube sufficient for several repair jobs.

322170

P/N	Description	Pack qty	Size	Price	
354170	Heat Sink Compound (Jar)	1	2 oz	DN10C48	\$13.97
322170	Heat Sink Compound (Tube)	1	5 oz	DN24C48	\$32.64

Scotch-Grip™ Rubber Adhesive 1300

A yellow fast drying general purpose synthetic rubber adhesive for bonding rubber to metal, wood and other surfaces.

982551

P/N	Description	Pack qty	Size	Price	
982551	Scotch Grip Rubber Adhesive 1300	1	5 fl oz / 147.8 ml	DN14F91	\$22.36

Sealer (Type B)

For OMC Cobra® intake manifolds.

764543

P/N	Description	Pack qty	Size	Price	
764543	Engine Sealant	1		DN11C48	\$15.31

Scotch-Grip™ Adhesive

847 Sealant comes in a convenient 5 ounce squeeze tube. It was released primarily as a metal-to-metal contact adhesive (cylinder to crankcase, gearcase halves, etc.) and can be used in all applications where we formerly recommended Adhesive Type "M". In addition you will find it does a good job on joining rubber to metal or fiberglass (such as seals to upper and lower motor covers); of joining urethane foam to fiberglass or metal (like sound blankets to motor covers); and for attaching metallic nameplates to motor covers.

776964

P/N	Description	Pack qty	Size	Price	
776964	847 Sealant	1	5 oz	DN14C48	\$19.31

Gasolila®

This varnish type sealer comes in a quarter pint can. It is completely insoluble in gasoline, water and most commercial solvents. You will find Gasolila® called for often in service manuals and instruction sheets, so keep a can or two in your shop.

- Easily applied with a brush or spatula
- Once applied, it sets quickly

200763

P/N	Description	Pack qty	Size	Price	
200763	Gasolila®	1		DN14C98	\$19.97

Epoxy Resin Kit

For bonding transducers to hulls (not shippable by air).

174407

P/N	Description	Pack qty	Size	Price	
174407	Epoxy Resin Kit	1		DN5H48	\$9.13

Adhesive Kit

For bonding magnets to flywheel.

431929

P/N	Description	Pack qty	Size	Price	
431929	Epoxy Adhesive Kit	1		DN5C48	\$7.31

Magnet Replacement Kit

35 amp flywheel 1984 thru (not shippable by air).

584304

P/N	Description	Pack qty	Size	Price	
584304	Magnet Replacement Kit	1		DN12M98	\$25.96

Note: One magnet per kit.

Starter Lube

Used to lubricate the drive pinion helical threads on electric starter motor armature shafts.

337016

P/N	Description	Pack qty	Size	Price	
337016	Starter Bendix Lube	1	4 oz	DN10C48	\$13.97

Molly Lube

This molybdenum-filled lubricant is called for in Evinrude® and Johnson® service manuals for lubricating armature plate pilots and upper driveshaft splines. Molly lube should also be used in those applications where older service manuals recommended application of a mixture of 1 part molybdenum sulfide to 40 parts anti-corrosion lube.

175356

- Will not wash out

P/N	Description	Pack qty	Size	Price	
175356	Molly Lube	1	3.5 oz	DN5C98	\$7.97

Lubriplate®

Lubriplate® 777 is used to lubricate all manual starters.

317619

P/N	Description	Pack qty	Size	Price	
317619	Lubriplate 777	1	1 lb	DN14C48	\$19.31

GM® Gear Marking Compound

This 1 ounce tube of gear marking compound is applied to gearcase gears to check gear contact pattern as described in Evinrude® and Johnson® outboard and stern drive service manuals.

772666

P/N	Description	Pack qty	Size	Price	
772666	GM® Gear Marking Compound	1	1 oz	DN8C98	\$11.97

Needle Bearing Grease

This 4 ounce tube of grease is used to hold needle bearings in position when reassembling powerheads or gearcases.

378642

P/N	Description	Pack qty	Size	Price	
378642	Needle Bearing Grease	1	4 oz	DN4C48	\$5.97

Wire Harness Connector Dielectric Grease

Proven for marine, automotive and truck applications. Superior connector lubricant/sealant based upon synthetic hydrocarbon base oils.

- Oxidation resistant
- Proven salt water soak/spray resistance
- Prevents corrosion of terminals
- Reduces insertion forces
- Packaged in easy-to-use syringe dispensers or 4 ounce squeeze tube

503243

P/N	Description	Pack qty	Size	Price	
503243	Wire Harness Connector Dielectric Grease, 30cc Syringe	1	30cc Syringe	DN15C98	\$21.31

Hand Pump

- Ideal for pumping gearcase lube into gearcase filler P/N 501882
- Fits open head pails through 6 ½ gallons
- Includes pump, pail cover and 4 feet of clear vinyl hose

500118

P/N	Description	Pack qty	Price	
500118	Hand Pump	1	DN38E48	\$56.59

Portable Bearing Packer

- For wheel bearings up to approximately 6 inches in diameter
- Includes packer, mounting base, grease gun and gun holder

500144

P/N	Description	Pack qty	Price	
500144	Portable Bearing Packer	1	DN55C48	\$73.97

Bench Type Bearing Packer

- Portable or permanent bench mount
- For use with hand or air operated grease guns
- Includes dust cover and mounting base
- Will handle bearings up to 6 inches in diameter

500143

P/N	Description	Pack qty	Price	
500143	Bench Type Bearing Packer	1	DN27C98	\$37.31

Volume Bearing Packer

- Hand operated for pails through 6 ½ gallons
- Includes filler pump, cover and follower plate
- Can be used with bearings up to 6 inches in diameter

500145

P/N	Description	Pack qty	Price	
500145	Volume Bearing Packer	1	DN66C98	\$89.30

Economy Grease Gun

Develops approximately 10,000 PSI. Durable and attractive painted finish.

- Economy lever gun
- Head is tapped 1/8" NPT for No. 80 (10080) loader nipple (not furnished)
- 3-way loading including standard 14 ½ ounce grease cartridge
- Shipping weight 4 lbs.

500136

P/N	Description	Pack qty	Price	
500136	Economy Grease Gun	1	DN12D98	\$18.54

Heavy Duty Grease Gun

Develops up to 10,000 PSI with either short or long strokes.

- Includes heavy duty coupler, 12 inch whip hose and No. 80 (10080) load nipple
- Can be filled with standard 14 ½ ounce cartridge or gun filler pump
- Shipping weight 4 lbs.

500137

P/N	Description	Pack qty	Price	
500137	Heavy Duty Grease Gun	1	DN25C48	\$33.97

Grease Gun Filler

- Fits open head pails through 6 ½ gallons
- includes pump, pail cover, metal follower plate and loader nipple

500146

P/N	Description	Pack qty	Price	
500146	Grease Gun Filler	1	DN31C48	\$41.97

Grease Pump Loader Nipple

Fits most popular grease guns for filling from gun filler pump.

- 1/8" NPT (M)
- Shipping weight 1 ounce

500141

P/N	Description	Pack qty	Price	
500141	Grease Pump Loader Nipple	1	DN3C48	\$4.64

Bung Wrenches

Bung wrenches for use with 2 inch and ¾" drum plugs.

- Aluminum wrench is non-sparking

500139

P/N	Description	Pack qty	Price	
500147	Aluminum Bung Wrench	1	DN10C48	\$13.97
500139	Brass Bung Wrench	1	DN35C48	\$47.31

Bung Faucet

Plastic bung faucet for ¾" NPT bung opening.

502941

P/N	Description	Pack qty	Price	
502941	Bung Faucet	1	DN2C08	\$2.77

Gate Valve

Cast iron gate valve, manually operated, for draining light to heavy non-corrosive liquids.

- ¾" NPT opening can be padlocked (lock not furnished)

502940

P/N	Description	Pack qty	Price	
502940	Gate Valve	1	DN35C48	\$47.31

Piston Pump

An accurate (1 quart adjustable stroke) pump, with rack and pinion gearing, which dispenses lubricating oils and other non-corrosive liquids.

- Made from steel, durable light weight aluminum casting and Delrin® for its molded piston
- Base is threaded 2" NPT to fit standard drum and tank opening
- Includes a telescoping suction tube assembly for use with 15 through 55 gallon drums
- Swing return drain tube and lockable crank arm
- Will pump up to #40 oil
- Not recommended for gasoline
- Shipping weight 13 lbs.

501355

P/N	Description	Pack qty	Price	
501355	Piston Pump	1	DN158F19	\$237.28

Rotary Vane Type Pump

A rotary vane type pump for dispensing gasoline, diesel fuel, and similar light petroleum products.

- Fits 15 through 55 gallon drums with 2 inch bung opening
- Heavy duty cast iron body
- Dual graphite Bakelite vanes
- Aluminum bung adapter
- Discharge spout threaded ¾"
- Includes hose P/N 502084 and hanger P/N 502085
- Dispenses approximately 7 ½ gallons per 100 revolutions
- Shipping weight 17 lbs.
- Recommended for gasoline up to SAE 40 motor oil
- Not recommended for Hi-Vis® gearcase lubricant

501476

P/N	Description	Pack qty	Price	
501476	Rotary Vane Type Pump	1	DN81H98	\$136.64

Rubber Hose Assembly

¾" I.D. coupled on one end with ¾" NPT female on the other end with discharge nozzle.

- 8' long
- For use with model P/N 501476

502084

P/N	Description	Pack qty	Price	
502084	Rubber Hose Assembly	1	DN29H48	\$49.13

Oil Pump

Dispenses approximately one pint per stroke. Will pump kerosene, diesel fuel and up to SAE 40 motor oil.

- Fits 15 through 55 gallon drums with 2" bung opening
- Zinc diecast piston with two brass rings
- Steel telescoping tube assembly
- Buna N Seals
- Sparkle red plastic handle grip
- Curved dispenser spout with garden hose threads
- Adjusting nut on bung threads
- Bright zinc plated
- Equipped with P/N 501354 non-drip attachment
- Not recommended for gasoline

501489

P/N	Description	Pack qty	Price	
501489	Oil Pump	1	DN36H98	\$61.63

Lever Pump

Dispenses approximately ½ pint per stroke. Will pump kerosene, diesel fuel and up to SAE 140 gear lube.

- Fits 15 through 55 gallon drums with 2" bung opening
- Includes pump, bung adapter, and discharge spout with garden hose threads
- Not recommended for gasoline
- Shipping weight 8 lbs.

501481

P/N	Description	Pack qty	Price	
501481	Lever Pump	1	DN25H48	\$42.47

Vinyl Tubing

½" I.D. clear coupled on one end with a garden hose thread (F) fitting.

- 5' long
- For use with model P/N 501481 and other drum pumps with garden hose threads.

502083

P/N	Description	Pack qty	Price	
502083	Vinyl Tubing	1	DN8H48	\$14.13

Dolly

Unassembled with wide steel cross braces and heavy duty steel casters.

- For 55 gallon drums
- Maximum load limit 500 lbs
- Shipping weight 14 lbs.

500999

P/N	Description	Pack qty	Price	
500999	Dolly	1	DN59D98	\$85.69

Oil Absorbing Pads

Use to absorb oil drips when changing gearcase lube, engine oil, oil filter, etc. Use to catch and soak up spills near bulk oil drums.

- Black polypropylene backed, oil absorbing pad 17" x 23"
- Plastic backing prevents liquids from seeping through to the floor or ground
- Great for the shop area to soak up spills around workbenches
- Use in place of the messy granular-type oil absorbing material
- Case of 150 pads

Wire - Primary, Untinned

105° C general purpose thermoplastic wire conforms to SAE standard J-1128 and federal regulations 33 CFR 183 subpart 1, the mandatory regulations for wiring used on inboard and stern drive low voltage (less than 50 volts) electrical systems for fresh water.

- Also meets all low voltage requirements for outboards

Wire - Primary, Tinned

Recommended by the American Boating and Yacht Council and the U.S. Coast Guard for marine applications where exposure to salt water spray is inherent, tinned copper wire offers the optimum protection against corrosion.

- 105° C thermoplastic wire and conforms to SAE standard J-1128 and federal regulations 33 CFR 183 subpart 1.

Crimper, HD Battery Terminal

Crimping tool is specifically designed to crimp large, heavy duty cable terminals.

- Extra clearance for flanged or odd configuration terminals
- Deep throat for easy insertion of the terminal on the cable end
- Wide base for added stability
- Easily read crimp-depth scales on both sides of the punch
- Point of Purchase Packaged

502224

P/N	Description	Pack qty	Price	
502224	HD Battery Terminal Crimper	1	DN32H48	\$54.13

Shears, Copper Cable

Power-grip, heavy duty wire and cable cutting shears are designed to cut virtually all copper battery cable. Power engineered design transfers maximum cutting action with minimum cutting effort allowing an easy cut of 2/0 gauge cable.

- Blades are knife-edged for smooth, effortless cutting and heat treated for long, dependable operation
- Point of Purchase Packaged

502226

Heat Gun

The easy-to-use heat gun offers variable temperature control that allows the user to dial in any temperature from ambient to 1050° F (565° C).

- Airflow rating is 15 CFM at 3650 FPM
- Thermostatic control maintains the pre-selected temperature and prevents heat back-up or overheating when airflow is restricted
- Supervisor temperature lock-in feature allows pre-setting of temperature and sealing of access opening to assure compliance with pre-set temperature

502929

502928	Shrink Attachment for Use with Connectors and Terminals	1	DN12E98	\$19.09

Heat Shrink Tubing

Multiple wall polyolefin tubing with meltable inner wall. Tubing comes in a variety of sizes to fit from 22 gauge to 2/0 gauge wire. By heating the tubing it adheres to the wire giving a tight, durable moisture-proof seal, resistant to salt and other corrosive compounds.

- All tubing comes in 6" lengths

1. Choose the proper size tubing to fit the wire size
2. Slide the tubing over area desired to seal
3. Apply heat with heat gun or some other heating device until tubing recovers and the adhesive flows

502518

Funnel Barrel Style Insulated Terminals and Connectors

Insulated vinyl terminals give the ultimate in performance. Tough vinyl insulation will not break or cut while crimping.

Funnel barrel design allows sliding wire in position with ease without catching wire strands.

Because all the wire strands are in position, this allows for a more positive connection when crimped.

Insulated Vinyl Female Quick Connectors

Sealed Window Crimp Connectors

OptiSeal connectors are designed to provide optimal visual assurance of a sealed crimp termination.

- Window in center of connector assures that wire is seated properly and that the wire is being crimped to the connector
- Color-coded stripes identify wire gauge size to be used with connector
- Color-coded stripes also indicate/guide the installer to the proper crimp position on the center of the barrel
- Seamless barrel butt connectors ensure superior crimp performance
- Wire-stop in butt connectors prevents over insertion of wire

766535

P/N	Description	Pack qty	Price	
766535	10-12 Gauge	10	DN1M10	\$2.20
766534	14-16 Gauge	10	DN1M04	\$2.07
766533	18-22 Gauge	10	DN1M04	\$2.07

Heat Shrink Terminals and Splice Connectors

The shrinkable insulation gives you a long lasting durable seal that provides:

- More strain-relief strength
- A moisture and waterproof seal

- Will not crack or become brittle
- Color coded for easy identification
- A resistance to abrasion, salt, and other corrosive compounds

How to install:

Step 1: Select the correct splice size for the wire gauge. Strip the wires $\frac{3}{8}$ " from the end and insert into the crimp barrel.

Step 2: Making sure that the wire end is properly seated, make the crimp connection using a tool designed for insulated splices.

Step 3: Apply heat directly to the splice, working from the center out to the edges, using a hot air gun or other heat source, until the tubing recovers and the adhesive flows. Allow to cool before inspecting the splice and checking it's integrity.

Insulated Nylon Closed-In Connectors

502511

P/N	Description	Pack qty	Price	
502510	10-16 Gauge	50	DN0H13	\$0.22
502511	14-22 Gauge	50	DN0H13	\$0.21

Ty-Tap Connectors

These connectors offer a quick and easy way to make a pass-through connections and tap or in-line splices.

- The only tool needed is a pair of channel-lock pliers

502534

P/N	Description	Pack qty	Price	
502531	10-12 Gauge	25	DN0H25	\$0.42

Gearcase Alignment Gauge Kit (V6)

A new service tool has been developed for servicing Evinrude® and Johnson® outboards. This tool checks the alignment of the gearcase housing and must be used for proper inspection of all gearcase housings.

- Use to verify the condition of late model V6 gearcase housings prior to assembly
- See service bulletin 2004-09 (S)

5006349

P/N	Description	Pack qty	Price	
5006349	Gearcase Alignment Gauge Kit (V6)	1	DN562C97	\$750.62
311880	Drive Handle	1	DN46C48	\$61.97

Important

This gauge kit assembles to the forward bearing housing of a standard rotation gearcase and driver handle P/N 311880. Assemble as indicated to check all V6 gearcase housings (1979 and newer, "O" and "L" types; and "M" types).

Adapter for "S" Type V4 Gearcases

Note: Not for 764888 or 763003

Engine Stands / Trailer Dollies

Motor stands and trailer dollies for all your boating needs.

- **Motor stand** - tough storage stand for most motors to 50 HP; not exceeding 180 lbs. Made from 1 inch aluminum tubing, with an indestructible recycled plastic transom board.
- **Long shaft motor carrier** - for most long shaft motors to 15 HP; not exceeding 85 lbs. Tough, 1 inch aluminum alloy tubing. Semi-pneumatic 7 inch rubber tires, with recycled plastic transom board.
- **Large motor carrier** - for most motors to 30 HP; not exceeding 130 lbs. Tough, 1 inch aluminum alloy tubing. Semi-pneumatic 7 inch rubber tires, with recycled plastic transom board. Also includes a fold-down gas can holder with tie down strap.
- **Boat dolly** - move small fishing boats and inflatables with ease. The dolly clamps securely to the transom. Flip the boat over, and roll it where desired. Made from 1 inch plated steel, with four 7 inch tires. Recommended weight limit: 250 lbs.
- **Standard trailer dolly** - easily move a boat, camper, PWC, snowmobile, or utility trailer. The long handle gives leverage, making it easy to pick up a loaded trailer tongue. For shop use or retail sales. Features four 7 inch wheels and a 1-7/8" coupler ball. Black powder coated. 340 lb. lift capacity.
- **Heavy duty trailer dolly** - will take care of all your trailering needs. The extra long handle give more leverage, making it easier to pick up a loaded trailer tongue. Features 2 12" x 4" pneumatic, studded 2 ply tires with zerk fittings. Added bracing and larger tires make this dolly ideal for all of your heavy duty trailering needs. With 1-7/8" ball.

DealerPort™ Website

DealerPort™ is a password protected website for BRP's authorized dealers.

DealerPort™ features:

- The home page welcomes users with three tabs of information - **What's New** lists current news; **Latest PR** displays press releases; and **Latest Promos** lists sales promotions
 - The Engines page features pictures and specifications for current model year motors and engine availability
 - Offline CD-ROM/DVD-ROM and online Electronic Parts Catalog (EPC) displays motor part catalogs from 1968 through the current model year, with component images, parts lists and pricing. Service and Sales Bulletins appear as links when appropriate.
 - Online Help pages offer a Reference Guide for online viewing, downloading or printing
- New information is regularly posted and updated on DealerPort™. It is best to log onto DealerPort™ at least one time a day to ensure that you receive the most current information.

System Requirements The speed at which information is sent and received will be dependent on each individual computer set-up, modem or ISP. The minimum system requirements are listed below:

- Pentium® III Computer (DealerPort™ is not fully compatible with Macintosh® computers).
- 512MB RAM
- High-speed internet connection recommended (Not provided by BRP)
- SVGA Monitor, resolution 1024 x 768
- Microsoft® Internet Explorer® version 7.0
- CD-ROM drive
- Microsoft® Windows® XP, 2000, NT, or newer

Online Functions: • Check warranty registrations • Enter warranty claims and check status • Check engine history, purchase dates and warranty claims on a specific motor • Check parts availability at BRP and at other dealers • Enter parts orders and check status • Locate frequently ordered parts (Quick Reference) • Check engine availability and engine order status • Access Electronic Parts Catalog (EPC) • Electronic payment	Offline Functions: • CD-ROM based Electronic Parts Catalog • Build a batch order during the day and then transmit later • Submit orders for stocking, emergency, dating and special orders • Retain transmitted orders until you delete them • Build a customer quote • Apply discounts to a customer quote or any line item • Convert customer quotes to batch orders • Change, print and transmit batch orders	Offline Master Parts Price Book: • Determine the price of a part • Determine the dealer cost of a part • Calculate a special price for a part • Determine superseding chain of a part • Determine if a part is obsolete or no longer available • Determine the stocking activity level of a part • Establish a part locator file for your inventory • Print part locator file
---	--	---

Note: For additional information, please contact the DealerPort™ Help Desk at 800-888-4662 or E-mail DealerPort@brp.com

E-ssentials™ Distance Learning Series

Authorized dealers can now give basic training to all full or part time employees anytime. An unlimited number of employees can take these courses at one dealer location. Service writers, technicians, parts department employees, and sales people can all benefit from this interactive training. The best part is each person can take the course at their own pace. They can return to review all or part of it at any time.

- No travel expense
- No hotel expense
- No meals expense
- No lost revenue while technicians are out of town for training

E-ssentials™: Outboard System Function and Service

This is the first step. The 3 DVD basic training program has 13 modules that cover subjects such as: Electrical theory, carburetors, direct injection, cooling systems and gearcases. The modules explain operating principles using video and animation and demonstrate common service procedures. There are interactive quizzes after each module plus a comprehensive final exam.

5008203

P/N	Description	Pack qty	Price	
5008203	E-ssentials™: Outboard System Function and Service DVD Kit	1	DN60C48	\$80.64
355211	Extra Workbooks	1	DN7C98	\$10.64

E-ssentials™: Servicing Evinrude® E-TEC®

This program explains principles of operation, service procedures and diagnostics that are unique to Evinrude® outboards. While this program is intended mainly for service technicians, it will also be helpful for anybody who works with outboards: salespeople, service reps, boat riggers and more.

P/N	Description	Pack qty	Price

356257	Extra Workbooks	1	DN7C48	\$9.97

E-ssentials™: Effective Troubleshooting

This course will be helpful to anyone who has contact with customers. It is especially recommended for technicians, service writers and managers. Two of the four modules have much

helpful information about interacting with customers. It also covers developing a systematic approach to troubleshooting and specific trouble shooting tips.

P/N	Description	Pack qty	Price	
5007192	E-ssentials™: Effective Troubleshooting DVD Kit	1	DN94C98	\$126.64
353074	Extra Workbooks	1	DN6C48	\$8.64

E-ssentials™: Rigging and Propeller Selection

This program covers the correct procedures for rigging a new or re-powered boat with an Evinrude® E-TEC® outboard. It's useful for riggers and technicians at boat-builders and dealers,

along with anyone involved with helping customers select or purchase propellers.

Remanufactured Powerheads & Gearcases

Evinrude®/Johnson® remanufactured powerheads and gearcases deliver the durability and performance for which our engines are famous.

Our years of experience and commitment to quality give you the piece of mind that our remanufactured powerheads and gearcases are built to our exacting standards. Evinrude®/Johnson® remanufactured powerheads and gearcases are built exclusively with Evinrude®/Johnson® Genuine Parts. Remanufactured powerheads and gearcases are backed by our solid **one year limited warranty*** that covers parts and labor.

* For remanufactured powerheads sold in the U.S. and used recreationally only. Some restrictions apply. See the full text of the warranty for all the terms and conditions of this limited warranty. MSRP is suggested pricing only. Dealers set their own prices. Prices are subject to change without notice.

Remanufactured Gearcases

See service bulletin 2002-02-P vo V6 gearcase selection.

All parts DO NOT include \$200.00 core charge except 763592 which does not require a core charge. Core charge will be added to dealer price at time of invoice. Core credit will be credited to your account upon receipt of a rebuildable core.

- The gearcase housings are used and still have their original paint. Be prepared to paint the gearcase to match your customer's engine.
- Be sure to keep your shift rod and upper drive shaft for reassembly.
- If the gearcase you are replacing on a V4 or V6 model has a one piece drive shaft, you will need to order the correct upper drive shaft for your customer's engine. Refer to the appropriate parts catalog for the correct upper drive part number.
- All gearcases are shipped without gear lube, shift rod, or upper drive shaft.

P/N	Description	Pack qty	Price	
765415	V6, Heavy-duty applications, .54 ratio, "M" SLE type	1	DN2050B00	\$2,812.50

Remanufactured Powerheads Direct Injection

All parts DO NOT include \$400.00 core charge (see Core Exchange Policy and Procedure for additional information). Core charge will be added to dealer price at time of invoice. Core credit will be credited to your account upon receipt of a rebuildable core.

- Take particular care when ordering parts for DI engine. There are many different configurations available so you must know what you have before ordering.
- All powerheads are shipped without spark plugs. Base gasket and intake manifold gaskets are included.
- It is the responsibility of the installer to verify that the oil, fuel, and ignition systems are in good working order.

*Direct injection core charge \$400

P/N	Engine	Year	Price

Core Exchange Policy & Procedure

Evinrude®/Johnson® Genuine Parts policy on core exchange is as follows:

- All cores must be rebuildable. Evinrude®/Johnson® retains the sole discretion to determine if a core is rebuildable. Example: If a connecting rod punches a hole in the crankcase, the core is not rebuildable.
- All parts must be included with the core return regardless of condition. Missing parts will be charged to you at dealer net (except shift rod and upper drive shaft).
- Do not remove crankshaft from block.
- The core charge = Gearcases \$200, 2 cylinder and 3 cylinder Powerheads \$200, V4 and V6 Carbureted Powerheads \$300, all DI Powerheads \$400.
- Cores must be returned within 90 (ninety) days to receive core credit.
- A copy of your invoice must be included in the box with your core return to insure that you will receive proper credit.
- No remanufactured powerheads should be returned without written approval from BRP. Approved returns will be subject to a 20% restocking fee.
- All core shipping costs are the responsibility of the dealer. Core returns send C.O.D. will be rejected.
- If you use the same trucking company that delivered your remanufactured product to return your core, shipping may be less expensive.
- Shipments of Remanufactured Products to Canada:
 - BRP US Inc. is not responsible for any duties, fees or customs charges. Please make your customer aware that there may be extra time involved for your order to clear customs.
- Ship cores to:
 - Riverside Marine
 - 901 Judi Drive
 - North Little Rock, AR 72117

Primed N/A	Painted Standard Rotation (STD) 5007724-Metallic Blue 5007909-Smoke 5007668-Blue 5007706-White	Features .54 Gear Ratio External Water Screens This is a high performance gearcase specifically designed for applications with top speeds of 75 MPH or greater. Peak performance with this gearcase is attained when mounted high on the transom. Using this gearcase on slower applications and/or standard transom heights may actually reduce top speed and increase steering torque.

Water Intake Screen High Performance

High Performance screens are designed to minimize drag and cavitation for high speed applications.
For type "M" gearcases only.

5005124

P/N	Description	Pack qty	Price	
5005124	High Performance Screen	1	DN11H48	\$19.13

Water Intake Screen High Flow

High Flow screens are designed for general applications. These screens may exhibit higher drag than the High Performance screens.
For type "M" gearcases only.

5005063

P/N	Description	Pack qty	Price	
5005063	High Flow Screen	1	DN11H48	\$19.13

Water Intake Screen Ultra High Flow

Ultra High Flow screens are designed for hull and engine arrangements that may disrupt normal water flow to the inlet area. Dual and triple engine installations are typical applications that may benefit from these screens. These screens will function in any application, but may increase drag compared to the High Performance and High Flow screens.
For type "M" gearcases only.

5006337

P/N	Description	Pack qty	Price	
5006337	Ultra High Flow	1	DN11H48	\$19.13

Water Intake Screen Ultra High Flow + 1/4"

Ultra High Flow + 1/4" screens are designed for applications similar to the Ultra High Flow screens and are extended an additional 1/4" for extreme applications.
For type "M" gearcases only.

Fuel Oil Pump-Outboard

4-Wire Replacement Pump

Used on all motors except 2 cylinder 40-50 HP

5007420

P/N	Description	Pack qty	Price	
5007420	4-Wire Replacement Pump	1	DN284H99	\$474.98

Fuel Oil Pump-Outboard

4-Wire Replacement Pump

Used on 2 cylinder 40-50 HP and 3 cylinder 60TTL

- Note 1985 & 1986 motors that were never updated to a rubber mounted pump will need conversion kit #175225.

5007421

P/N	Description	Pack qty	Price	
5007421	4-Wire Replacement Pump	1	DN272H48	\$454.14

Fuel Oil Pump-Outboard

Replacement Pump

Used to replace 3-wire pumps on all motors except 2 cylinder

- Note if motor does not have wiring for "NO OIL" warning, order harness #174710
- For CR and CO (1984-1985) cross-scavenged V6 outboards with original pumps (did not have "NO OIL" warning) will need bracket #331122 to provide clearance for "NO OIL" circuitry on new pump

5007423

P/N	Description	Pack qty	Price	
5007423	Replacement Pump	1	DN264H49	\$440.81

Fuel / Oil Pump Repair Kits-Outboard

P/N	Description	Pack qty	Price	
435921	Airmotor Repair Kit	1	DN30H98	\$51.63
436095	Fuel Piston Kit	1	DN38H98	\$64.97
174127	Motor Housing Kit	1	DN15H48	\$25.80

Water Pump Kit Chart-Outboard

Impeller Kits: Includes impeller used to repair water pump.

Water Pump Repair Kits: Includes impeller, pump housing liner and / or other repair parts. (Without water pump housing)

Water Pump Kits Complete: Includes water pump housing, impeller, pump housing liner and / or plates and other repair parts.

Chrome Pump Kits: For extremely silt laden, abrasive, or highly corrosive waters. Kits for plastic water pump housings contain

only the necessary chromed liners and plates. (any exceptions are noted in the footnotes)

SPECIAL NOTE: Aluminum impeller housings will no longer be available for most Evinrude® or Johnson® outboards. A plastic water pump housing will be used in its place. Once you change to the plastic housing it is generally no necessary to replace the housing during subsequent water pump repairs. If there is no damage to the housing, you would install **only** the water pump repair kit containing new impeller liners and / or plates.

EMM & ECU Ordering Information

For part numbers and pricing go to DealerPort.com.

The purchase of an *EMM/ECU* is restricted to full line, package or service dealers only. Authorization is NOT required for replacement of out of warranty units. All *EMMs* have a one-year limited warranty.

IMPORTANT: *EMMs* are NOT returnable. Make sure the *EMM* is the source of the problem. No tests will be performed on units sent in for replacement.

Note: For outboards **WITHIN** the factory warranty period refer to Administrative Bulletin 2011-02(A).

PROCEDURE

1. Connect the diagnostic cable to the engine. Start *Evinrude Diagnostics* software. Press *Connect* to communicate with the *EMM*®. Next, save and print and *Engine Identification Report*.
2. Select the correct *EMM* part number from the **EMM PART NUMBER CHARTS** on DealerPort.com.
3. Complete the **EMM Order Form** on the next page.
4. Package the *EMM* to protect it from damage. Damaged or missing units are subject to a \$100.00 core charge. Be sure to include the *EMM Order Form* and the *Engine Identification Report*.

*If unable to communicate with the *EMM* obtain:

- the engine serial number
- the engine model number
- estimated engine hours
- the 14-digit serial number of each fuel injector with its corresponding cylinder number

IMPORTANT: Send *EMM* only, Do not send *EMM* mounting screws or grommets. Parts other than the *EMM* will **NOT** be returned or replaced.

The old *EMM* becomes the property of *Evinrude®/Johnson® Genuine Parts*.

EMMs are returned ground prepaid. NEXT DAY C.O.D. is not available.

Note: *EMM/ECUs* do not qualify for the free freight program.

If you require next day or second day shipment, please indicate this on the *EMM Order Form*. BRP US Inc. is not responsible for any shipping delays once a package leaves its facility or any duties, fees or customs charges. Please make your customer aware of that there may be extra time involved for your shipment to clear customs.

Allow two business days for processing of in stock *EMMs* (not including shipping).

All *EMM/ECU* units carry a one-year limited warranty.

For all **NEW EMM/ECUs** that are being replaced on an engine that is under warranty, please contact Dealer Support for authorization and shipping instructions.

For questions regarding return shipment of your order, call: (800) 888-4662 (option 3).

“Porta Quick” Oil Changer by Jabsco

The Jabsco 17800-2000 Porta-Quick Oil Changer makes quick, clean and easy oil changes on-board any boat, using the power supply of the vessel.

A retractable pouring spout is also provided if it is not desirable to use the pump for emptying.

- 14 quart container easily handles two engines
- Sturdy bronze pump head
- Non-collapsible thick wall suction hose
- Garden hose thread adapter included
- Specs: 34.3 diameter; 35.4 high; cms 13-1/2 diameter; 13-5/8 high; inches
- 12 volt with 8 foot cord

771923

P/N	Description	Pack qty	Price	
771923	Oil Changer	1	DN182C98	\$243.97
771915	Impeller - for pumps built prior to 2003 (0.50 x 1.25" O.D.)	1	DN26H48	\$44.13
778701	Impeller - for pump models 17800 thru 2000 (0.75 x 1.63" O.D.)	1	DN35H98	\$59.97

“Little Pal” Pump by Jabsco

Handles many liquid draining and transfer jobs, yet is small enough for a tool or tacklebox.

WARNING: NOT For Pumping Gasoline or Flammable Liquids!

- Includes 2" hose and draw tube for draining oil through dipstick tube
- Overall length is 10 1/4"

771674

P/N	Description	Pack qty	Price	
771674	Little Pal Hand Pump	1	DN33F31	\$49.97

Oil Filters-Stern Drive

Our oil filters are specifically designed for use in a tough marine environment. Unlike an automotive engine which is started nearly everyday, a boat engine sits for long periods of time. A boat will also see higher RPMs over a wider temperature range and shock loads that a car never sees. Our filters are designed with all of this in mind.

- **Metal End Caps** - are sealed to the element so oil can't leak past and get back into the engine unfiltered
- **Filter Element** - is a resin impregnated, heat-cured, paper media with microscopic pores that capture and hold harmful particles
- **Anti Drain Back Valve** - keeps oil from draining out of the engine during shut down preventing "dry" starts
- **Back Plate** - has a rolled seam to prevent leaks into the bilge

Safety Warning!

Use only genuine replacement parts or equivalent parts that meet manufacturer's specifications and requirements. Incorrect parts can be dangerous, and in some cases could void engine warranty. Fuel system parts of inboard engines have been specially designed not to emit fuel or fuel vapors into the engine compartment. Electrical system parts have been specially designed to prevent external sparks in the engine compartment which could ignite fuel vapors. Do not substitute automotive parts for OEM replacement parts. Automotive parts do not have the special design characteristics for marine use.

Connector, Chrysler®, Force®, Sears® & Small Suzuki® - Female

This quick connector is complementary to Chrysler® male "Quick" connect.

- Joins gas line to motor and fuel tank
- Fitting is plated brass
- 2002 & 2003

502874

P/N	Description	Pack qty	Price	
502874	Chrysler®, Force, Sears® and Small Suzuki® - Female	1	DN7L98	\$14.78

Connector, Chrysler®, Force®, Sears® & Small Suzuki® - Male

Use with quick disconnect fuel line hose on all Chrysler® motors.

- Fitting is plated brass with 1/4" NPT thread
- Weight is 1 oz.
- 2002 & 2003

502868

P/N	Description	Pack qty	Price	
502868	Chrysler®, Force, Sears® and Small Suzuki® - Male	1	DN4H48	\$7.47

Fitting - Quick Disconnect

- Point of Purchase Packaged

775641

P/N	Description	Pack qty	Price	
775640	Quick Disconnect Fittings for 5/16" I.D. hose (POP)	1	DN3H98	\$6.63
775641	Quick Disconnect Fittings for 3/8" I.D. hose (POP)	1	DN3H98	\$6.63
334913	O-Ring Single Line Connector (fits 775640 & 775641)	5	DN0M72	\$1.44

Suzuki® 9.9-15HP

Suzuki® style fuel connectors.

P/N	Description	Pack qty	Price

Rope - Anchor Twisted Nylon by Bridgeline®

Our most popular anchor lines are manufactured from 100% U.S.A. nylon fibers in a 4-stage, 3-strand twisted construction.

Our most popular anchor lines are manufactured from 100% U.S.A. nylon fibers in a 4-stage, 3-strand twisted construction. These strong, long-lasting anchor lines offer superior protection from surge loads, hold knots well and have excellent resistance to abrasion, rot, mildew, oil, grease and most chemicals. Each anchor line is put up in a coil or on individual spool for easy display and storage.

509873

P/N	Mfg. P/N	Description	Pack qty	Price	
509873	TNA0650-01	Anchor rope, 3/8" x 50', white (standard pack 4)	1	DN11H48	\$19.13

509875	TNA06150-01	Anchor rope, 3/8" x 150', white	1	DN24H48	\$40.80
778875	TNA08100-01	Anchor rope, 1/2" x 100', white	1	DN29H98	\$49.97

Line - Anchor Double Braided Nylon by Bridgeline®

Gold and white "Braid on Braid" Anchor Lines have become the most easily recognized and popular Anchor lines available.

Manufactured from 100% nylon in jacket and core, this braided Anchor Line has superior shock absorbing elasticity and will not rotate, kink or hockle under a load. Easy handling, this line can be stored wet and is highly resistant to rot, oil, grease, gasoline and chemicals. Each Anchor Line is put up in a coil or individual spool for easy display and storage.

506480

P/N	Mfg. P/N	Description	Pack qty	Price

Note: Standard Package of 12

Dock Line - Braided

Made from a new high tenacity polypropylene fiber, these high tech dock lines are extra strong yet so light they will float on the water. They are resistant to chemicals, rot, oil, gasoline and are UV stabilized to minimize the long term effects of exposure to sunlight. Bridgeline® torque balanced double braid construction resists abrasion, will not absorb water and will not shrink. An excellent choice for dock lines that look and feel like nylon. Recommended for small boats in normal docking conditions. Available in a wide variety of popular colors.

776604

Cleat No-Tie Rope by Panther™

The original no-tie rope cleat

The Rope Cleat is a no tie, no knot, rope cleat that will secure any rope, line or cord with absolutely no knots. The unique design allows for securing either one or two ropes at a time and for securing item such as boat fenders without tying a single knot. It's ideal as an all around utility cleat.

Drain Plug

1" Nylon Drain Plug with Mounting Flange

- This screw-type drain plug is constructed of black nylon.
- Features an "O" ring for positive sealing.
 - Fine threads maintain sealing under high vibration conditions.
 - Mounts in a 1" diameter hole with two (2) #8 countersunk stainless steel screws (not furnished).
 - Mounting flange has a groove to hold sealant for positive waterproof mounting.
 - Mounting flange is approximately 1H" x 2".
 - Ideal for boat transoms, fish wells, bait tanks, water tanks, coolers, ice chests or any application where a positive sealing drain plug is required.

Why Recommend a Battery Isolator by Guest®

- Allows engine alternator to be connected directly to both batteries, prevents higher-charged battery from discharging into the other battery.
- Electrically isolates each battery so when engine is running, both batteries are charged simultaneously yet independently.
- Used in conjunction with the non-fused disconnect battery switches, user gets complete freedom of battery selection for power use, plus the alternator protection supplied by the isolator.

Note: These isolators are not recommended for use with engines equipped with the following generators:

- Neihoff, Deko 10SI series
- Hitachi LR 133-31 type 10 or type 6
- Leese-Neville JB series

Battery Isolator by Guest®

Control multiple battery systems.

- Designed for alternators with isolation diodes.
- Battery Isolators Volts 2
- Maximum output: 70 amps
- Recommended usage is one alternator, two batteries.

765125

P/N	Mfg. P/N	Description	Pack qty	Price	
765125	2401-A	Battery Isolator	1	DN56D98	\$81.40

Battery Isolator Harness Kit

Required to connect battery isolators to the following outboards:

- For units without terminal strips
- 1995 Thru 60° V4 90, 115 HP
- 1991 Thru 150, 175 HP
- 1993 Thru 200, 225, 250, 300 HP

502090

P/N	Mfg. P/N	Description	Pack qty	Price	
502090		Isolator Harness Kit	1	DN22H98	\$38.30

Battery Isolators-Installation Instructions

OUTBOARD ENGINES

Applicable Models:

All Evinrude®/Johnson® outboards with 10 amp or larger charging system.

Installation of battery isolators is not recommended in outboard engines with a charging current of 10 amps or less. The isolator will work but current output is generally not sufficient to maintain two or more batteries.

A battery isolator allows motor charging current to flow through the isolator, to one or more batteries. Diodes in isolators prevent current flow back through the isolator therefore, current draw from one battery does not affect other batteries.

For multiple battery systems, the installation of a battery selector switch can accompany an isolator. One battery selector switch should be used for each engine. Battery switches must be an approved marine switch and be of a make-before-break design.

Single engine with the addition of one battery, use Guest® isolator model 2420A/508362.

1991 & Later 60° Loop V Models

1992 & Later Models 40/50/60/70

1993 & Later Models 200/225/250/300

Installation of Isolators

Note: When installing an isolator on an outboard engine be sure not to make any changes to the wiring of the main (original) engine battery. The red wire from the regulator rectifier to the main battery is NOT to be disconnected. The only connection needed is to attach a lead to the yellow/gray wire junction on the terminal strip. Also, isolators for use on Evinrude®/Johnson® outboards are of specific design, be sure your isolator is one of the models listed. Any further questions should be referred to our Dealer Support Group.

Note: When connecting new wires, care should be taken to select the proper gauge wire. This is dependent on the distance between the engine and the isolator. Follow the ABYC specifications on wire size. A minimum of 10 Awg is recommended.

Battery Isolators-Installation Instructions

STERN DRIVES

Applicable Models:

• “ALL” OMC King Cobra® Models:

- 5.7 Liter LE OMC Cobra®
- 351 OMC King Cobra®
- 454, 454 HO OMC King Cobra®
- 502 OMC King Cobra®

• “AHM” Diesel Models

• “ALL” OMC Cobra® Models:

- 4 Cylinder 3.0/3.0 HP Liter
- 6 Cylinder 4.3 Liter
- 8 Cylinder 5.0/5.0 HO Liter, 5.7 Liter, 5.8 Liter

A battery isolator allows motor charging current to flow through the isolator, to one or more batteries. Diodes in isolators prevent current flow back through the isolator therefore, current draw from one battery does not affect other batteries.

For multiple battery systems, the installation of a battery switch can accompany an isolator. One battery switch should be used for each engine. Battery selector switches must be an approved marine switch and be of a make-before-break design.

Installation of Isolators

Configurations:

In each of the installation figures, the input to the isolator “A” post(s) is the original orange wire from the “pos” terminal on the alternator disconnected from the 50 amp circuit breaker and reconnected to the isolator. Do not make any alterations to the red cable.

When connecting new wires, care should be taken to select the proper gauge wire. This is dependent on the distance between the isolator and batteries. Follow the ABYC specifications on wire size. A minimum of 10 Awg is recommended.

Any further questions should be referred to either Guest® Customer Service or our Dealer Support Group.

Battery Charger-Portable

A fully automatic 3-stage portable charger designed for fast, full charging and maintenance. Completely sealed in a durable potted case, it's waterproof, shockproof and corrosion proof. This powerful 6 amp unit comes prewired with a 6-ft. AC cord and 4-ft. DC output wire with alligator clips. Can be left connected indefinitely.

- 6 Amp Battery Charger
- Built in electronic overload and thermal protection
- LED ready indicators
- Reverse polarity protection
- Carrying handle for easy portability

Battery Pal Automatic Float Charger

Designed specifically to extend battery life by maintaining a fully charged battery in applications where batteries are stored for long periods such as boats, jet skis, snowmobiles, ATVs, garden tractors, and motorcycles. Stored batteries "leak" current. Model 508344 prevents this leakage from draining your battery.

- Unique "float" circuit senses when battery is fully charged and automatically reduces current flow, supplying only the maintenance charge necessary to preserve battery life.
- Plugs into any standard 60-cycle AC outlet rated between 100 and 130 volts, LED light indicates proper operation.
- Designed for use with lead/acid storage batteries rated between 5 and 120 amp/hours.

508344

P/N	Mfg. P/N	Description	Pack qty	Price	
508344	2602	Battery Pal Automatic Float Charger	1	DN39D98	\$57.12

Battery Charger 12-24 Volt

Meets all Guest® Harsh Environment Guidelines. Total Amps: 10 Number of Outputs: 2Amps per output: 5/5Battery System: 2-12V or 24VOutput Voltage: 12V DC Output: 2-4' Cables w/ring terminalsInput Voltage: 100-130VDC/50-60HzAC Input: 6' cord W/Connect Charge PlugDimensions: 7.75' x 5.50' x 2.42'Weight: 5.6 Lbs.

- Models with AC Cables can be used with the ConnectCharge permanent mounting system
- Self-Protecting under extreme ambient conditions
- Vibration and Shock Protected
- Fully Potted to Waterproof Electronics
- 3-Stage Switching Electronic Circuit
- Maintenance Mode protects batteries during storage
- Short Circuit Protected
- Ignition Protected
- Reverse Polarity Protected

Battery Switches & Selector Systems by Guest®

- Provide positive disconnect of batteries when boat is not in operation.
- Protect against electrical fire and explosion hazards, run-down batteries and unauthorized tampering with electrical system.
- Positive click stop on all positions.
- Can be panel or flush mount.
- Large, easy to read dials.
- Heavy-duty copper contacts.
- Make-before-break design.
- For use with 6, 12, 24, 32 volt systems.
- UL Marine listed and conform to Coast Guard Safety standard 183.410 for ignition protection.

Battery Switch Runabout Series

Use for disconnect power while boat is stored (rack storage). Continuous Amps: 230 Momentary Amps: 345 Color: black Dimensions: 5" D x 2-3/4" H.

- New ergonomically styled turn knob provides easy On/Off switching
- Updated color scheme and graphics make it easier to determine switch status
- Use with 6, 12, 24 or 36 Volt systems
- Longer stud lengths for improved assembly and easier cable routing
- Heavy duty copper sweep contacts

Submersible Bilge Pumps by Rule®

These bilge pumps have set the standard for the industry for many years. They are the first choice of yachtsmen and commercial fishermen throughout the world. Rule® leads the industry in pump innovation and reliable, rugged design.

All Rule® pumps feature the following:

- Exclusive moisture tight seals
- Positive, snap-lock strainer bases
- Silent running and vibrationless
- Exceptional reliability and long life
- Anti-airlock features; stainless shafts
- Can be run dry without damage
- Compact design, efficient, maintenance free
- Ignition protection, rust and corrosion proof

Bilge Pumps 360 & 500 GPH by Rule®

These popular pumps are ultra-compact, affordable, and rugged.

P/N 504174 and 504175 can also be used as a baitwell recirculating pump. Popular models with many leading boat builders. Each of these pumps have a 3/4" outlet.

- 3-1/2" in height by 2-3/8" in width.

Bilge Pump First Mate by Mayfair Marine™

Ideal for the budget conscious boater. Made to Mayfair™ exacting standards. With many of the features of the more expensive pumps.

- Easy to install bi-mount bracket, with moulded filters and the powerhead removes for cleaning.
- Made of ABS plastic and has #316 stainless steel motor shaft.
 - Output 400 GPH, 12 volt, 1.5 amp draw, uses 2 amp fuse and 3/4" hose.
 - Height 3 7/8".

Float Switch Electro Magnetic by Mayfair Marine™

Electro Magnetic switch ensures reliability

- No mercury
- 6 ft. tin coated wires
- Fully submersible
- 15 Amp max
- Epoxy encapsulated electronics resists corrosion from wicking
- Turns on at 2-3/4" of water
- Turns off at 3/4" of water
- Vent cover prevents false starts
- Wire size: 16 ga. Tin coated
- Housing: Thermo Plastic
- Weight: .25 lbs.
- Dimensions: 3.25"H x 3"W

Ultima Fluid Detection Switch by Mayfair Marine™

Detector cells are totally sealed, are never in contact with the water, will not corrode and are not affected by oil or foreign debris. ULTIMA activates at a 50 mm (2") fluid level and deactivates at a 20 mm (3/4") fluid level. An eight second delay prevents false starts. ULTIMA switch is rated to handle all Johnson Pump submersible pumps, pumps up to 20 amps at 12 or 24 volts.

- No moving parts
- Totally sealed solid state electronics and field detectors
- No mercury
- No exposed sensors eliminate corrosion possibilities
- Unique 3-way switch disables piezo alarm while keeping warning LED lit
- Environmentally sensitive

LifeCalk® Sealant

A long lasting, permanently flexible marine polysulfide sealant which can be sanded, painted and used above and below the waterline.

Tack-free in one to three days, excellent resistance to teak oils, gasoline and diesel fuel. Ideal for teak decks, to bed deck and hull hardware, seal thru hull fittings and underwater seams. Will bond to fiberglass, wood, metal, glass and itself. Cures to a firm flexible rubber seal with excellent waterproofing and adhesion qualities. Can be applied underwater for emergency repairs. Can be applied to damp surfaces.

INFO SECTION (INF)

LifeSeal® Sealant

A unique combination of marine silicone and polyurethane, formulated especially for fiberglass. LifeSeal® offers a fast-curing, low odor, high adhesion, non-sagging, non-corrosive, non-yellowing formula.

It provides a durable permanent watertight seal for joints subject to structural movement. May be used above or below the waterline. Use for sealing decks to hulls, thru-hull fittings, vinyl ports, sealing/glazing windshields and bedding marine hardware. Will adhere to metal, glass, wood, Lexan®, ABS® and certain other materials.

- Not recommended for ferro cement hulls, impregnated wood or oil-soaked materials.
- Can be removed without damaging gel-coat.
- Cures in presence of water.
- Mildew resistant and acid-free.
- Custom colors available.

Marine Silicone Rubber Sealant

An all-purpose, non-corrosive, non-yellowing, mildew resistant, low-odor, 100% marine high quality silicone sealant.

*Fully cured in 24 hours. Superior flexibility and adhesion to fiberglass, plastic, metal, and wood. Retains flexibility and tensile strength even after years of exposure.

- Tack-free in 30 minutes or less.
- For use above or below waterline.
- Will not shrink, crack, or dry out.
- Acid free cure will not corrode metal.

Test Tank Cleaner

The only patented product designed for engine test tanks.

Emulsifies oil in water and leaves in suspension. Removes oil slick from water surface. Safe for rubber impellers and hoses, cleans water passages. Used to clean up spills.

- Lower units come out clean - no wipe down necessary.
- Economical 50:1 ratio saves money and really does the job.
- Non-foaming formula removes all traces of oil and dirt.
- Environmentally friendly.
- No phosphates - biodegradable.
- Pleasant fragrance, neutralizes foul odors.

“Git”-Rot®

Unique two-part liquid epoxy saturates and restores original strength to wood by penetrating the rot. Actually works with the loose rotted fibers.

Wood must be dry. Apply by injecting into wood. Will soak into wood by capillary action. Great for transoms, stringers and cabin roof rot in both fiberglass and wood boats.

- One-half hour pot life after mixing.
- Cures overnight.
- Sandable and paintable, can be drilled and screwed.
- Compatible with fiberglass resins, epoxies, and most sealants.

776501

776501	1063	Git-Rotr® 4 oz. kit	12	DN13D48	\$19.26

303 Protectant™

A beautifying liquid sunscreen for fiberglass, vinyl, rubber, plastics and sailcloth. Utilizes powerful ultraviolet screening technology developed for the aerospace industry.

Immediately restores original color and gloss to faded colored gelcoat fiberglass. Fiberglass stays showroom new with periodic spray-on/wipe-off applications, usually every 45 to 60 days of exposure.

Thoroughly tested, 303 Protectant™ is used and recommended by major boat builders and marine accessory manufacturers. 303 Protectant™ is excellent UV treatment available for inflatables.

- The best quality & best value
- Beautifies better - lasts longer
- No silicone oils - not greasy
- Will not attract dust
- Unique UV sunscreen

SaltAway®

SaltAway® Salt Removing Treatment. Kills Salt. Pure and Simple.

SaltAway® Engine Flush and Exterior Wash attacks and removes salt crystals from virtually any surface. When mixed with water, SaltAway® washes away the salt then leaves a protective coating on the surface to prevent rust and corrosion. It can even be used with saltwater when fresh water is unavailable. No need for high water pressure or any scrubbing, SaltAway® is so effective it can break down salt and corrosion that's already built up inside an engine.

Flushes salt from the engine cooling system in less than one minute. Use on:

- Inboard Engines
- Outboard Engines
- I/O Engines
- Personal Watercraft Engines
- Trailer Brake Systems

Washes salt off surfaces quickly and easily with no rinsing. Use on:

- Decks
- Hulls
- Nylon Sails
- Fittings
- Canvas
- Radar Equipment
- Even - Fishing Tackle, Diving Gear and Underwater Cameras!
- 100% Non-Hazardous
- 100% Biodegradable
- 100% Non-Toxic
- 100% Warranted
- Made in the U.S.A.
- Concentrated formula has blue color to help determine dilution strength
- Rinse aid keeps minerals in rinse water from leaving spots

AquaMend® Epoxy Repair Putty

A hand-kneadable, fast-setting, fiberglass-reinforced polymer compound for permanent repairs to many surfaces including fiberglass, concrete, glass, ceramics, metals, wood, and many plastics.

AquaMend® has a 20 to 30 minute worklife. Functional cure occurs in 60 minutes. Cured color is off-white. If color is critical, test before applying. AquaMend® can be sanded and painted to match any surface color. AquaMend® is not intended for structural applications. Can be applied underwater.

- Putty-like consistency eliminates drips and runs for a "no mess" application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined, and painted.

771789

P/N	Mfg. P/N	Description	Pack qty	Price	
771789	70560	AquaMend® Epoxy Repair Putty	12	DN9D48	\$13.54

QuikAluminum® Epoxy Aluminum Putty

QuikAluminum® Epoxy Putty Stick is a hand-kneadable, fast-setting, aluminum-reinforced polymer compound for permanent repairs to anything made of aluminum. It also bonds to other metals, wood, glass, masonry and many plastics.

QuikAluminum® has a 5 to 7 minute worklife. Functional cure occurs in 60 minutes. Cured QuikAluminum® is a light grey metallic color. QuikAluminum® is not intended for structural applications. Will not shrink or rust.

- Putty-like consistency eliminates drips and runs for a "no mess" application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined, and painted.

771787	57060	QuikAluminum® Epoxy Aluminum Putty	12	DN9D48	\$13.54

QuikPlastik® Epoxy Putty

QuikPlastik® Epoxy Putty Stick is a hand-kneadable, fast-setting polymer compound for permanent repairs to most major plastic types.

It does not adhere to polyethylene, polypropylene and some other plastics. When unsure of product type, an adhesion test will confirm suitability. QuikPlastik® also bonds to metal, wood, glass and masonry. QuikPlastik® has a 20 to 25 minute work life. Functional cure occurs in 2 to 3 hours. QuikPlastik® is not intended for structural applications. Will not shrink or pull away.

- Putty-like consistency eliminates drips and runs for a "no mess" application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined or painted.

772596

P/N	Mfg. P/N	Description	Pack qty	Price

FastSteel®

FastSteel® Epoxy Putty Stick is a hand-kneadable, fast-setting, industrial-strength, steel-reinforced polymer compound for permanent repairs to anything made of steel or other metals.

- Will not shrink or rust.
- Putty-like consistency eliminates drips and runs for a "no mess" application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined or painted.

Dr. Shrink Boat Protection Film

Shrink Film is 100% virgin Polyethylene providing consistent thickness and even shrinking.

The film has UV inhibitors to retard sun degradation and provide added durability in all climates. Blue Film is designed for northern climates for absorbing heat and allowing snow to slide off covers. White Film is designed for warmer climates because of its ability to resist the sun. Clear Film is designed for showcasing boats, keeping them clean and dry. Not recommended for outdoor storage in warm climates.

Heat Gun & “How-To” Video

The propane fired heat gun includes a 25' hose and adjustable regulator.

It puts out 300,000 BTU's at a maximum power, but is variable from 10,000 BTU's upward through use of a trigger. It comes with a 4" extension for small jobs, or an 18" extension for shrinking large areas. At 2.5 lbs., it is very lightweight and maneuverable. Parts are available.

Shrink-Wrap Boat Cover Recycling

Dr. Shrink's "prepaid REBAG®" recycling kit is the easiest and most cost effective method for you to recycle your customer's shrink-wrap every spring. Our simple, yet effective system gives the marine industry a good environmental image while you save money on landfill fees.

Here's what the kit will do for you:

1. Gives you a fixed cost per boat COVER for recycling.
2. Allows you to bill the customer for recycling when their boat is covered.
3. Full REBAG® are picked up at your doorstep free in the spring. They can be picked up on a daily basis, so you won't have piles of plastic blowing around.
4. It's an environmentally correct program that keeps this #4 LDPE plastic out of the landfills. (YOU CAN ALSO REBAG® STRETCH-WRAP, POLY SHEETING & POLYSTYRENE.)

The steps in the program are:

1. Hang a REBAG® over the control handle on any boat (two bags on boats over 26') before it is shrinkwrapped.
2. Once the boat is wrapped, put the provided informative sticker on the cover at the stern. This label explains that there is a "prepaid rebag" kit in the boat and how to remove the cover without leaving strapping and foreign material in the wrap.
3. After the cover is removed it is stuffed into the REBAG®, sealed with the closure device provided, and the prepaid shipping label is attached to the bag. That's it!
4. The full REBAG® will then be picked up at your facility free by Dr. Shrink's carrier on a daily basis if you would like. There are no weight restrictions or extra fees to you.

ConnectPro™ Trolling Motor Plug Guest®

A revolutionary new concept in trolling motor connections, the ConnectPro™ has superior electric current carrying capacity that eliminates problems that rob motors of power and reduce battery life. Features locking plug and receptacle and spring clamping connection which provides a waterproof seal for secure electrical contact. Corrosion resistant, plated brass electrical components accept up to 8 gauge wire.

ConnectPro™ Receptacle Features:

- Universal design for 2- or 3-wire configuration 12, 24, 12/24, 24/36 or 36 volt systems.
- Watertight sealing cap • Drain holes in receptacle to keep water away from electrical components.
- Perma-Lock™ screw terminals will not loosen under extreme hull vibration
- Standard 1-1/8" diameter mounting hole.
- Easy to install with supplied mounting plate for front panel installation, or locking ring for rear access installation.

ConnectPro™ Plug Features:

- O-ring seal for waterproof connections
- Weather-resistant plug cover
- Corrosion resistant, plated brass electrical components
- Ergonomic contoured grip for easy hook-up and ground blade alignment.

On-Board Charger Inlet by Guest®

Makes battery charging through an on-board battery charger safer and more convenient. Inlet mounts on boat's exterior and is hard wired directly to charger. Just flip open the cover and plug in an extension cord to bring charging power to the boat's batteries. All of the hatches remain closed and locked throughout the charging cycle for boater safety and convenience.

- 15A 125V straight blade inlet
- asily mounts almost anywhere on fiberglass and aluminum boat hulls
- Low profile cap won't catch fishing line
- Perma-Lock™ terminals and color coded wire entrance holes make wiring a snap
- Black UV resistant housing and cap

P/N	Mfg. P/N	Description	Pack qty	Price	
776741	150BBI	15A On-Board Charger Inlet	1	DN14D98	\$21.40

Trolling Charging System by Marinc®

Four-wire system eliminates the need for a charge/run switch. Simply install the receptacle on the boat, mount the black trolling motor plug on the trolling motor and the red charger plug on the leads of the battery charger. Then plug in the black plug to troll and the red plug to charge. 12/24 V locking receptacle.

- Charger Plug (Male)
- Connects to a 12V battery charger to allow simultaneous charging of two 12V batteries when plugged into the receptacle. Red.

Spill Proof Fueling Systems by Scepter®

The new Scepter® ECO® cans utilize patented DuPont Laminar Technology and Sclar RB® barrier resins in the manufacturing process. The result in a permeation level well below the CARB required rate of 0.40 grams/gallon/day. The ECO® cans are also equipped with new ECO® spouts which are self-venting, stop fuel flow automatically and shut automatically. They are also equipped with a special funnel to permit the filling of on-road vehicles. These features provide the user with the safest, most environmentally friendly products available.

EPA Compliant Gas Can by Scepter®

23.8" x 18.2" x 14.9"

Anchor-Super Hooker Application Chart by Hooker®

P/N	Model Size	Weight lb.	Boat Length	Holding Power lb.	Anchor Height "A"	Stock Height "B"	Fluke Height "C"
776871	#4	4	12' to 16'	240	19½"	14¾"	10½"
776872	#8	9	17' to 24'	480	24"	18¼"	12"
776873	#13	14	25' to 30'	740	28¼"	21½"	14¼"

Anchor - Super Hooker

The Super Hooker anchor is a good choice for your anchoring needs. The lightweight, hot dipped galvanized SUPER HOOKER anchor has strong, wide flukes that penetrate quickly and firmly for maximum holding power. The fully welded crown configuration provides the right angles for ultimate holding power and secure penetration. The SUPER HOOKER stows flat and can be used with most fluke type anchor storage systems.

776872

P/N	Mfg. P/N	Description	Pack qty	Price	
776871	95035	#4 Anchor	1	DN16H98	\$28.30
776872	95040	#8 Anchor	1	DN20H98	\$34.97
776873	95045	#13 Anchor	1	DN34H48	\$57.47

Anchor - Hooker Quick Set

The HOOKER QUIK-SET design, with the "Slip Lok" shank, insures a proper set regardless of which way the anchor lands. The slip ring design permits easy retrieval in snag prone areas. Hot Dipped Galvanized Finish. Patents pending.

Bearing Buddy® Selection Chart

Bearing Buddy® Model	Outer Bearing Cone	Outer Bearing Cup
1980 & 1980A	L44643, L44649, L44640	L44610
1781	LM11949	LM11910
2328	LM67048, hub not counterbored	LM67010

Bearing Buddy®

When properly installed and maintained, Bearing Buddy® uses positive pressure to keep water away from the bearings. Boat trailer wheels can be completely submerged.

- Triple chrome-plated steel outer barrel fits tightly over the hub.
- Internal parts are made of stainless steel for durability.
- Clamshell packed for display.
- Includes Bearing Buddy® Size Gauge to measure the five most common size dust caps to select the proper Bearing Buddy model.

Hydraulic Brake Kit

Corrosion resistant brakes, packaged.

Description

Two 10" Uni-servo hydraulic brakes zinc plated and dichromate coated components with stainless steel springs. Rated capacity: 3,500 lbs. axle capacity.

Interchangeability

Atwood Uni-Servo Foundation Brakes feature mounting interchangeability with most major brands allowing easy adaptation of the Atwood Brake System without the need to modify the axle or mounting flange.

Automotive Type of Adjustment

Manual adjustment is quick and easy with the Atwood Brake and can be performed by most qualified service station or garage mechanics.

Complementary Design

Atwood foundation brakes are designed to function as an integral part of the Atwood Brake System. They combine the advantage of optimum brake performance with the convenience and savings.

Brake Actuators

The Atwood Hydraulic Surge Brake System has been designed to provide reliable and efficient automatic braking for towed equipment applications. This system offers the benefits of braking performance that is superior to comparable hydraulic or electric brake systems on the market with the advantages of being compact and lightweight. A manually operated brake lockout lever prevents the trailer's brakes from applying while backing up over soft ground or uphill.

- **Rated Capacity**- 6,000 (lbs.) S.A.E. 4
- **Tongue Load**-15% GVWR
- **Brake Lockout Lever**-This lever prevents the brakes from being applied while backing up, increasing maneuverability.
- **High Strength Steel Construction**-Both the housing and ball socket assembly are constructed of high strength stamped steel to meet or exceed industry standard (S.A.E. J684).
- **Unique Breakaway Device**-The actuator incorporates a mechanical breakaway device without reliance on batteries for activation. When correctly attached to the tow vehicle, it will set and lock the trailer brakes in the unlikely event of a vehicle/trailer separation.
- **Serviceability**-The brake actuator is completely repairable, permitting timely "field" service without the cost and inconvenience of replacing the entire actuator.
- **Unique Pivoting Ball Socket**-Atwood's unique pivot link between housing and ball socket provides a light weight reduction and improved appearance through a smaller profile.
- **Accommodates Equalizing Hitches**-The actuator is designed to accommodate equalizing hitches while maintaining proper operation when installed according to the instructions provided with the brake actuator.

Trailer Jack - Slugger Swivel by Shelby®

Good quality, great price! This jack is well constructed for fast, dependable operation. It safely swings from the towing position to the lifting position using an exclusive four-bolt swivel mechanism and a 1/2" pull pin. Zinc plated to resist corrosion, Slugger bolts-on and fits tongues up to 4". Mounting hardware included.

776555

P/N	Mfg. P/N	Description	Pack qty	Price	
776555	5716-81Z	1,000 lb. Slugger Swivel jack	1	DN29D48	\$42.12

Trailer Jack - Bolt-On Swivel by Shelby®

Patented OSD is a hearty built swivel jack that fits tongues 3" x 5". OSD cranks easy under load because of a unique built-in camber. A clever precision bushing design ensures a tight fit to curtail aggravating rattle. Even better, no special tools are required to mount OSD! Zinc plated with Supersealer to withstand tough environments, OSD is one exceptional jack! Mounting hardware included. Made in U.S.A.

Trailer Jack - Square Tube by Shelby®

Ideal for large marine and utility trailers, this jack resists bending 70% more than conventional 2-1/4" round tube jacks, and it features a telescoping drop leg for fast height adjustment. A heavy-duty footplate provides stability on all kinds of surfaces. Mounting hardware included fitting tongues 3" to 5" with 6" possible. Attractive zinc finish with durable Supersealer. Hook-up large loads with the assurance that your jack can handle the load! Made in the U.S.A.

Trailer Winch Chart

Warning - NOT designed to be a human hoist and should never be operated when there are persons on or under the load being moved.

1. On a special order basis. all winches are available with large drum to accommodate steel cable - contact your Fulton representative for details.
2. Only winches that are shown to accommodate steel cable should be used with steel cable. Cable keeper kits are included with the winches specifying steel cable.

Capacity Rating-Based on direct lift on first layer of line on drum. Capacity is reduced as line builds up on drum.

Maximum Mechanical Advantage - Based on first layer of recommended line on the drum. For maximum efficiency, use only the amount of line required.

Couplers - Straight Posi-Lock®

All models are die-formed from heavy-gauge steel then plated with zinc supersealer for added durability and strength.

Quick-locking handle/underjaw design and trigger action mechanism clamps or releases the ball for fast, easy hook-ups.

- Coupler ball clamps are factory-adjusted to ball size.
- Handle latch locks into heat-treated load plate - cannot unlatch by itself.
- Accommodates a coupler security lock or locking pin for added safety.
- Flanged sides with mounting holes for bolt-on installation.
- May be permanently welded to trailer tongue.

Propeller Locks by McGard®

McGard® Propeller Locks are fully machined from naval brass and hardened stainless steel. This new design features a free spinning collar that will turn if attacked by gripping tools without loosening the lock. To install, simply replace the propeller nut and washer with the McGard® lock and Belleville washer. Then tighten the lock with the special key tool provided in each set. The easy to use key tool comes in many different patterns for maximum security.

776519	RTD4	Ratchet transom tie-down	1	DN12H48	\$20.80

Tie-Down - Retractable Transom by Rod Saver®

A newly designed Transom Tie-Down, the Retractable Transom Tie-Down compares to any on the market. Our Retractable Transom Tie-Down mounts to the trailer permanently. The top hook retracts from the tie-down housing and attaches to the transom eye or anchor position on the boat. The Retractable Transom Tie-Down is then tightened with the ratchet handle until taut, and the best part, it's all done with one-hand operation! It's that simple! The Retractable Transom Tie-Down is also constructed with quality Nylon Webbing and 2,000 lb rated capacity vinyl-coated hooks. Never lose your tie-downs again as they are mounted to the trailer with a simple one bolt installation. Constructed to withstand weather conditions and be submerged in the water while loading and unloading, the Retractable Transom Tie-Down is built with the Rod Saver quality you expect.

776515

P/N	Mfg. P/N	Description	Pack qty	Price	
776515	RT40	Retractable transom tie-down 40"	1	DN39H98	\$66.63

Super Rollers by Stoltz®

Made of polyurethane, they will not mark or discolor boats. With Super Rollers, the boat comes off the trailer easier every time and winching it back on is especially easy.

- Now with UV Blocker.
- Will outlast ordinary rubber rollers.
- Will not mark boats.
- Shock absorbing.
- Cut resistant.
- No bushings to pop out.
- Will not "flat spot".
- Easy roll out, easy winch in.
- Not affected by fuels, grease, oil, salt, exhaust, acids, alkalis.
- Abrasion resistant.

Flotation

All of these life preservers are branded with the famous Evinrude®/Johnson® name, but more importantly, they're constructed with the same high standards for performance and durability as our engines and parts. Every life preserver meets all U.S. Coast Guard type III requirements or CSA standards, while the cushions are USCG-approved type IV devices.

Evinrude® Comfort Max Automatic PFD Vest

- USCG Approved Type II for persons at least 16 years of age weighing 80 lbs. and above with a chest size between 30" and 52"
- Automatic (with Manual Backup)
- Dual waist belt stainless steel adjusters. Provides for easy adjustment with both hands and a more custom fit.
- Exterior inflation system access flap. Allows for clear, direct access to the CO2 cylinder for rearming. CO2 cylinder can be replaced without opening and unfolding the entire PFD
- Waist strap and back strap attachment points fully connected and reinforced from inside for added strength
- Heavy duty 420 denier nylon packcloth outer cover
- Twin 2" wide back straps for comfort and security
- Includes USCG compliant whistle and SOLAS Grade retro-reflective tape panels on inflatable bladder
- Comfortable neck. The neck area has no Velcro or edge binding to cause chafing or abrasion for all-day comfort

Note: The cushion has UL and Coast Guard approvals for the countries in which they will be sold.

Boating Basics™ Package

Simply add the correct anchor, flares, first aid kit and fire extinguisher (if required) to make this package complete. This is just the right item for closing a package sale for use as a boat show special. Remember this is a low cost package that carries a high consumer value.

- (4) AF1 Adult life vests, orange, foam
- (1) White foam cushion
- (2) Boat fenders, 5" x 18"
- (1) Paddle, 48"
- (2) 3/8" x 15' white twisted nylon dock line
- (1) 3/8" x 100' white twisted nylon anchor line with thimble

772723

P/N	Description	Pack qty	Price	
772723	Boating Basics™ Package	1	DN83D98	\$119.97

Note: The cushion and all vests have UL and Coast Guard approvals for the countries in which they will be sold.

Evinrude® Rapala® Dive Lure

The Rapala® Dives-To Crankbait easily casts up to 150 feet, allowing it to dive deeper and stay in the strike zone longer. Constructed with premium balsa wood, optimally placed internal weights, and ultra-thin polycarbonate lip, the Dives-To series of crankbaits is designed to reach its preset depth and stay in the strike zone longer, with a side-to-side motion that creates intense vibration on the water without the use of a noisy rattle. Equipped with sticky-sharp VMC SureSet Tail hook for better hookups, time after time. Features a 2-inch body and dives to 6 feet.

- Sizes: 2 3/4"
- Color: blue gill

BRP US INC. LIMITED WARRANTY

Evinrude®/Johnson® GENUINE PARTS AND ACCESSORIES SOLD IN THE UNITED STATES AND CANADA

BRP US Inc.* ("BRP") warrants its Evinrude®/Johnson® Genuine Parts and accessories ("Product") sold by authorized Evinrude® or Johnson® dealers in the fifty United States and Canada from defects in material or workmanship for the period and under the conditions described below. This limited warranty does not apply to Products not bearing the Evinrude® or Johnson® trademarks that are made by other manufacturers. This limited warranty extends to the original retail purchaser only ("Purchaser") and is not transferable to any subsequent owner. This warranty is available only on Products purchased as new and unused from a dealer authorized to distribute the Products in the country in which the sale occurred ("Dealer").

- Aluminum propellers, plastic propellers, stainless steel propellers, Snap-In® control cables and Dura-Tank™ fuel tanks are warranted for THIRTY-SIX (36) CONSECUTIVE MONTHS from the date of purchase.
- ICON™ engine control systems and components are warranted for THIRTY-SIX (36) CONSECUTIVE MONTHS from the date of purchase.
- Powerhead assemblies are warranted for a period of TWELVE (12) CONSECUTIVE MONTHS from the date of purchase.
- All other Products are warranted for a period of TWELVE (12) CONSECUTIVE MONTHS from the date of purchase unless purchased at the time of the engine sale and listed on the Bill of Sale (BOS).
- Evinrude®/Johnson® Genuine Parts accessories sold and rigged by an authorized Evinrude® or Johnson® dealer in the fifty United States and Canada and listed on the BOS at the time of the engine sale will carry the same THIRTY-SIX (36) CONSECUTIVE MONTH WARRANTY as the BRP US INC. LIMITED WARRANTY FOR Evinrude® OUTBOARD ENGINES. Consumers must retain their BOS and present it to the servicing authorized Evinrude® or Johnson® dealer in order for the accessory warranty to be valid.
- All products purchased for COMMERCIAL USE, or used commercially at any time during the warranty period, are warranted for TWELVE (12) CONSECUTIVE MONTHS from the date of purchase. Product is used commercially when it is used in connection with any work or employment that generates income, during any part of the warranty period. Product is also used commercially when, at any point during the warranty period, it is installed on a boat that has commercial tags or is licensed for commercial use.

Limited Warranty for Allied Lines of Marine Accessories (not branded by Evinrude® or Johnson®)

Certain marine accessories in the Evinrude®/Johnson® Genuine Parts and Accessories Catalog are not sold under the Evinrude® or Johnson® brand names. These allied lines of marine accessories are located in the rear of the catalog and are identified by manufacturer or brand names (e.g. Teleflex®, Perko®, etc.). Warranty and product support for these marine accessories that are not branded by Evinrude® or Johnson® will be administered by the respective manufacturer. All inquiries to BRP US Inc. regarding these marine accessories will be directed to the proper manufacturer. To ensure faster and more direct response to warranty and product issues for these marine accessories please refer to the enclosed list and contact information. DO NOT return defective items or file a warranty claim with BRP US Inc. Warranty Department. Please contact the manufacturer directly. All of the marine accessories sold through this catalog come with a warranty established by the manufacturer. Statements of those warranties can be found on the packaging material packed with the product.

Vintage Parts

Parts identified as Vintage Parts in the catalog and in the BRP US Inc. Master Parts Price Book are not covered by BRP US Inc. Limited Warranty for Evinrude®/Johnson® Genuine Parts and Accessories. Vintage Parts are sold without warranty, but may be returned in certain circumstances. See the section on returns for conditions on return of Vintage Parts.

The following are not warranted under any circumstances: (a) normal wear and tear; (b) routine maintenance items including, but not limited to, adjustments, oil changes, water pumps, carburetor maintenance, spark plug replacements, etc.; (c) cosmetic damage or paint changes due to exposure to the elements; or (d) damage caused by: improper or lack of installation, maintenance, winterization and/or storage; failure to follow the procedures and recommendations in the Operator's Guide; removal of parts, improper repairs, service, maintenance, or modification; use of parts or accessories not manufactured or approved by BRP that are either incompatible with Product or adversely affect its operation, performance, or durability; repairs done by anyone, including Purchaser, other than an authorized Dealer; abuse, misuse, abnormal use, neglect, racing, improper operation or operation of Product in a manner inconsistent with the Operator's Guide; external damage, accident, submersion, water ingestion, fire, theft, vandalism or act of God; operation with fuels, oils or lubricants not suitable for use with Product (see Operator's Guide); rust or corrosion; or cooling system blockage by foreign material.

This warranty will be voided in its entirety and rendered null and void: (a) where Product has been altered or modified in such a way so as to adversely affect its operation, performance or durability, or has been altered or modified to change its intended use; or (b) where Product is or has been used for racing or any other competitive activity, at any point.

ALL WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO THE LIFE OF THIS EXPRESS LIMITED WARRANTY. ALL INCIDENTAL, CONSEQUENTIAL, DIRECT, INDIRECT OR OTHER DAMAGES OF ANY KIND ARE EXCLUDED FROM COVERAGE UNDER THIS WARRANTY INCLUDING, BUT NOT LIMITED TO: expense for gasoline, expense for transporting Product to and from Dealer, removal of Product from a boat and reinstallation, mechanic's travel time, in-and-out of water charges, slip or dock fees, trailering or towing, storage, telephone, cell phone, fax or telegram charges, rental of a like or replacement Product or boat during warranty services or down time, taxi, travel, lodging, loss of or damage to personal property, inconvenience, cost of insurance coverage, loan payments, loss of time, income, revenue, profits, enjoyment or use of Product.

SOME JURISDICTIONS DO NOT ALLOW FOR THE DISCLAIMERS, LIMITATIONS OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR OTHER EXCLUSIONS IDENTIFIED ABOVE. AS A RESULT, THEY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC RIGHTS, AND YOU MAY ALSO HAVE OTHER LEGAL RIGHTS THAT MAY VARY FROM JURISDICTION TO JURISDICTION.

Purchaser must bring the Product, including any defective part therein, and proof of purchase of the Product (original bill of sale) to Dealer promptly after the appearance of the defect and, in any event, within the warranty period. Purchaser must sign the repair/work order prior to repair to validate warranty coverage and must provide BRP/Dealer with a reasonable opportunity to repair/replace the defective part. All replaced parts become the property of BRP.

INFO SECTION (INF)

BRP's obligations under this warranty are limited to, at its sole discretion, repairing or replacing parts of Product found to be defective in material or workmanship, in BRP's reasonable judgment. Repair or replacement of parts will be without charge for parts and labor, at any authorized Dealer. No claim of breach of warranty shall be cause for cancellation or rescission of the sale of Product to Purchaser. BRP reserves the right to improve, modify or change Products without assuming any obligation to modify Products previously manufactured. If warranty service is required outside of the fifty United States or Canada, Purchaser will bear responsibility for any additional charges due to local practices and conditions including, but not limited to, freight, insurance, taxes, license fees, import duties, and any financial charges levied by governments, states, territories and agencies.

No distributor, Dealer or any other person is authorized to make any affirmation, representation or warranty regarding Product other than those contained in this limited warranty and, if made, shall not be enforceable against BRP. BRP reserves the right to modify this warranty at any time, being understood that such modification will not alter the warranty conditions applicable to the Products sold while this warranty is in effect. For assistance, please contact BRP US Inc. Consumer Support, P.O. Box 597, 10101 Science Drive, Sturtevant, WI 53177, 1-847-689-7090 or visit www.brp.com.

The Limited Warranty applies only to Products purchased as new and unused from a distributor or dealer authorized to distribute Products in the country in which the sale occurred.

If warranty service is required outside of the country of original sale, Purchaser bears responsibility for any and all charges due to local practices and conditions that exceed or are in addition to customary charges in the country of sale, such as, but not limited to, freight, insurance, taxes, license fees, import duties, and any financial charges levied by governments, states, territories and agencies.

For assistance, please contact BRP US Inc. Consumer Support, P.O. Box 597, 10101 Science Drive, Sturtevant, WI 53177, 1-847-689-7090, or the affiliate of BRP Inc. where the Product was sold to the retail Purchaser.

No other change to the Limited Warranty shall be made or implied.

Effective as of July 1, 2011.

* In Canada, products are distributed and serviced by Bombardier Recreational Products Inc.

® Registered trademark of Bombardier Recreational Products Inc. or its affiliates.

© 2011 BRP US Inc. All rights reserved.

Prices

Prices subject to change without notice and orders will be billed at prices in effect at the time of shipment. All prices shown are manufacturer's suggested list prices unless noted otherwise. (Refer to discount schedule.)

Credit

We will be pleased to extend credit privileges to those customers who qualify. **To apply for open credit, please complete our credit application form which is included in this catalog or can be acquired by contacting us, and attach current financial statement and information as stipulated on the Credit Application.** Orders will be shipped on a cash in advance basis until a credit line has been established. Once credit is established, periodic updates of credit information will be required.

Payment Terms

Open account terms are available on net 15th proximately (payment due on the fifteenth (15th) day of each month for shipments through the last billing day of the prior month). **Continuing open account terms will be granted only to those customers who continue to be current in their regular open account.** In addition, BRP US Inc. reserves the right at any time to require open account customers, as a condition of continuing to be dealt with on an open account basis, to execute necessary documents to secure BRP US Inc. financial interests in customer's open account. All other customer accounts will be placed on a prepayment basis.

If any amount on the customer's regular open account or dating order becomes past due and owing, in the event of a bulk sale or transfer of ownership, or in the event that any dealer agreement between BRP US Inc. and the dealer expires or is cancelled, BRP US Inc. shall have the right, at its option and without prior notice to the customer, to declare all amounts and balances owed to BRP US Inc. under any dating term account of the customer to be immediately due and payable, together with any amount past due and owing on the regular open account, all of which amounts shall then be subject to the service fee stated herein.

In the event any amount becomes past due and owing on the customer's regular open credit account, BRP US Inc. shall have the right to apply all credits, monies, balances or property of the customer held by BRP US Inc. and owed to the customer to the amount past due and owing on the customer's regular open credit account. The past due amounts of all accounts not paid in accordance with the terms set forth above shall be charged a service fee at the maximum rate permitted by law, not to exceed 1 1/2% per month (18% per annum). There will be a \$25.00 charge on returned checks.

Damaged Shipments

Please notify carrier (Motor Freight, UPS, Parcel Post) when you receive a damaged shipment, or suspected damaged shipment.

Shipment Shortages, Incorrect Parts and Non-receipt

Please phone in shortages and discrepancies to PAC customer service at (800) 888-4662 (option 3 or 2). Do not reorder parts in hopes that the correct part will arrive as we aim to have all customers receive the correct parts they order.

Shipments are considered complete if shortage is not reported within 10 days of receipt.

Propeller Exchange Program

1. Return the propeller you want to exchange on an RCM form to BRP US Inc. Beloit, WI facility. In the box with the RCM form should be an order for the new propeller. When received, BRP US Inc. will credit you for the propeller returned and we will generate an order for the propeller requested. We will accept new, unused Evinrude®/Johnson® propellers with a stock activity code of 1, 2, 3 or 4 (see your current Master Parts Price Book for activity codes).
2. Returned propellers must be shipped to BRP US Inc. proper facility in new, unused and resaleable condition. **Propeller must be in the undamaged, original propeller carton.** Propellers that are shipped with engines that do not have a box, must be carefully packaged so they will not be marred or damaged in shipment. Any props returned that are not packaged or the boxes damaged will be charged a nominal reboxing fee. All propeller returns must be shipped freight prepaid to BRP US Inc.
3. If you have any questions regarding the propeller exchange program, please contact our dealer support group in Sturtevant, WI (800) 888-4662 (option 3).

Returns

1. All defective parts covered under warranty should be handled by a warranty claim submitted via DealerPort or using p/n 773629, submitted to the Warranty Department at Box 597, Sturtevant, WI 53177. Parts returns should be submitted at 300 Sea Horse Drive Dock 5, Waukegan, IL 60085.
2. All returns unrelated to warranty must be **freight prepaid** to the Beloit distribution center.
• BRP US Inc., Attn.: Returns, 3225 N. Prairie Avenue, Beloit, WI 53511
3. All returns must be in original parts packaging and in good resalable condition. Items needing to be re-boxed will be completed at a small charge to the dealer.
4. The following items are not returnable:
 - a. Literature
 - b. Drop ship items (custom motor brackets, cloth motor covers, shrink wrap, etc.) Please contact customer service at (800) 888-4662 (option 3) if you have any problems with a drop ship items.
 - c. Superseded, obsolete and discontinued parts (Activity code 7 in the Master Parts Price Book).
5. Handling Returns (except for Vintage Parts)
 - a. Parts can be returned freight prepaid to the Beloit distribution center if returned within 90 days of receipt. However, parts listed in item #4 above are not returnable, even within this 90 day period. Vintage Parts are not covered by this 90 day return policy and Allied Lines of marine accessories are returnable only according to the conditions below. Parts with activity codes of 1, 2 or 3 at the time of return (check latest Master Parts Price Book) can be sent back with no restocking charge. Parts with activity codes of 4,5 and 6 may be returned with a restocking charge of 15% of the original invoice price. Any parts to be returned after 90 days of receipt will require written approval (Return Authorization Form) from BRP US Inc. prior to the return of the merchandise and may be subject to a 25% restocking fee. All other items should be returned on a standard RCM form P/N #11111 and shipped freight prepaid to the Beloit, WI distribution center.
 - i. Canadian returns must be shipped to: Bombardier Recreational Products, c/o Affiliated Customs Broker Limited, Warehouse & Distribution Center, 500 Carlingview Drive, Etobicoke, Ontario M9W5R3.
 - ii. All shipments to the customs broker must be freight prepaid by the dealer.
 - iii. Please note, due to Border/Customs issues, credit may take up to 90 days to appear on your statement.
 - b. Allied lines of marine accessories may be returned to BRP US Inc. within 90 days of receipt and without approval from BRP US Inc. ONLY if the wrong item was shipped. In all other cases, the return must be in writing by BRP US Inc..
6. Vintage Parts Returns
 - a. Return of Vintage Parts is allowed under the following circumstances:
 - i. Vintage Part was damaged when received
 - ii. Vintage Part was not new when received
 - iii. Wrong Vintage Part was shipped
 - iv. *Returns must be made within 30 business days, in original packaging and must include a copy of the original packing slip .*
 - b. U.S. dealer ship to: Vintage Parts, 2501 Harbor Ave. SW, Seattle, WA 98126

Stock Activity Code Explanation

1. Most active part: should be considered as regular stock item.
2. Fast-moving part: should be considered as regular stock item by most dealers.
3. Less active part: should be stocked according to demand.
4. Slow-moving part: order only as needed.
5. Very slow-moving part: order only as needed.
6. For special order.
7. Obsolete and not available, and **not** returnable.

Shortages and Incorrect Parts

Please phone in shortages and discrepancies to PAC customer service at (800) 888-4662 (option 3 or 2). Do not reorder parts in hopes that the correct part will arrive as we aim to have all customers receive the correct parts they order.

Ordering Information

Please specify quantity first then part number when ordering merchandise. This will enable us to give you prompt, efficient service. All orders received are subject to acceptance and approval. There will be an \$8.00 handling fee charged to your dealer account for orders placed using other means than the DealerPort™ website. Vintage Parts shipped to Canada will incur duty and brokerage fees. Cash-In-Advance Customer Freight Charge - 8% Shipping and Handling.

DealerPort™ Ordering

A computerized dealer support system, DealerPort™, is available to provide authorized dealers with part availability inquiry, backorder status checking, and order entry capability. Contact your district sales manager or customer service representative for details and a demonstration. Call customer service [(800) 888-4662 option 3] with any questions. Normal monthly cost is \$70 (US) or \$95 (CA) per month.

DealerPort™ Emergency Orders

- Use EM order type (Process Code/Order Type)
- \$15.00 priority handling fee (6 line maximum)

Emergency Orders

- Call (800) 888-4662 (option 3)
- \$15.00 priority handling fee (6 line maximum)

Regular Order

Orders received at the shipping warehouse by cut-off (see chart below), are shipped the same day depending on account status. All orders must be released by the credit department prior to the warehouse cutoff time. It is the responsibility of the customer to make sure their account is in good standing.

DealerPort™ orders left on hold will automatically release to the warehouse overnight for processing at 10 PM (CST).

Customer Service Hours

Parts & Accessories Sales (option 3)

Dealer Pickup

To place an order for dealer pick-up at any of our distribution center, dealers need to place their orders within the normal cutoff period and give the distribution center a minimum of 2 hours to process the order after the order has padded through credit. Once an order had passed through credit it will be assigned an invoice number. No orders may be picked up before 11:00 AM the same day or after 4:30 PM branch time regardless of the time the order was placed. All questions about dealer pick-ups or placing an order for dealer pick-up at any of our parts distribution centers can be handled by your Parts and Accessories Customer Service Representative at (800) 888-4662 (option 3).

EMM & ECU Ordering Information

For part numbers and pricing go to DealerPort.com.

The purchase of an *EMM/ECU* is restricted to full line, package or service dealers only. Authorization is NOT required for replacement of out of warranty units. All *EMMs* have a one-year limited warranty.

IMPORTANT: *EMMs* are NOT returnable. Make sure the *EMM* is the source of the problem. No tests will be performed on units sent in for replacement.

Note: For outboards **WITHIN** the factory warranty period refer to Administrative Bulletin 2011-02(A).

PROCEDURE

1. Connect the diagnostic cable to the engine. Start *Evinrude Diagnostics* software. Press *Connect* to communicate with the *EMM*®. Next, save and print and *Engine Identification Report*.
2. Select the correct *EMM* part number from the **EMM PART NUMBER CHARTS** on DealerPort.com.
3. Complete the **EMM Order Form** on the next page.
4. Package the *EMM* to protect it from damage. Damaged or missing units are subject to a \$100.00 core charge. Be sure to include the *EMM Order Form* and the *Engine Identification Report*.

*If unable to communicate with the *EMM* obtain:

- the engine serial number
- the engine model number
- estimated engine hours
- the 14-digit serial number of each fuel injector with its corresponding cylinder number

IMPORTANT: Send *EMM* only, Do not send *EMM* mounting screws or grommets. Parts other than the *EMM* will **NOT** be returned or replaced.

The old *EMM* becomes the property of *Evinrude®/Johnson® Genuine Parts*.

EMMs are returned ground prepaid. NEXT DAY C.O.D. is not available.

Note: *EMM/ECUs* do not qualify for the free freight program.

If you require next day or second day shipment, please indicate this on the *EMM Order Form*. BRP US Inc. is not responsible for any shipping delays once a package leaves its facility or any duties, fees or customs charges. Please make your customer aware of that there may be extra time involved for your shipment to clear customs.

Allow two business days for processing of in stock *EMMs* (not including shipping).

All *EMM/ECU* units carry a one-year limited warranty.

For all **NEW EMM/ECUs** that are being replaced on an engine that is under warranty, please contact Dealer Support for authorization and shipping instructions.

For questions regarding return shipment of your order, call: (800) 888-4662 (option 3).

OrderPro

The online system OrderPro is designed to ensure that no item falls through the cracks, that your order fulfills your dealership's unique needs.

Here's how OrderPro works: Based on your parts ordering and usage history, OrderPro generates a comprehensive list of suggested items for your program order. We have designed this system with the goal of encouraging you to stock as broadly as possible based on your historical needs, not just deeply in a few parts. The result will be more jobs finished with less time spent waiting for parts to come in.

1. Go to <http://www.dealerport.com>, click on 'PAC' in the heading and then click on the OrderPro link on the left hand side of the screen. After entering an E-mail address and viewing the brief tutorial, set the target dollar amount you plan to spend on your program order. The system will then automatically create an order using your unique mix of parts to hit this target dollar amount.
2. Review the list. For complete details as to why a particular item has been placed on your customized list, click "View." Again, it is important to note that every item and quantity that OrderPro has suggested is based on your ordering history.

Important

If you participate in the StockPro™ Part Locator, your OrderPro list is based upon your existing inventory. If you aren't yet active with StockPro™, your OrderPro list is based on the assumption you do not have items on hand. You will have to manually check your order against your current inventory.

3. Edit your order based upon your inventory and your needs. Updates are automatically saved as you go. If you have a need for parts that do not appear on the list, click on the "Add Parts" button.
4. When you are done with your order click, "Approve Order." It's just that simple!

TIP: Visit the OrderPro tutorial at <http://www.dealerport.com> and take a few minutes to get to know this essential new ordering tool.

Note: OrderPro available for stocking programs only.

DealerPort™ Website

DealerPort™ features:

- The home page welcomes users with three tabs of information - **What's New** lists current news; **Latest PR** displays press releases; and **Latest Promos** lists sales promotions
 - The Engines page features pictures and specifications for current model year motors and engine availability
 - Offline CD-ROM/DVD-ROM and online Electronic Parts Catalog (EPC) displays motor part catalogs from 1968 through the current model year, with component images, parts lists and pricing. Service and Sales Bulletins appear as links when appropriate.
 - Online Help pages offer a Reference Guide for online viewing, downloading or printing
- New information is regularly posted and updated on DealerPort™. It is best to log onto DealerPort™ at least one time a day to ensure that you receive the most current information.

System Requirements The speed at which information is sent and received will be dependent on each individual computer set-up, modem or ISP. The minimum system requirements are listed below:

- Pentium® III Computer (DealerPort™ is not fully compatible with Macintosh® computers).
- 512MB RAM
- High-speed internet connection recommended (Not provided by BRP)
- SVGA Monitor, resolution 1024 x 768
- Microsoft® Internet Explorer® version 7.0
- CD-ROM drive
- Microsoft® Windows® XP, 2000, NT, or newer

Online Functions:

- Check warranty registrations
- Enter warranty claims and check status
- Check engine history, purchase dates and warranty claims on a specific motor
- Check parts availability at BRP and at other dealers
- Enter parts orders and check status
- Locate frequently ordered parts (Quick Reference)
- Check engine availability and engine order status
- Access Electronic Parts Catalog (EPC)
- Electronic payment

Offline Functions:

- CD-ROM based Electronic Parts Catalog
- Build a batch order during the day and then transmit later
- Submit orders for stocking, emergency, dating and special orders
- Retain transmitted orders until you delete them
- Build a customer quote
- Apply discounts to a customer quote or any line item
- Convert customer quotes to batch orders
- Change, print and transmit batch orders

Offline Master Parts Price Book:

- Determine the price of a part
- Determine the dealer cost of a part
- Calculate a special price for a part
- Determine superseding chain of a part
- Determine if a part is obsolete or no longer available
- Determine the stocking activity level of a part
- Establish a part locator file for your inventory
- Print part locator file

Note: For additional information, please contact the DealerPort™ Help Desk at 800-888-4662 or E-mail DealerPort@brp.com

StockPro™ Part Locator...Dealers Love it!

**STOCK
PRO**
A better way to take stock

Parts Manager, Main Marine & Ski, Inc., Racine, WI. *"I love the Part Locator! I am getting calls several times a week from dealers in other states for old parts that I have in stock. It is helping me to move parts that I don't think I would have sold otherwise. I have sold wiring harnesses and other parts that I know were here before I joined the dealership 10 years ago. I know of at least two customers who had their weekend boating saved because their dealers, who were only about an hour away, were able to come to our store and get some needed parts. "I love that it is automatic. All you have to do is punch in the part number and if it isn't in stock you can then search and find out who has it. It's fantastic!"*

And It's Easy! Part Locator searching begins with typing a part number, choosing a manufacturer and then clicking "SEARCH." If you are searching for a BRP Evinrude®/Johnson® part you will see a screen display like the example to the left.

This screen displays a part not available from Evinrude/Johnson Genuine Parts. Near the bottom of the screen you will see a display of dealers inventory listed in distance sequence. This detail is even shown on parts not available from us because of backorders. This may allow you to resolve a critical customer problem.

If you don't already have a professional business system, we strongly urge you to do so as soon as possible. The StockPro system is currently supported by the business systems listed on the DealerPort™ website, click on PAC, click on Part Locator, then click on "Help" on the upper left of the Part Locator screen. We encourage you to contact one of these companies.

Dealer/Distributor Credit Application, cont'd

✓ BUSINESS FINANCIAL INFORMATION Attach last three (3) year's audited business financial statements (balance sheet and profit & loss statements)
✓ PERSONAL FINANCIAL INFORMATION Attach recent personal financial statements (assets & liabilities information)

Applicant and I/we acknowledge that the information provided herein and in the attached documents is for the purpose of enabling BRP US Inc., Bombardier Recreational Products Inc. and their parents, affiliates and subsidiaries (collectively "BRP") to perform a credit analysis and possibly conduct business with applicant. Applicant and I/we certify that all such information is true, complete, strictly accurate and it is not misleading in any way. The applicant and I/we authorize BRP to make, now and from time to time, all inquiries it deems desirable, in its sole discretion, to verify the accuracy of the information provided, and to determine applicant and my/our credit worthiness and financial soundness in connection with evaluating, establishing, reviewing, extending credit or collecting amounts advanced under a credit line, and otherwise for the purpose of doing business with BRP. Applicant and I/we further explicitly authorize all creditors and credit references and any third party contacted by BRP, including without limitation credit bureaus, banks, financial institutions, accountants and businesses, now and from time to time, to release any information that may be requested by BRP in its sole discretion, including without limitation information on the bank accounts, loans, security interests and lines of credit of applicant and me/us. Finally, applicant and I/we authorize BRP to release information and answer questions about its credit and business experiences with applicant and me/us. Applicant and I/we acknowledge that submitting this application does not grant any right to obtain credit or to purchase and distribute BRP products. BRP reserves its absolute discretion to approve or disapprove this application and to withdraw approval at any time for any reason or no reason at all. Additional information may be requested during the review process. The granting of credit, if any, does not oblige BRP to sell any good to applicant. Applicant and I/we agree that, if ever BRP sells goods to applicant, the BRP sales terms and conditions shall apply to all such sales, without any modification or additional terms, which are non binding and expressly objected to and rejected by BRP. The undersigned individuals guaranty that they have the authority to bind the applicant, and they do acknowledge that in executing this credit application, they are binding themselves personally and the applicant.

All owners of applicant must sign. Use additional sheets, if needed.
